PELOTON for Business

Peloton Bike+ for commercial use

The ultimate cardio and strength workout

The equipment

Rotating screen
The 23.8" full HD rotating, anti-reflective touchscreen with 360º of movement creates a more immersive experience and makes it easy for exercisers to transition from cycling to strength, yoga, and more.

Magnetic resistance
With Auto-resistance, riders can go hands-free and automatically adjust their resistance to instructor cues.

Automatic calibration
Bike+ automatically re-calibrates at the beginning of every ride, ensuring reliable measurement of exercisers' watts and resistance.

Compact and versatile
With a 2' x 4' footprint (3' x 6' with the bike mat), Bike+ only needs the space of a small yoga mat, making it an easy addition to any cardio floor.

Optimized for your commercial space

Commercial limited warranty

Dedicated commercial service and support

Bike mat, 2-lb Bike weights, and dual-sided pedals (allowing exercisers to ride in athletic sneakers) included

PELOTON for Business

The experience

Studio classes
Instructor-led studio classes guarantee an unforgettable workout experience for all skill levels with thousands of classes across cycling, strength, yoga, stretching, and more.

Lanebreak
With virtual game-inspired workouts, exercisers can mix up their routines and lose themselves in the music as they compete against themselves and others.

Scenic
Exercisers can ride through immersive routes and beautiful, inspiring scenery from Hawaii to Big Sur with classes filmed outdoors.

Music
Upbeat and inspirational playlists from the classics to new hits make it fun for exercisers to push themselves that extra step.

Features

Metric tracking
Riders can track their progress over time with advanced real-time and post-workout metrics.

