Children Learning Reading by Jim Yang

Jim Yang's Children Learning Reading book download (.pdf). My 6 year old has really struggled and is bottom in class, but a bright and happy child despite this! He was getting really upset which is when I found your system. I believed that he had some gaps in his knowledge and that the school were ploughing on regardless so I felt we needed to go back to the beginning. He and I did your system together and it has been a fantastic help so far. We have completed the first stage and he is now reading so so much better and understands blending so well. His confidence has soared! (He struggles with writing and spelling too, and maths) Confidence and feeling you are achieving is key to progressing so I am thrilled.
