Care with Kaiser Permanente clinicians

You're in great hands when you choose care from Kaiser Permanente clinicians practicing at Kaiser Permanente facilities – either online or in person.

- 1 **They come from some of the top medical schools**, and many have practiced at leading hospitals across the country.
- 2 **Care is connected.** Your doctor, nurses, and other specialists work together to help keep you healthy.
- 3 **You and your care team are linked through your electronic health record**, so you all know what care you've had and what you need.

Care with other network clinicians

We look for the same quality and philosophy of care in our community providers that we expect from our own doctors and staff.

- **All providers must meet our high clinical quality** and patient satisfaction standards.
- **We remind your community providers** about preventive care you might need.
- **Our community providers can access Kaiser Permanente's clinical resources**, including:
 - Detailed treatment guides on a wide range of conditions
 - Clinical tips for daily practice
 - Safety information on new drugs
 - New research results that can benefit patients
 - Additional training and continuing education opportunities

Safe travels

You're covered for emergency care and medically necessary urgent care anywhere in the world.
