The world today and tomorrow

Trends that define us

The world today and tomorrow

Urbanization

Smart cities are on the rise. People are reassessing what they want from urban living.

200,000

people move to a city
each day

7 billion

people will be living in
urban areas by 2050

11,000+

new buildings worldwide

Access solutions follow infrastructure: more large cities and urban areas – especially in emerging markets – increase the demand for infrastructure and residential, commercial and public space. Properties need to be secured and people flow needs to be organized efficiently in an increasingly complex infrastructure.

The world today and tomorrow

Increasing need for security

Globalization and an increasing number of geopolitical risks and developments drive the need for security in everyday life. People are searching for trusted partners with experience and innovative solutions to provide reliable security.

Digital security

The protection of data and digital network assets

Economic security

The safeguarding of financial stability and basic living

Physical security

The protection from external threats to life or health

Social security

The protection of citizen rights and civil liberties, including water security, education, etc.

The world today and tomorrow

Sustainability

Green architecture supports the battle against climate change on the part of the building industry.

39%

of annual global CO₂ emissions come from the construction and operation of buildings

~17,4%

annual growth of the global green building industry

2x

doubling the annual renovation rate by 2030 (EU Green Deal).

Decarbonization and ecological impact continue to gain importance. Climate change has become one of the most important environmental and social issues of the past decade and will be a crucial challenge in the years to come. In return, this affects the requirements buildings need to meet and the building industry has a special responsibility in that respect.

The world today and tomorrow

Technological progress

The disruptive nature of technological evolution continues to transform the world.

65%

of the world's population has access to the internet

90%

of the world's data was generated within the past two years alone

5.4 billion

people in the world own a mobile device

Digitalization impacts how value is generated and innovation grows with demand. Innovation remains fast paced, with customers demanding more secure, efficient and sustainable solutions that match their expected ROI.

The access industry is changing

Touchless access

Shift to electromechanical

Integrated & connected components

Merger of access & flow

Access-as-a-Service

Mobile & biometric authentication

Customer first, always

The field in which we operate

Customer first, always

Our Purpose

“For every place that matters”

We are where our communities come together. We are in all the places that matter to our life in society.

Customer first, always

Our Vision

We want to be the trusted partner worldwide for safe, secure and sustainable places where people can move seamlessly.

In the heart of every place

Our offering

In the heart of every place

Access Reimagined

**Balancing form and function?
We enable both.**

We enable our customers worldwide to deliver the architectural vision of a building.

In the heart of every place

Integrated Access

Integrated access at every stage of the building lifecycle

We enable our customers worldwide to integrate planning, management and maintenance of access.

In the heart of every place

Seamless Flow

Making the flow of people as effortless as possible

We enable our customers worldwide to provide a safe and secure flow of people throughout their premises.

In the heart of every place

Sustainability

Answering your needs for a sustainable built environment

We enable our customers worldwide to sustainably create value across the building lifecycle.

In the heart of every place

We offer in-depth knowledge and expertise to diverse sectors

Airports

Healthcare

Offices

Hospitality

Education

Retail

Banking & Insurance

Government & Administration

Residential & Multi-family housing

Sports & Culture

Transport & Logistics

Industry & Manufacturing

Utilities & Telecoms

In the heart of every place

Advanced solutions are our passion

Business	Offering

Rooted in the past, performing for the future

Our heritage

Rooted in the past, performing for the future

A strong heritage

KABA

DORMA

1862

Founding of a workshop for locks and safes, later becoming the KABA brand

1934

Patent registration for reversible key lock

2000/01

Acquisition of Unican

2009

First worldwide airport e-gates for self boarding

2015

Merger of Dorma and Kaba, going forward together as dormakaba

dormakaba

2015/16

First cloud-based access solutions

2019/20

Rated EcoVadis Gold for sustainability management

2023

Award-winning new generation of heavy duty door closers EHD 9000

1908

Founding of Dörken & Mankel KG, abbreviated as DORMA

1950

Entry into the door closer market

1962

Production of the first automatic operators

2002

Entry into the mobile partition systems business

2016/17

Acquisitions in the US including Skyfold and the BEST brand

2021/22

Launch of the EntriWorX EcoSystem

Awarded one of the most sustainable companies in Switzerland

Initiation of a transformation program (S4G)

The way ahead is digital

Innovation-driven approaches

The way ahead is digital

We continuously drive innovation

Our offering uses digitalization to enable our customers to enhance their productivity and sustainability.

