

PELOTON

Peloton Commercial Bike

Our iconic bike, now built for the gym floor

The Peloton Commercial Bike brings the Peloton connected cycling experience to high-performance commercial gyms. For operators, it creates a destination that attracts exercisers through instructors they connect with, a community they become part of, and workouts that motivate, challenge and inspire them to keep coming back.

The features

Signature design

Beautiful design, precision-fit adjustments and immersive technology come together to deliver the transformative Peloton rides your exercisers have always wanted to experience at the gym.

A truly personalised experience

Extensive workout styles, real-time performance feedback and Leaderboard immersion bring the excitement of Peloton Studios to your gym floor.

A bike built for every level of performance

A precision-engineered aluminium alloy frame delivers a sturdy, supportive ride, while dual-sided SPD pedals accommodate both cycling and everyday trainers, making it easy for anyone to hop on and ride.

Access for everyone

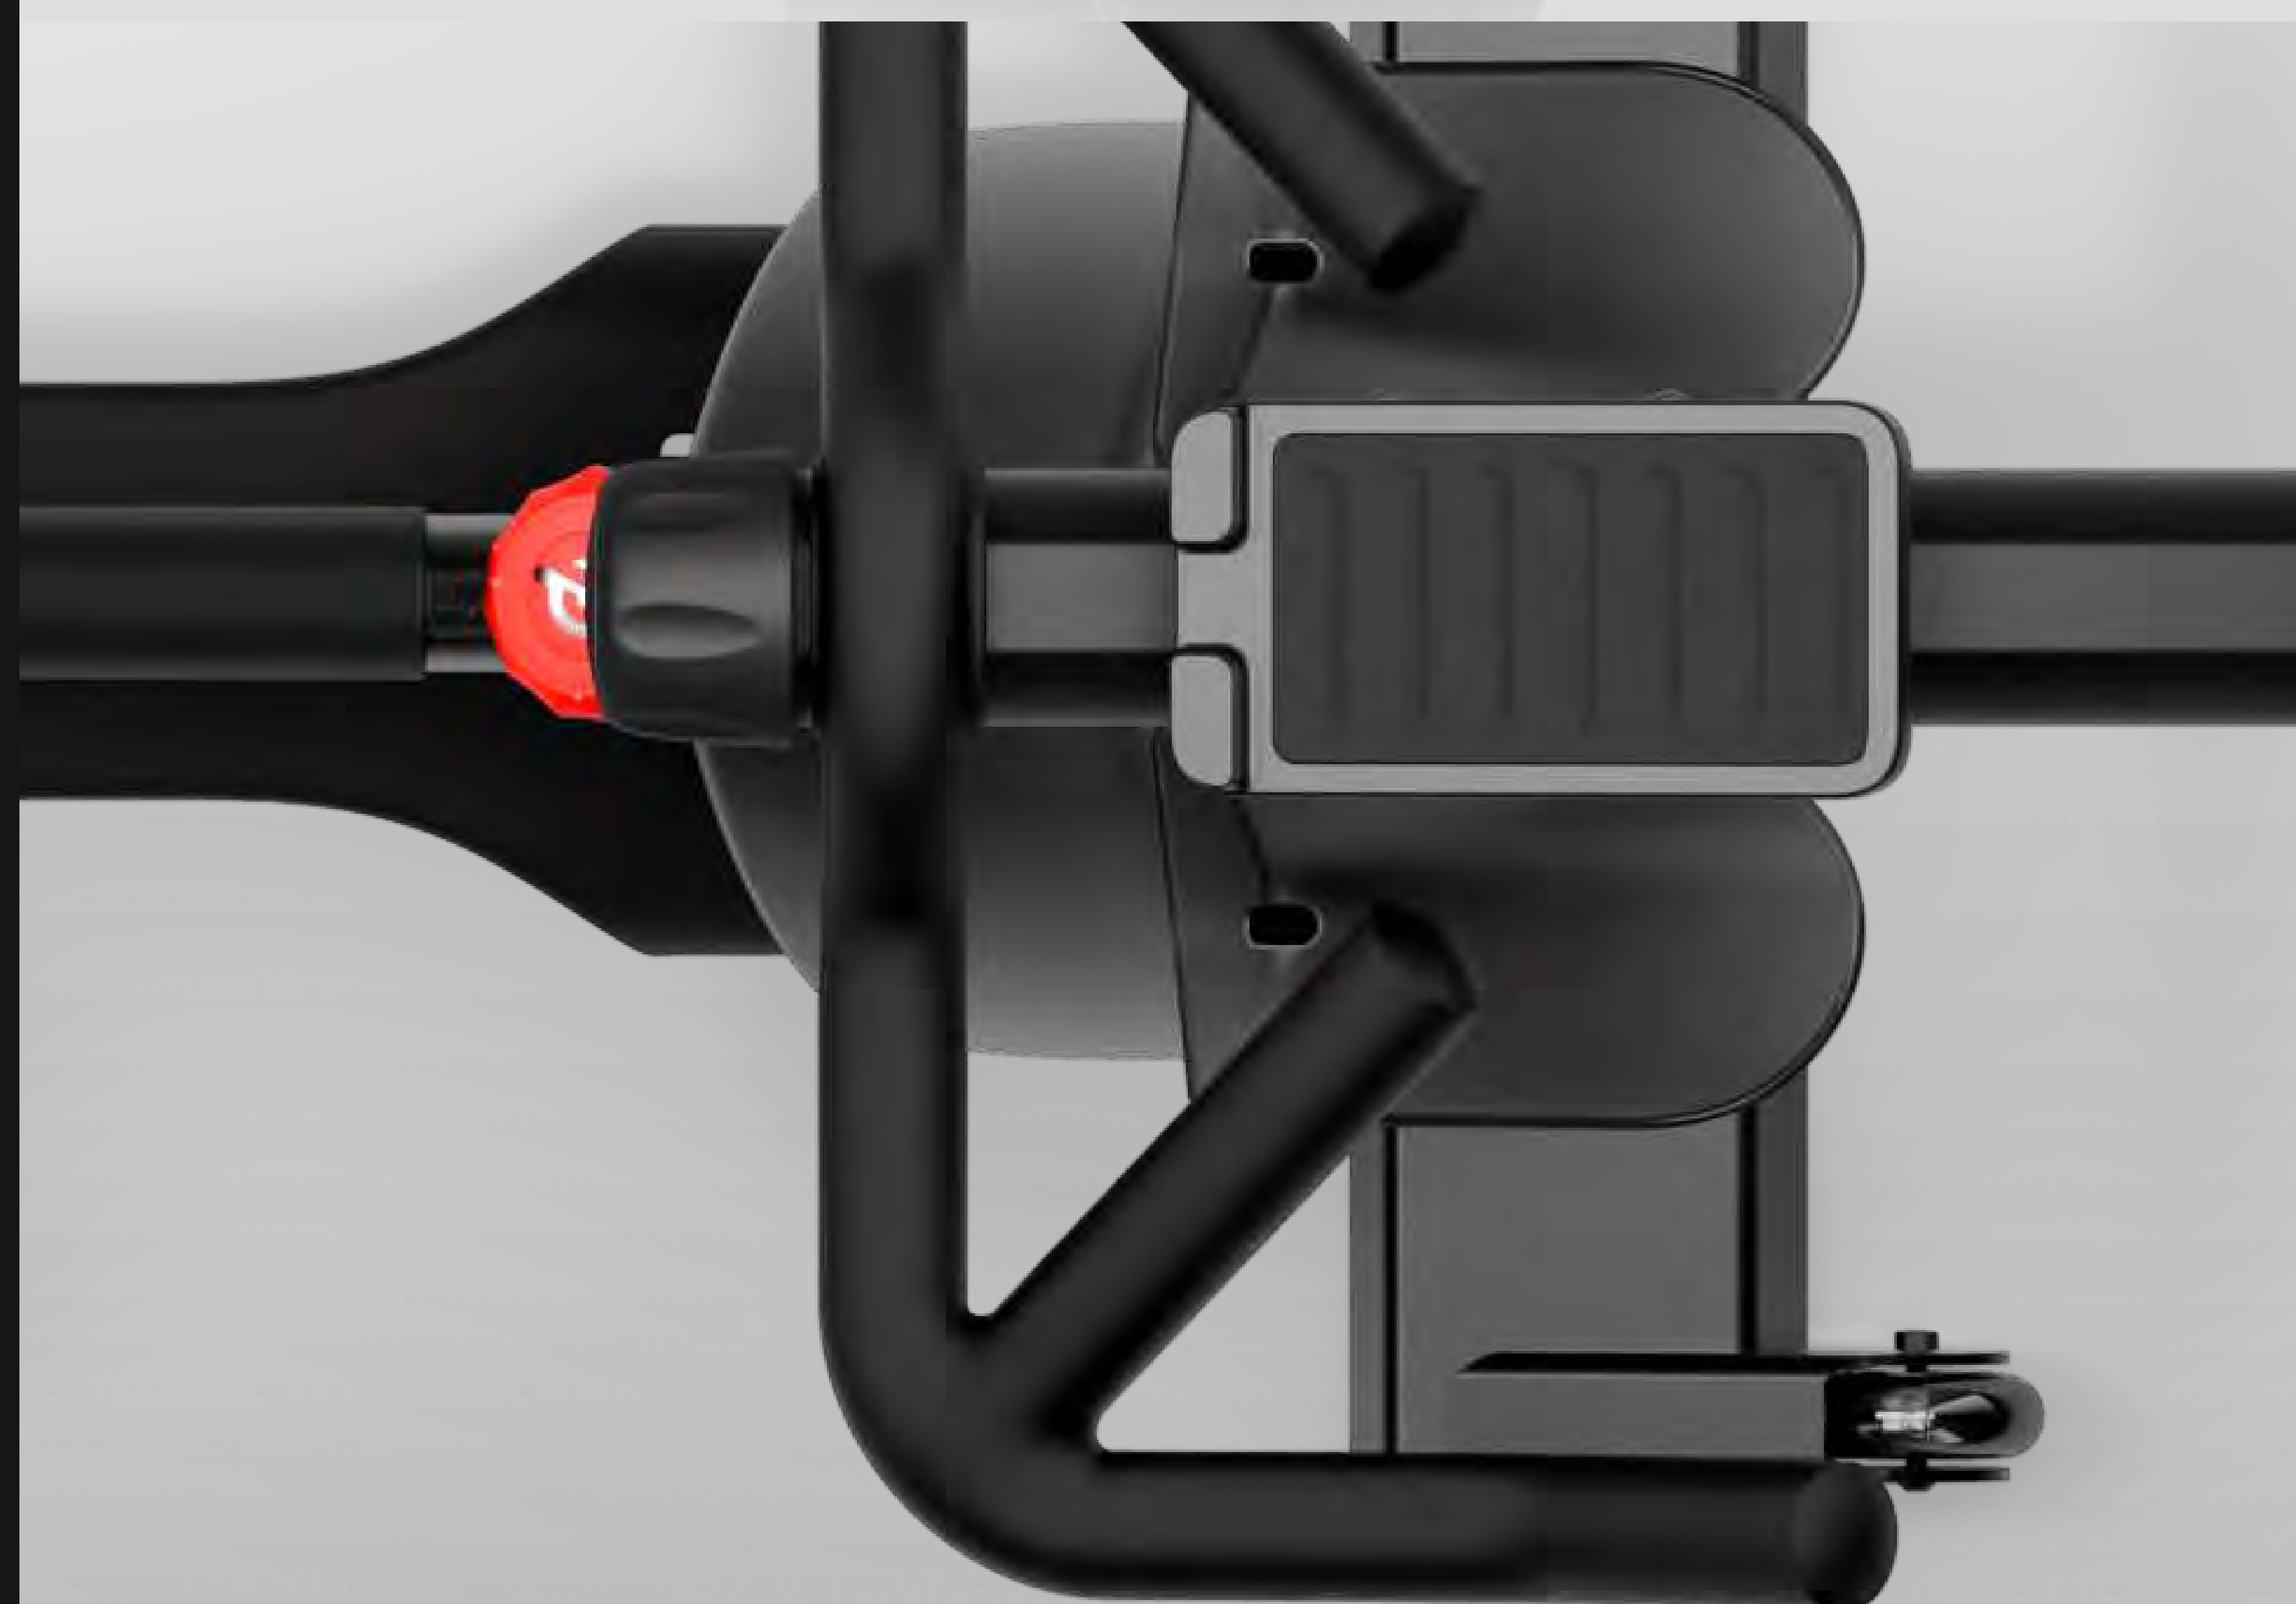

