How it works SETUP

Our fully immersive VR experiences are the perfect way to celebrate. Teams of any size can explore a variety of virtual worlds as if they were in their favorite game or movie. Thanks to the world's most advanced VR technology, groups can see each other and physically interact with each other, just like in the real world. Hollywood motion-capture cameras and haptic suits create a fully immersive experience, allowing you to move through the game and transport yourself to a new reality.

VR LIKE NEVER BEFORE

What is Sandbox VR?

Sandbox VR is a hyperreal VR experience for **up to 6 players simultaneously**, where you can see and interact with each other – just like in the real world. Thanks to the **motion-capture cameras**, which are also used in Hollywood productions, 3D trackers, special hardware, and a haptic vest, you'll feel like you're completely immersed in the experience.

It feels so real that you almost forget reality.

WHAT AWAITS YOU

The Process

1 CHECK IN

When you arrive, you will be personally greeted by us. First, you will go to our check-in area, where you will register.

2 GEAR UP

Afterward, you'll receive a briefing and put on the first pieces of your equipment: vest and 3D tracker.

3 LET'S GO

Now you enter the holodeck – the playing field for your virtual experience. Here you put on your VR glasses and headset. The rest is completely wireless!

4 ACTION

Ready? Then you'll find the video highlights in your emails.

Enjoy watching!

What you need GEAR

Your equipment:

- A haptic-vest that vibrates to let you feel whether you've bumped into an object or even been hit by an enemy. This immerses you in the game with all your senses.
- Motion tracking is provided by sensors that transmit all your movements in real time to your in-game avatar. Greetings from Hollywood!
- Depending on your game of choice, you can select replica weapons, shields, or swords that you can use freely in the game. These are lightweight and comfortable to hold.
- The most important thing for last. You put on the headset, which immerses you in the game with a high-resolution display. The headsets are also designed for people who wear glasses and are comfortable to wear, so you'll hardly notice them in the game.

Flying or seated Dinner

A Sandbox VR experience lasts approximately 45 minutes.

The price includes one 30-minute game of your choice.

Our group prices apply to groups of 6 or more.

A maximum of 24 players can immerse themselves in the VR experience simultaneously.

We can accommodate groups up to 100 people.

For the best experience, we definitely recommend booking two games!

Delicious FOOD

We work with select caterers ranging from simple and traditional to high-class and fine dining.

Delicious DRINKS

Let Toni, our robot bartender, mix your cocktail. He can not only make 20 cocktails and mocktails, but also coffee, beer, panache, and sodas. He's available 24/7, doesn't ask tips, and doesn't ask annoying questions. :)

The bartender of the future!

Where Toni still needs help is with champagne or wine. But we won't let you and Toni down. We're happy to offer you the right solution for that, too.

OCCASION

Team event

Share a completely unique experience with your colleagues! Sandbox VR is perfect for team building, outings, company events, bachelorette parties, and for small and large groups. Reserve a room or use our entire location. It's best to plan ahead to ensure availability.

With us, it will be incomparable - we create an experience your team won't forget.

Birthday

Birthdays Are Better in VR.

We make birthday parties unforgettable, no matter your age. Host your next party in Sandbox VR and immerse yourself in the most modern and realistic VR experience ever. We welcome groups of all sizes.

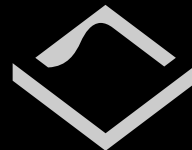

OCCASION

Talks & Presentations

Host your next corporate meeting, fireside chat, or speaker panel in one of our unique stores! Let us handle the planning, provide all the AV equipment, and host your next corporate function off-site, followed by our unique gaming experience! Completely private meetings can be held in the store lobbies as a full store buyout or in one of our holodecks as a semi-private meeting room. Each holodeck accommodates groups of 6 to 50 people with theater seating. For more information, please submit your request above, and someone from our events team will get back to you!
