***“Who Else Wants To Discover The Most
Controversial... And The Most Effective
Mind Control Secrets Ever Invented?”***

I know you came here looking for answers, so let's keep this simple!

This site is NOT like all those other hypnosis sites out there.

This site will teach you something different...

This site will teach you the INSANELY controversial and the most EFFECTIVE hypnosis and mind control techniques that have turned the heads of hundreds...

And guess what. People are talking for a reason.

But before we go any further, I must give you this warning:

This is advanced mental technology. If you're looking for "A Beginners Guide To Hypnosis" you won't find it here.

On this site you'll find exactly how to mind control anyone you want, any time, any place, and all without them knowing.

But if I reveal this information, please promise me you will use it responsibly and you will only use it for good.

Ok, so let's get to it...

My name is Cameron Crawford, and I'm about to take you on a journey into one of the most intense and one of the most influential underground secret societies that has ever existed.

Here's the story:

Mind Control was never just something I was interested in... It was always something I was obsessed with.

For years I was looking for the real "secrets" of mind control but they just didn't seem to be out there...

I wanted to learn the secrets of mind control that hardly ANYONE knew about... **the secrets that would let me do stuff like:**

- Mind Control someone into finding me instantly attractive.

- Make someone instantly forget ever meeting me.
- Mind Control into being so fascinated by me they can't get me out of their mind.

I wanted to have that knowledge, the kind of power that would let me do anything.

But every course, every book, every audio I could get my hands on was all the same old, outdated and rehashed information that never really taught me anything.

Every single piece of information I ever found was useless.

And by now you probably know what I mean, you've seen all those "learn hypnosis sites" out there selling those crappy hypnosis eBooks that are all based on the same information that was written 20 years ago.

Hell, I even bought most of them...

Then after going through them all and finding nothing new, I started to lose hope... and then it happened.

The Phone Call That Changed My Life

The phone call was from a friend of mine (NONE of the people in this story will let me publish their REAL names), this friend owned and operated two auctions.

And in one of his auctions someone was selling a box of old books.

One of the books was an old, hand written journal of about 80 pages of intensely powerful information that was **the collected wisdom of an underground subculture that absolutely no one knew existed.**

This group had been secretly exchanging their knowledge for nearly a decade.

Secretly working to turn hypnosis and mind control into a something new, something a lot more powerful.

This small subculture revolved around one man who was only known as "The Professor".

He was the most worshipped persuader in this secret community.

Inside the pages of the journal he spit out LONG detailed descriptions of techniques that read like algorithms of how to manipulate social situations and how to control anyone's mind.

A lot of the techniques in the journal, he had come up with and they were all chronicled in intimate detail right there inside those pages.

The writing was filled with jargon of his own invention like:

Sliders, Shells, Claws, Sniper Inducer's, String Theory... and a whole lot more and they'd all become an integral part of this hypnosis secret society.

Now I know this all sounds a bit crazy, and believe me when I first read about it I thought it was strange too.

But apparently, The Professor along with around a dozen others had constantly tested **insane new ideas and perfected them for years.**

Inside these pages they had documented a new kind of mental technology that they called "**Dark Side Hypnosis**".

Now I have to admit, when I first started reading I was pretty sceptical...

I mean after reading so many books and finding so much rehashed junk on the internet I had become a bit of a sceptic.

But the deeper I dug into the information and the more I read the more **I started to see how this stuff could really work.**

I finished reading the whole thing in less than a couple of hours, and by the time I was finished my heart was pounding and I was sweating...

I honestly felt like my head was spinning after finally finding that this kind of mind control was real and it really did exist.

As soon as I'd had a taste of *Dark Side Hypnosis* I needed to learn more.

So there was no question about it, I had to meet the faces behind the names, watch them, find out who they were and what made them tick.

So I made it my mission and my obsession to hunt down these faceless names from this "secret society" and beg them to share with their secrets with me.

But There Was A HUGE Problem

These people had NO CLUE who I was so why would they want to tell me anything?

...And it's not like I could just pick up the phone and call them, you know?

After all ...I didn't even have a clue who any of them were.

So why would they even want to talk to me?

So after a few weeks of searching the internet, trying to find anything that might help me find them I told myself there was no way I could get in touch with these people... so I should just forget about it.

Fortunately, I Didn't Forget About It

I read those same 80 pages over and over again every night... I was so obsessed with it, even my wife started to think I was crazy.

After weeks of reading the same thing over and over again my focus started to change to the three blank pages at the back of the journal, and what appeared to be a few pages that had been ripped out...

It was then that I notice one of the blank pages had a few words of text imprinted on it so deeply into the paper they were almost embossed on the other side.

The imprinted words were from what was written on one of the pages that had been ripped out.

I could just about make out the details of what The Professor was calling "***The Dark Shadow Technique***".

The first thing that came to my mind was "**Why has someone ripped this page out?**"

But the craziest thing was... right there at the bottom of the page, imprinted into the paper was **an email address.**

I couldn't believe it.