For example:

- **EntriWorX**: The intelligent door to facilitate planning and installation of sophisticated access
- **resivo**: A cloud platform for facility management designed for tenants and owners in multi-housing
- **Argus V60**: a space-saving speed gate with proprietary tailgating sensory technology
- **ST PRO Green RC3**: An energy-saving automatic sliding door with a thermally separated profile system
- **BEST EHD9000**: A heavy-duty cast-iron door closer with self-regulating valves and proprietary ester oil allowing automatic adjustment for changes in temperature maintaining desired functionality.

The way ahead is digital

Open platforms allow for new forms of connectivity

Where several platforms interact, entire new digital ecosystems emerge.

We develop digital products and services based on open platforms that can connect and share data with others.

For example:

- Hospitality services
- Rental services
- Delivery services
- Building management
- Co-working platforms

The way ahead is digital

EntriWorX: differentiation through digitalization & domain know-how

The way ahead is digital

EntriWorX: measurable productivity gains for our customers

Facility Managers

up to 1 FTE less per building

Architects & Planners

up to 20% time savings in planning

Ecosystem Partner

up to CHF 80,000 cost reduction

Installers

up to 50% less installation time

Building with conscience

Sustainability as a key differentiator

Building with conscience

Think tomorrow

We are committed to championing sustainability in everything we do, from producing greener access solutions to being a fair and responsible employer and neighbor.

A beacon in everything we do

We seek an open, transparent dialogue with all stakeholders to define strategies and actions based on clear targets and continuous improvement, and we actively report on our progress.

- Sustainable development and production of products
- Responsible dealings with **employees** and business partners
- Transparent **reporting** through recognized standards
- **Membership** and commitment to **leading international** and national sustainability **organizations**
- **External assessment** of own sustainability management, e.g., **ratings**

We contribute to the United Nations Sustainable Development Goals

These nine SDGs are the most aligned to our sustainability strategy.

Sustainability Strategic Framework 2021-2027

Planet	People	Partnerships
<p>We open the doors wide to a low-carbon and circular economy</p>	<p>We empower our people so that they can unlock their full potential</p>	<p>We collaborate to promote sustainable development beyond our own doors</p>
<p>We develop innovative and resource-efficient solutions for the circular economy and do our part to ensure a climate-resilient future. We offer durable and energy-efficient products that help our customers achieve their own sustainability goals.</p>	<p>We create a fair, inclusive and safe culture which enables our employees to thrive. We provide a workplace where they can continuously grow, openly contribute with their ideas and feel proud of their achievements.</p>	<p>We lead by example and engage with our partners to drive more eco-friendly practices and support the protection of human rights. Through our secure access solutions, we also contribute to people's health and safety. We work with partners to raise awareness of safe operating practices for our products.</p>
<ul style="list-style-type: none"> • Energy & Emissions • Circular Economy & Materials • Environmental Compliance 	<ul style="list-style-type: none"> • Fair Employment • Training & Education • Diversity & Inclusion • Occupational Health & Safety 	<ul style="list-style-type: none"> • Supplier Sustainable Development • Human Rights • Customer Health & Safety

30+ ESG targets

People put their trust in us

Iconic references around the globe

People put their trust in us

Iconic projects are built with our solutions

Around the world, cutting-edge buildings and complex facilities rely on our convenient, secure and attractive access systems.

These references highlight the quality and flexibility of our products, solutions and services.