Three ways to experience Peloton make it easy for anyone to get moving faster. Exercisers can log in with an existing Peloton membership, create a free commercial account for all-access content or use Guest Mode for a login-free experience.¹

Adjustable screen

A 23.8" HD touchscreen tilts to a preferred viewing angle, making it easy to find the right position for a comfortable, focused workout.

A reliable pick for high-use facilities

Built on a commercial platform and tested for high-performance gyms.

¹ Separate commercial subscription required for each piece of equipment. Commercial Preventative Maintenance sold separately. One commercial subscription allows exercisers to sign in with an existing Peloton membership, create a free commercial account or use Guest Mode. Guest Mode includes a limited selection of classes; signing in or creating an account unlocks the full Peloton Commercial experience.

Peloton Commercial Bike

Facility benefits

A brand that makes you move

Turn your cardio floor into a destination through innovation that inspires movement, creates community and transforms workouts into experiences exercisers look forward to.

The bike that draws exercisers in

Bring the recognisable Peloton experience to your cardio floor with intuitive and thoughtfully designed equipment.

Designed to go the distance

Engineered in partnership with trusted commercial fitness equipment providers to withstand the demands of high-performance commercial gyms.

Support that keeps your exercisers moving

Stay ahead of maintenance with connected fleet insights and expert support.

Exerciser experience

A workout experience that turns cardio into a daily habit

A brand exercisers recognise is brought to life through instructors they form connections with, workouts that meet every style and a community of millions of Peloton Members that makes every session feel like something worth coming back to.¹

Make every ride more than a workout

Choose from thousands of instructor-led rides, explore Scenic Content, take on Lanebreak or stream entertainment – giving your exercisers more ways to move, new challenges to take on and workouts they become obsessed with.¹

Designed around the way you ride

Fore/aft seat and handlebar adjustments and premium touchpoints help every exerciser find a fit and feel that works for them.

Confidence from the first workout

Simple onboarding and Peloton 101 education videos help exercisers get started on their own, while a fresh class schedule of live and on-demand classes allows exercisers to build Peloton into their daily workout routine.

* Guest Mode includes a limited selection of content; signing in or creating an account unlocks the full Peloton Commercial experience.

Commercial Software

Bring the Peloton community to your facility

Existing Peloton members can pick up where they left off, bringing their favourite instructors, classes and personalised Peloton experience wherever they train.

Give every exerciser a way into Peloton

Guest Mode makes it easy to start moving*, while a free commercial account gives exercisers more ways to engage with the full content experience

An experience to keep exercisers engaged

Fresh content brings exercisers together around a connected experience designed to drive engagement and lasting loyalty.

¹ Separate commercial subscription required for each piece of equipment. Commercial Preventative Maintenance sold separately. One commercial subscription allows exercisers to sign in with an existing Peloton membership, create a free commercial account or use Guest Mode. Guest Mode includes a limited selection of classes; signing in or creating an account unlocks the full Peloton Commercial experience.
