

3 Steps to Healthier Shared Spaces

Shared spaces get dirty fast. CloroxPro offers a complete portfolio of ready-to-use, cleaning and disinfecting solutions that help cleaning teams work more efficiently and maintain healthier spaces.

1. Identify Your Shared Spaces & Type of Tasks

RESTROOMS	WORK SPACES	EATING AREAS	
			 TOUCH-UP TASKS: Daily, during the day
			 RESET TASKS: Daily, after hours
			 TOUGH TASKS: Weekly or as needed, after hours

2. Build Your Daily Foundation for Everyday Cleaning and Disinfection

 TOUCH-UP TASK ▶ Disinfect high-touch surfaces	 RESET TASK ▶ Clean and reset surfaces in the facility
---	---

3. Add Specialized Solutions to Tackle Unique Jobs by Space

More than half of cleaning professionals rank removing urine stains and odors as the most difficult task.¹ RESET TASK ▶ Mirrors & glass ▶ Toilets & urinals TOUGH TASK ▶ Urine odors & stains ▶ Mold & mildew	The average school laptop was found to be 3X germier than a toilet seat.² Teachers are exposed to 7X more bacteria per square inch than doctors.³ TOUCH-UP TASK ▶ Illness-causing germs on electronics TOUCH-UP TASK ▶ Soft surface sanitizing	Objects in eating areas such as sinks, microwaves, vending machines, and coffee pots are some of the most contaminated items in offices.⁴ RESET TASK ▶ Food-contact surfaces TOUGH TASK ▶ Grease & grime