This whole time, I had an email address for The Professor right there in my hands and I just didn't see it.

I grabbed my laptop and sent what was probably the longest email I've ever written... to this guy I've never even met.

This Is Where It Gets Strange...

I got a reply back from him in about 2 minutes.

And the weirdest part was he told me he'd been expecting me and he actually hypnotized me by email!

It was completely insane, and when I finally got to meet him he explained how it works. (NOBODY knows how to do this, but I'll show you how in the course!)

It's crazy... I mean, just think for a second what you'll be able to do once you know how to **hypnotize someone just by sending an email.**

It makes your life a hell of a lot easier, believe me.

And before I had it done to me I NEVER would have said it was possible.

But it happened. And hypnotizing someone by email isn't even one of the more advanced techniques!

This group of insanely focussed individuals had the most powerful knowledge you can ever imagine - all broken down and backwards engineered into a step by step process.

Here's What This Means For YOU

It took months before The Professor fully trusted me and excepted me as one of his own, but it was all worth it and my determination paid off for both you and me.

Here's what I mean.

I was so obsessed with learning this stuff and mastering these powerful techniques.

I mean think about it.

The Professor literally WROTE THE BOOK on Dark Side Hypnosis and Mind Control.

He was LITERALLY the one who invented it.

I knew if I could just get close to him and beg him to teach me **my life would never be the same again.**

So after months of persistence and begging him to let me under his wing he finally agreed to meet me.

To this day I'm sure the ONLY reason he met me was because I told him I found the Journal, and he wanted to figure out how I got my hands on this advanced mental technology in the first place.

And so began the strangest two years of my life.

After meeting The Professor and practically begging him for weeks, he offered to let me in on every secret, every technique, and every method of hypnotic mind control that he had developed over the last ten years.

I felt like a mad scientist or something ...scribbling down pages of notes about how this one guy had single handedly reinvented hypnosis.

I spent the next two years digging deeper and deeper into this secret society with a man who thought about new ways to manipulate social situations non stop.

You wouldn't believe some of the things I had to do if I told you.

But all of the gruelling suffering and pain was worth it...

After my training with The Professor I felt like my life was just starting...

I even met a friend I hadn't seen for a few years and he DID NOT recognise me...

Not because I looked any different, but he told me that the only way he could describe it was that I have "**some kind of insane confidence boost and everywhere I go people just seem to love me.**"

And that's not even the craziest part...

The Girl Who Bit Off More Than She Could Chew

Here's what happened.

So a few months after I had finished my training with The Professor I had to go on a business trip to Florida.

One night after having a few drinks in the bar I ended up being a little too loose lipped about my training with this hypnosis secret society and how it was the most insane stuff I had ever seen.

And there was this woman who was MEGA HOT that WOULDN'T LEAVE ME ALONE.

But it wasn't like the "good" kind of not leave you alone.

It wasn't like she was flirting with me or anything cool like that.

It was just the opposite.

See, all she wanted to do was hassle me about *Dark Side Hypnosis*.

But it wasn't like the guys who asked me about it... she was sort of accusatory about it.

She basically followed me up to my hotel room and kept saying it didn't exist, and that I was just trying to impress everyone.

So after a while I decided to teach her a lesson.

Warning! What Happened Next Was An Accident

As you know, I'm married... and my wife is cool and everything, but she's not THAT cool ;-)

So I haven't used these techniques to seduce anybody in ages. And this is my "defense" for what happened.

I thought I would use a little bit of *Dark Side Hypnosis* on her just to sort of teach her a lesson.

All I wanted to do is get her to give me her number or something harmless so I could say, "SEE! I just used *Dark Side Hypnosis* on you and you just gave me your number. So quit bugging me."

Anyway - that was my plan.

But That's Not What Happened

First of all I used a slider to trigger the "Empire Man" technique on myself to **instantly infuse my core with rock solid, unshakeable confidence.** (you'll see exactly how to do this in the course)

(This one belief altering technique will instantly let you build massively powerful core confidence. Your life will be transformed by this one technique alone.)

Then I used something called ***The Dark Shadow Technique***, which in hindsight, was too powerful.

I know you've never heard of *The Dark Shadow Technique*.

This is because it's part of *Dark Side Hypnosis* and only a few other people in the world know it, besides The Professor and myself.

Anyway, here's what happened.

I started playing around using *The Dark Shadow Technique* and next thing I know...**SHE'S NAKED.**

I'm not kidding.

She "miraculously" has a total change of heart about me and asks to come in to see my hotel room.

When I let her in, she starts doing a strip tease to the music of... wait for it... ABBA.

Yes.

ABBA.

Anyway, I want you to know I had no intentions of getting her to come up to my room and strip to ABBA songs.

Like I said, I accidentally took it too far.

That's How Powerful These Techniques Are!

