Automatic Swing Door Operator ED 100/250 by dormakaba

Health Product Declaration v2.3 created via: HPDC Online Builder

Basic Method / Product Threshold

HPD UNIQUE IDENTIFIER: 31966

CLASSIFICATION: 08 42 29.33 Swinging Automatic Entrances

PRODUCT DESCRIPTION: The dormakaba ED 100 and ES 250 are compact next generation electromechanical swing door operators that are innovative, simple, and elegant. The operators are discreet both visually and audibly. Their elegant Contur design blends into and enhances any décor. With virtually silent operation, the automation of the door can be easily integrated without compromising the style and feel of the entrance.

Section 1: Summary

CONTENT INVENTORY

Inventory Reporting Threshold Level **Residuals/Impurities Evaluation** For all contents above the threshold, the manufacturer has: Format Characterized • Yes O No • 100 ppm Completed C Nested Materials Method C 1,000 ppm C Partially Completed Provided weight and role. Basic Method
 O Per GHS SDS O Not Completed Screened ⊙ Yes ○ No O Other Provided screening results using HPDC-approved **Threshold Disclosed Per** Explanation(s) provided : methods. • Yes O No O Material Identified ⊙ Yes ○ No • Product Provided name and CAS RN or other identifier.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

PRODUCT | MATERIAL OR SUBSTANCE | RESIDUAL OR IMPURITY GREENSCREEN SCORE | HAZARD TYPE

INVENTORY AND SCREENING NOTES:

Special Conditions applied: [Electronics]

This HPD was created with Basic Inventory. Substances are listed by weight in the entire product instead of by material. All substances over 1000 ppm or 100 ppm of the product are reported.

CERTIFICATIONS AND COMPLIANCE See Section 3 for additional

listings.

VOC emissions: CDPH Standard Method V1.1 (Section 01350/CHPS) - Zero VOC emissions

CONSISTENCY WITH OTHER PROGRAMS

Pre-checked for LEED v4 Option 1. Pre-checked for LEED v4.1 Option 1.

Third Party Verified?	PREPARER: Self-Prepared	SCREENING DATE: 2023-03-30

No	VERIFICATION #:	EXPIRY DATE: 2026-03-30

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

AUTOMATIC SWING DOOR OPERATOR ED 100/250 PRODUCT THRESHOLD: 100 ppm RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes

RESIDUALS AND IMPURITIES NOTES: No residuals or impurities are expected in these materials at or above the inventory threshold. dormakada products consist of finished components, and no chemical reactions are needed to develop our products.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
