

CloroxPro® Product Shelf Life

How to determine manufacturing and expiration date from CloroxPro® bottles

E621083 MD2 3 09

STEPS:

1. Find the lot number on the container. The lot number is usually near the top on the back of the product bottle. For wipes canisters, the lot number may be near the bottom.
2. The third through seventh numbers are the Julian code. In the example to the left, the Julian code is “21083.”
3. The first two digits of the Julian code are the year of manufacture. In this example, the two digits are “21,” so the manufacturing year is 2021.
4. The remaining three digits in the Julian code correspond to the manufacturing date. To find the month and day of manufacture, refer to the tables on the next page. In this example, the Julian day is “083,” which based on the tables on the next page corresponds to March 24.

JULIAN CALENDAR

Day of the month	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
