GUIDE

Type
2

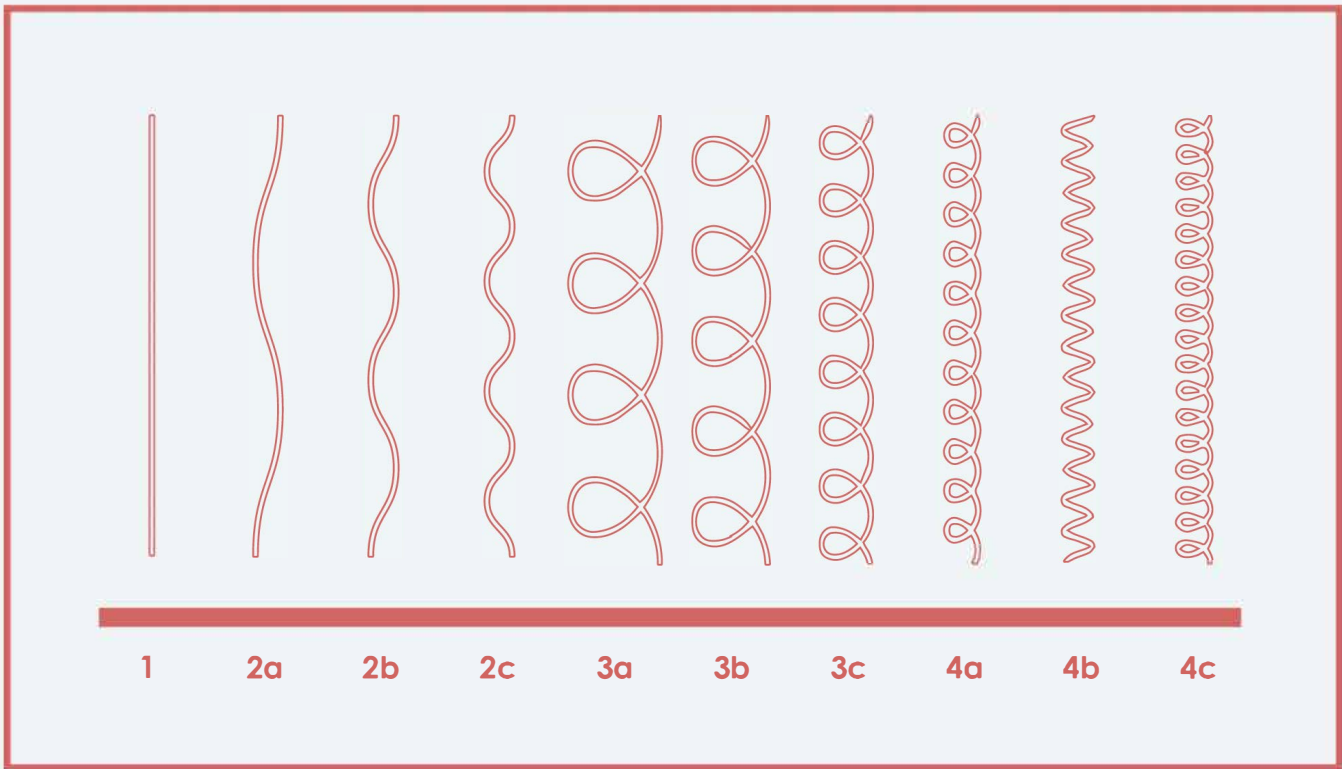

Type 2 hair is prone to frizz, so Type 2 hair works best with a balancing product that allows moisture to seep in while keeping its shape.

Type
3

Type 3 hair tends to have a dry texture and can be very fine in weight. Type 3 hair responds well to product applied to wet hair.

Type
4

Type 4 hair retains its shape whether wet or dry, and needs extra moisture to define curl pattern.
