

FREQUENTLY ASKED QUESTIONS

HEALTHYCLEAN PROGRAM OVERVIEW

Q1: What is CloroxPro HealthyClean ®?

A1: CloroxPro HealthyClean ® is a new online learning platform which provides access to best-in-class education and training that cleaning professionals deserve to create cleaner, healthier shared spaces. The interactive training courses and microlearning modules are available on-demand and provide the knowledge and skills to clean for health effectively, efficiently and safely.

As part of this platform, CloroxPro offers the first and only training certificate courses specifically created for commercial cleaners and accredited by the American National Standards Institute National Accreditation Board (ANAB). This 3rd party accreditation indicates the courses have met the highest standards for program quality and training comprehension.

Q2. What training is offered on the HealthyClean learning platform?

A2. CloroxPro continues to develop high-quality training courses and microlearning modules for the HealthyClean learning platform. See below for an overview of the current offerings.

ANAB-accredited Certificate Courses

- **CloroxPro HealthyClean® Trained Specialist Course (available in English and Spanish)** is designed for frontline cleaning professionals and teaches how to clean for health by using the right products at the right time – with the best process and techniques – to create cleaner, healthier shared spaces.
- **CloroxPro HealthyClean® Trained Manager Course (available in English)** is designed for cleaning managers and supervisors. It teaches the essential knowledge and best practices to run an efficient cleaning for health operation, provides strategies to help *develop* and empower a cleaning team, operational planning methods, inventory management, selecting products and tools to enable cleaning for health, and much more! To be most effective in their role, managers must first successfully pass the HealthyClean Trained Specialist course.

Microlearning Certificate Modules

- **CloroxPro HealthyClean® Introduction to Healthcare (available in English)** is designed for EVS managers and supervisors, but EVS staff and other hospital staff including Infection Preventionists can also benefit from this training. It increases the understanding of healthcare-specific considerations when cleaning for health. This microlearning module is not ANAB accredited at this time, but it follows the same instructional design principles of other HealthyClean training to ensure a quality online learning experience.
- **CloroxPro HealthyClean “Tougher Tasks” Training Module (available in English)** provides training on some of the most time-consuming cleaning tasks, such as mold & mildew, grease & grime, and dealing with hard water related issues. These instructionally designed modules take only 5-7 minutes and cover what causes these different issues, how to identify and help prevent them and what products can help get the job done quickly & effectively. These are the only HealthyClean training modules that include specific CloroxPro products.

Q3: Who created these training courses and microlearning modules? Where did the content come from?

A3: The educational and training content was developed by CloroxPro — a division of The Clorox Company — including their internal Clinical and Scientific Affairs team, who are dedicated scientists, engineers, and public health professionals. The

content is in accordance with OSHA, CDC, and EPA guidelines. A best-in-class instructional design team developed the HealthyClean training with optimal adult online learning in mind. Furthermore, the ANAB-accredited certificate courses were developed in counsel with an advisory board of external experts in facility management, commercial cleaning, healthcare and infectious disease and follow the ASTM E-2659 Standard Practice for Certificate Programs.

ANAB-ACCREDITED TRAINING CERTIFICATE COURSES

CloroxPro HealthyClean[®] Trained Specialist Course

Q4: What is the purpose of the CloroxPro HealthyClean[®] Trained Specialist Course? What will I learn?

A4: This course is designed for frontline commercial cleaners and managers and teaches the fundamentals about cleaning for health, including the role and impact of people, products, and process.

Once you pass the final evaluation, you will earn your certificate of mastery, digital badge and the title of a CloroxPro HealthyClean[®] Trained Specialist, indicating you have learned actions that can be taken to do the job safely and effectively, the science behind how germs spread and how to break the chain of infection, as well as easy-to-follow procedures and best practices to help ensure shared spaces can be cleaned and disinfected in a way that is efficient and sustainable long-term. *Please refer to the outline at the end of the Frequently Asked Questions document for a complete list of learning objectives for each module.*

Q5: How do I register to take the CloroxPro HealthyClean[®] Trained Specialist Course?

A5: The CloroxPro HealthyClean Trained Specialist Certificate Course is valued at \$300 per person and is currently available for sign-up through your Clorox representative or authorized CloroxPro distributors*. You can also visit www.CloroxPro.com/healthyclean to register directly. Your request for a HealthyClean account will be submitted to the Program Administrator and once approved, an email will be sent with instructions to get started. Check your inbox or spam folder if you don't receive an email within 24hrs.

** PLEASE NOTE: Promotional codes are available through select distributors and special CloroxPro offers to reduce and/or waive fees.*

Q6: How long does it take to complete the course?

A6: The course is broken down into 7 modules that take approximately 15–20 minutes each. On average, the course plus the final evaluation should take about 2–3 hours to complete. However, the course is self-paced, so you can go as fast or slow as you'd like. In addition, the course is delivered "on demand", so you can take it whenever it fits into your schedule. You don't need to complete the entire course at one time (unless that works best for you). You will be able to easily find your place and resume the course whenever needed after logging back into your HealthyClean account.

Q7: What kind of device do I need to take the course? Can I take it from my smartphone?

A7: The course can be accessed and completed using a computer, laptop, tablet, smartphone (although we recommend use a larger screen for easier readability). You can use different devices as you go through the course, depending upon what is most convenient for you.