Frankly, I'm getting a little worried because I think this type of mind control is a little too powerful.

IT'S LIKE HAVING A NUCLEAR BOMB.

Very bad news if it gets into the wrong hands... and that's why I've been so hush-hush about it.

The bottom line is this, with *Dark Side Hypnosis*...

You CAN Control Anyone You Want Instantly

But only if you take advantage of this opportunity today.

The reason why is... I can't share this information with everyone, and I'll probably be forced to take this site down some time soon.

The hypnosis community is already in an uproar about my site, and I'm banned from all the forums, so I can't be sure how much longer this offer will last.

In fact, the only way The Professor would agree to let me make this knowledge public was if I:

1. **Paid him a small fortune** (which I did, but it was definitely worth it and I'd do it again).
2. Promised to **NEVER reveal any of the "Dark Side Inner Circle" members true identities.**
3. Only disclose this information to a **VERY small, select few individuals.**

Unfortunately those "select few individuals" are piling up quicker than I thought humanly possible...

Ever since I first posted about my discoveries on this website on January 7th of 2014...

17,477 people just like you have contacted me begging for this jealously guarded information.

So I've decided to cave under the pressure A LITTLE BIT and share some of this stuff.

But there's no way I will be sharing this powerful technology with everybody who's been in contact with me.

For now I'm going to let just a handful of people get a glimpse of it.

Here's How You Can Get Your Hands On It!

Whilst learning under the wings of The Professor I must have written at least 1,000 pages of notes all about this powerful form of advanced mental technology.

Since my training, which was over 5 years ago I've been working along side The Professor and we've taken this whole *Dark Side Hypnosis* thing to a whole new level. The techniques we've developed in recent years are ten times more powerful than the stuff I was taught way back when I was first invited into *The Inner Circle*.

So what I've done is I've gone through every insanely powerful mind control technique that I was either taught or that I developed myself with a fine-tooth comb and with this wealth of knowledge, I've created ***The Dark Side Hypnosis Training System*** that can be easily learnt and implemented.

I wanted other people to experience what it's like to possess this knowledge and this power.

Against my better judgment, I've decided to release this training for a VERY limited time.

But there's a catch...

You Cannot Use This Secret System Unless You Swear Never To Reveal It To Anyone Else.

Please, whatever you do ...DO NOT share these techniques with anyone.

And yes, I'm being completely serious.

Two reasons:

1. This is powerful stuff that nobody's ever seen before. **If it was in the wrong hands or used in the wrong way, things could get ugly.**
2. Because this is so hard-core, **and it's something that NOBODY knows, it's like dynamite.**

Once you get your hands on *Dark Side Hypnosis* you can put someone into a trance INSTANTLY.

And they won't even know you're doing anything.

I'D LIKE TO KEEP IT THAT WAY.

Here's What You're Getting

You're about to get your hands on the EXCLUSIVE training audios that explain Dark Side Hypnosis and Mind Control in BRUTAL detail.

I recorded these audios after my two years of training with the MASTER of persuasion... "The Professor".

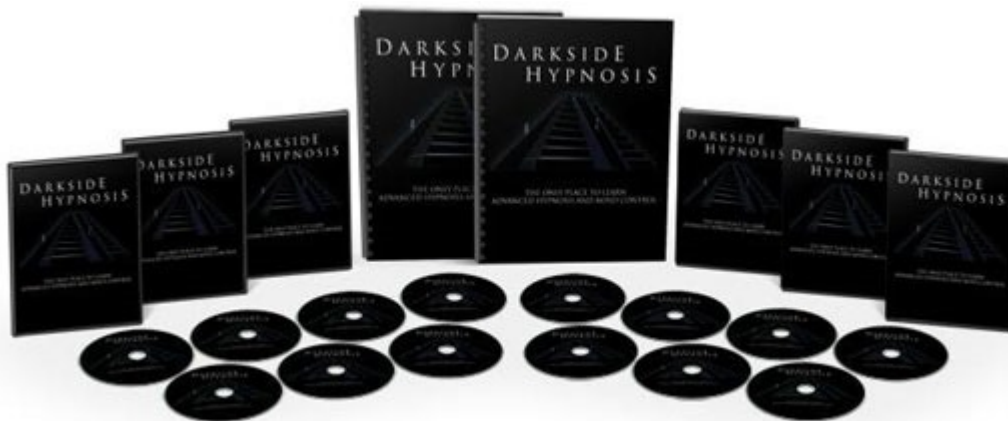

I've become publicly known in the Inner Circle as being the Professor's only protégé, and people are calling me "The most dangerous mind control expert in the world."

It's truly insane... and as well as that, this is the first time in history anything like this has ever been available.

And for good reason, Dark Side Hypnosis has been proven to be the most effective and the most powerful collection of hypnosis and mind control techniques to be invented.

Myself and the professor are the only one's who can teach you this stuff because we are the one's who developed these devastatingly powerful techniques.
