

# Be Strong

## V1

In a world that's weak and passive  
Searching for a place to stand  
A thousand different voices shouting  
Empty words hollow commands

## V2

There's a longing deep inside  
For a taste that satisfies  
Not just quenching pangs of hunger  
But to fuel this passion growing

## PC

But in all hope is what I need  
So I'll cling to my last breath these words

## CHORUS

Be strong take courage  
Don't live in fear  
Your God's not distant  
Your words He'll hear

## V3

No more will I stand in silence  
No more will I stand aside  
Change is coming can't you feel it  
Pulsing through your veins like fire

## PC

But in all hope is what I need  
So I'll cling to my last breath these words

## CHORUS x2

## BRIDGE x2

Unstoppable is the waterfall  
Of the truth we now embrace  
Unshakable is the call we've heard  
That bids our hearts to wake

## CHORUS 1

## CHORUS 2

Be strong take courage  
His words are true  
He will not fail  
Forsake or abandon you
