

# Faithful

## V1

You are the God who wrestles with the hearts of men

Won't You wrestle with this heart again

Won't You wrestle with my heart

You are the God who led us to the promised land

Who led us through the sea on land

Won't You lead us there again

## V2

You are the God who whispers from within the wind

Clear and strong, the words You send

Won't You speak to us again

You are the God whose voice calms the sea and wind

While thunder claps storms rage within

Won't You bring Your peace again

## V3

You are the God

Who's with us in the lion's den

You save our souls when fear creeps in

Won't You save us again

## **BRIDGE**

Faithful, You've always been faithful

Yesterday today forever

Faithful You've always been faithful

Here and now forever you are

Faithful You've always been faithful

Yesterday today forever

Faithful You've always been

## **OUTRO**

You are the God who wrestles with the hearts of men

Won't You wrestle with this heart again

Won't You wrestle with my heart
