

**What I Am About To REVEAL  
Will Make Your Ex OBSESSED  
With Getting You Back  
OVERNIGHT.**

**Even If He Keeps Turning You  
Away Currently...**

Just do this.

Imagine your ex's face right now.

Can you see him? Good.

Now imagine yourself picking up your phone and typing a message to your ex.

Casually type "2 mesmerizing messages" that I'll give you soon.

No don't make any assumptions here.

This isn't something you've seen before or something you send after trying the no contact thingy.

Heck. I'll soon reveal why the no contact rule will make your ex forget you faster than a speeding bullet.

But after you send these 2 mesmerizing messages.

A weird chemical process will start in your ex's brain.

His senses will be flooded with OBSESSSION  
CHEMICALS.

And hey.

I am going to ask for a bit of patience from you.

Because absolutely nothing might happen for the first day or two.

But then.

One fine morning. You'll wake up.

You'll hear that familiar sound of birds chirping outside of your window.

You'll get out of bed and rub your eyes.

Just as you're about to make your way to the bathroom.

Your phone is going to ring.

You will see your ex's number flashing across the screen. Buzz, Buzz, Buzz.

You'll answer it and will finally hear that familiar voice.

That voice you missed listening to for so long.

The moment he'll talk, it'll feel like every part of him was filled with this unbearable sense of waiting.

Like he's missed you unlike he's missed anyone else.

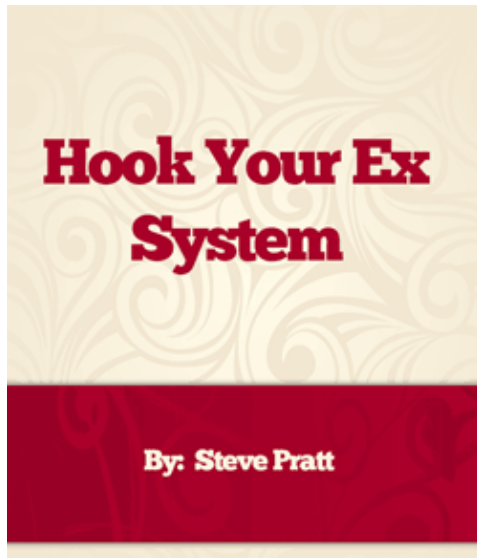

And almost like a breathless boy of 16 with his heartbeat throbbing in his ears, he'll emotionally declare...

"I miss you badly. I miss you crazily. Please forgive me. Please give me another chance."

Excitement is going to ripple through your body and spill all over the place.

Actually, I won't ask you to hold back.

**Savor This Moment. Feel The Relief. Feel The Excitement.**

It doesn't matter, if it's been a years since your breakup.

It doesn't matter if you have begged, cried, called...

Or sent a million desperate messages only to get your number blocked.

Heck. He could even be OBSESSED with another woman right now.

But the moment you'll send just 2 of these mesmerizing messages.

Obsession chemicals will flood his entire body.

And in a heartbeat.

His mind will enter this rare nostalgic state.

Where he'll brush that other woman aside.

And he'll miss your memories.

He'll miss your touch.

And almost like magic he'll find himself overwhelmed with this strong OBSESSIVE RUSH to have you back.

There will be no looking back, no second thoughts and no regrets.

I know this sounds extremely impossible right now.

But if you're anything like me.

You know how painful it is when a person can wake up one day and decide that they don't love you anymore.

And right after they leave, the RACE is on.

With each minute that ticks away your panic and stress rises.

You feel like you're losing him.

From one moment to the next, all you hear is the hammering in your chest and your breathing coming hard.

It just takes everything in you to not pick up that phone to dial his number.

You are sad, confused, angry, depressed and even numb at times.

**I Bet You've Done One Or All  
Of These Critical Things...**

## **1- Tried no contact –**

You probably Deleted his number.

Deleted all his pictures.

Unfriended him on Facebook, instagram and every other place.

Only to realize that this digital age SUCKS.

And moving on is literally IMPOSSIBLE.

One click and you discover a new picture of him having lots of fun with a new woman.

And you're back to square 1.

And hey. No contact is almost impossible when you work with them or see them every day.

## **2- You pretended to be OKAY or tried to date other people.**

Only to FEEL like you're betraying your ex.

Almost like you're cheating on them.

Or if you're like a few lucky women I know.

You got a slight glimmer of hope.

You worked on yourself. You put on make up, went to work, cooked, ate, shopped.

Pretended to be happy. Flaunted yourself on social media.

AND.

You finally hear from your ex.

You get your hopes up.

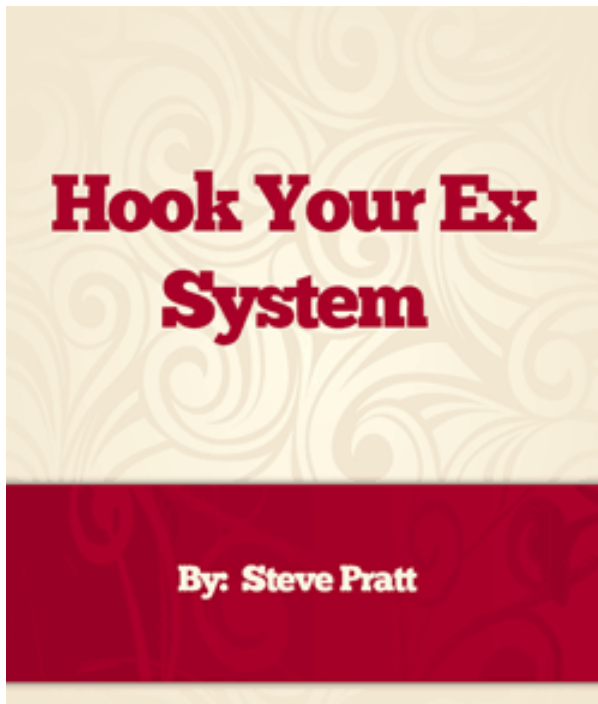

Only to realize that he barely feels anything for you and is dating that ONE WOMAN you've always hated.

Now she is getting to experience all the fun things you miss doing with your ex.

My name is James and I used to be just like you.

It all began when I rang Mia's doorbell (My ex) 30 times in the middle of the night.