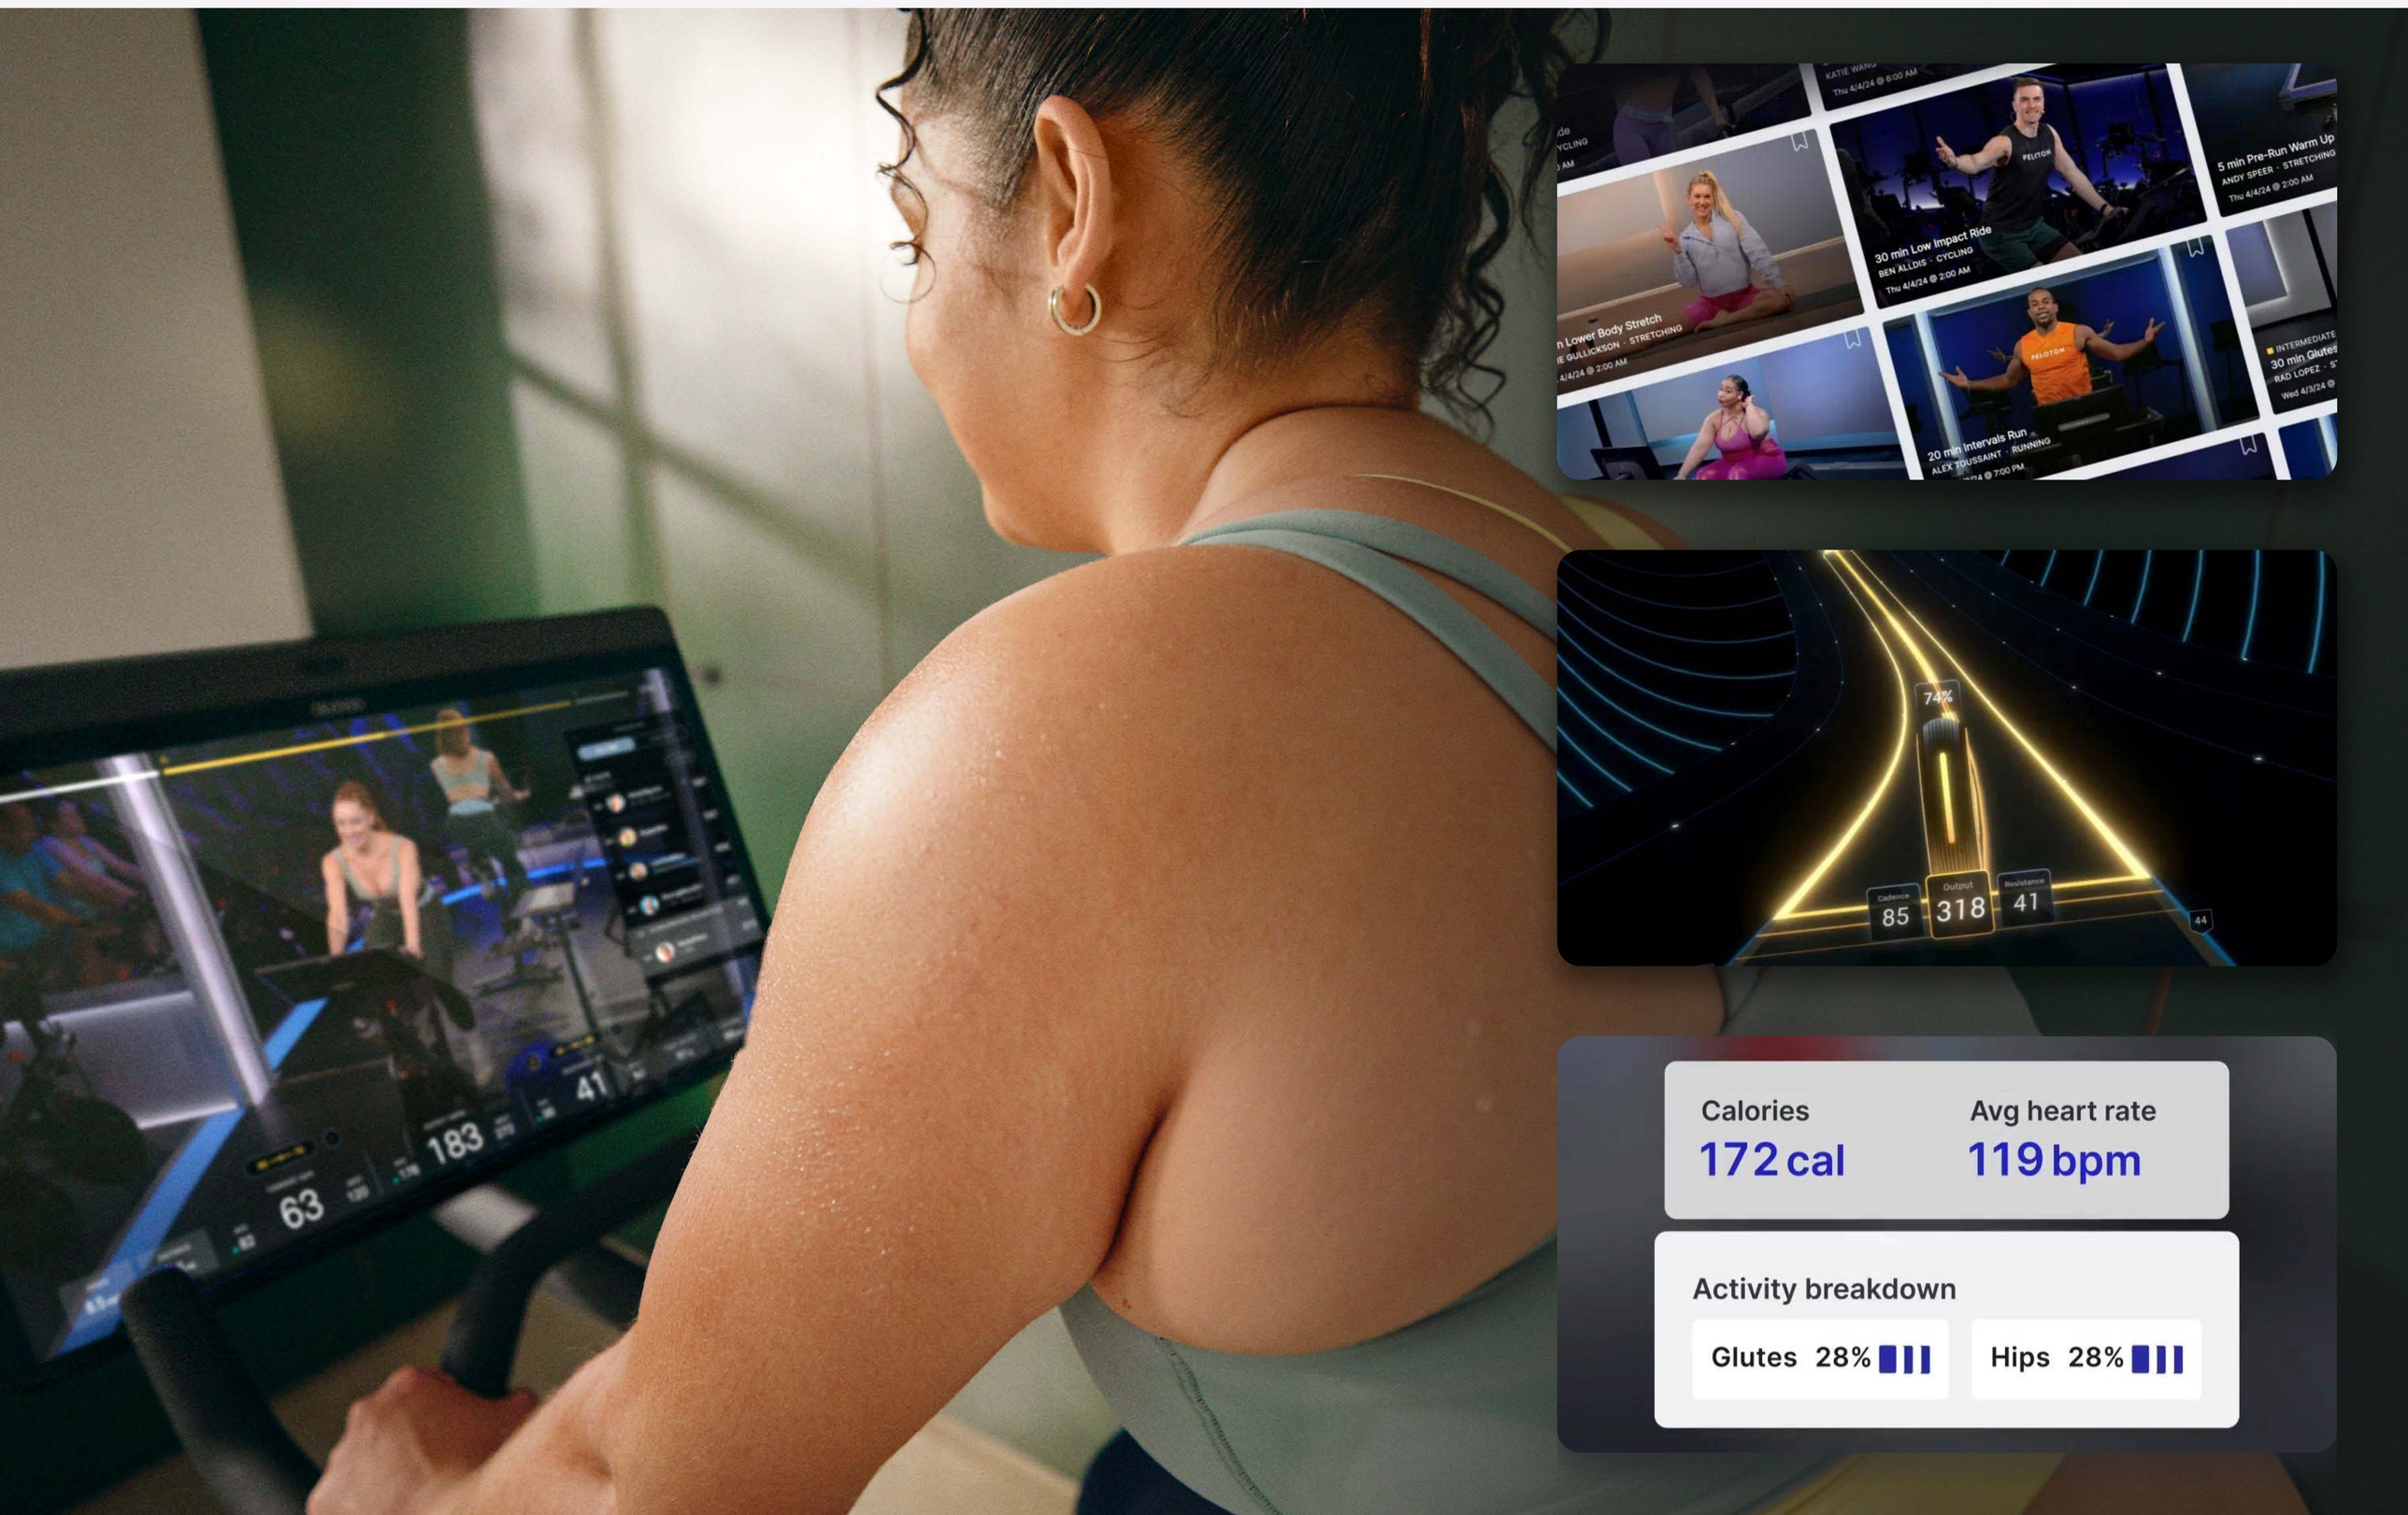

Leaderboard
Riders can celebrate personal bests, streaks, and goals achieved, as well as see themselves climb up the Leaderboard.

Commercial subscription

With one subscription fee paid by the facility, an unlimited number of exercisers can log in or create free accounts and work out as much as they want, at no charge to them

Enhanced security for your facility and exercisers, including timed auto-logout and PIN-protected device settings

Thousands of Peloton classes led by our roster of all-star instructors, featuring music specifically licensed for commercial use
