### HILLS we die on

WE ARE COMMITTED TO:

### **Biblical Truth**

Crossroads is a place for people on every part of the spiritual journey, from those just investigating whether there is a God to those who have made following Christ the priority of their life. The Bible presents a dangerous message of life change. We don't assume everyone believes, or even knows the Bible, but we do assume everyone who comes through our doors is open to exploring it. We believe the Bible is God's inerrant truth and it's the foundation to everything we do.

The Seven Hills We Die On are applications of biblical truth expressed through the unique personality of Crossroads. Check out the Info Center for the rest of 'em.

Join us in July and August to hear from city-changers in our own community.

# WHY I LOVE CINCINNATI: THE RIVER.

Since the first riverfront settlements in 1778, Cincinnati's growth has been linked to the Ohio River, which has served as an important commercial route, especially in the 1800s.

The river also has served as a natural barrier, separating the English settlements in Kentucky from the American Indians to the north, and later demarcating the free north from the slave states in the south. But now that we're all friends, there are several ways to cross the river that separates two states but combines our greater Cincinnati community:

Anderson Ferry has been in continuous operation since 1817. Located about eight miles west of downtown, it connects Anderson Ferry Road to Route 8 in Kentucky and is the lone survivor of dozens of ferries that once served the area.

There are seven vehicular bridges that cross the Ohio in the Cincinnati area, as well as one pedestrian bridge. The most distinctive of all these is the **John A**. **Roebling Suspension Bridge**. At the time it was completed in December 1866, its 1057-foot main span was the longest in the world. It was also the first bridge to utilize vertical suspenders and diagonal stays, and was a prototype for the Brooklyn Bridge. Originally brown, the bridge was painted blue in 1896.

We need photos of your favorite places in Cincinnati. Send them to TheProgram@crossroads.net.