Q8: Is the course available in multiple languages?

A8: Yes, the course is available in both English and Spanish.

Q9: Can I take the course if I am hearing, sight or mobility challenged?

A9: Yes. The course features standard accessibility for learners with visual, auditory and/or mobility challenges. Standard accessibility includes closed captioning, alt-text and an intuitive tab order that allows you to access all slide items. The course has been designed to avoid elements that are not keyboard accessible and is balanced between text and audio. Slides are readable by a JAWS reader.

Q10: How can I track my progress? Can my manager see my progress and if I pass the course?

A10: At any time, you can go to your HealthyClean Learning Center to see your progress. For instance, you can see what modules you've completed, what modules remain, how you did on the evaluation, any notifications or messages sent to you, etc. If a manager has been assigned to you in the system, they can also track your progress (i.e. what modules are completed, what modules remain) and if you received a certificate/digital badge. For privacy reasons, managers will not be able to see evaluation scores or get notifications if you did not pass. They only receive notification upon completion.

CloroxPro HealthyClean[®] Trained Manager Course

Q11: What is the purpose of the CloroxPro HealthyClean[®] Trained Manager Course? What will I learn?

A11: This course is designed for commercial cleaning managers and teaches essential strategies and best practices to run an efficient cleaning for health operation. You will learn strategies to help hire, manage and empower a cleaning team, operational planning and inventory management approaches, how to select products and tools that enable cleaning for health, smart disinfection best practices....and much more. Once you pass the final evaluation, you will earn your certificate of mastery, digital badge and the title of a CloroxPro HealthyClean[®] Trained Manager, indicating you have met the learning objectives of the course.

Please refer to the outline at the end of the Frequently Asked Questions for a complete list of learning objectives for each module

Q12: How do I register to take the CloroxPro HealthyClean[®] Trained Manager Course?

A12: The CloroxPro HealthyClean Trained Manager Certificate Course is valued at \$300 per person and is currently available for sign-up through your Clorox representative or authorized CloroxPro distributors*. You can also visit www.CloroxPro.com/healthyclean to register directly. **For the Trained Manager course, participants should first successfully complete the Trained Specialist Course and earn their Certificate of Mastery before taking this course.**

** PLEASE NOTE: Promotional codes are available through select distributors and special CloroxPro offers to reduce and/or waive fees.*

Q13: How long does it take to complete the course?

A13: The Trained Manager course is broken down into 8 different modules that take approximately 15–30 minutes each. On average, the course plus the final evaluation should take about 3-4 hours to complete. However, the course is self-paced, meaning you can go as fast or slow as you'd like. In addition, the course is delivered "on demand", so you can take it whenever it fits into your schedule. You don't need to complete the entire course at one time (unless that works best for you). You will be able to easily find your place and resume the course whenever needed after logging back into your HealthyClean account.

Q14. What kind of device is required to take the courses? Can I take them from my smartphone?

A14: The course can be accessed and completed using a computer, laptop, tablet, smartphone. You can use different devices as you go through the courses, depending upon what is most convenient for you.

Q15. Is the courses available in multiple languages?

A15: Currently the CloroxPro HealthyClean[®] Trained Manager course is available only in English. In the future, CloroxPro may offer in Spanish as well.

Q16. Can I take the course if I am hearing, sight or mobility challenged?

A16: Yes. The course will feature standard accessibility for learners with visual, auditory and/or mobility challenges. Standard accessibility includes closed captioning, alt-text and an intuitive tab order that allows you to access all slide items. The course has been designed to avoid elements that are not keyboard accessible and is balanced between text and audio (slides are readable by a JAWS reader).

Earning the Certificates of Mastery and Digital Badges (ANAB-accredited courses only)

Q17: How do I earn a certificate? Do I have to take a test?

A17: Yes, at the end of the HealthyClean Trained Specialist and the Trained Manager course, you will be given a 100-question final evaluation. You must get at least 85 out of 100 of the questions correct to pass (score 85% or better). You should anticipate needing approx. 30–45 minutes to complete the evaluation.

Q18: Is there a deadline to complete the course and evaluation?

A18: You will have 60 days from when you receive notice that you've been registered for the course to complete it and take the evaluation. If that window closes, you will need to re-enroll and take the course again. Contact us at

cloroxpro.healthyclean@clorox.com should you need any help with this.

Q19: How do I get my certificate and digital badge?

A19: When you complete an ANAB-accredited course and pass the final evaluation, you will earn a Certificate of Mastery and a digital badge with the designation of either a *CloroxPro HealthyClean® Trained Specialist* or a *CloroxPro HealthyClean® Trained Manager*. Your certificate will have a unique ID# and your digital badge will contain information about the course, the certificate earned and the date you earned it. You will be emailed instructions on how to download and save these documents.

Q20: How can I use my certificate and digital badge?

A20: Proudly share and display your Certificate of Mastery and Digital Badge with your employer or others to showcase your commitment to your job and expanding your professional skills. Your certificate indicates you successfully completed one of the CloroxPro HealthyClean® certificate courses and learned how to clean for health efficiently, effectively, and safely. With the digital badge, it is easy to share it electronically with others via email or social media networks, and it can be displayed on resumes, email signatures, job boards or anywhere across the web. Use it to highlight your new credentials and expertise.

Q21: What are the conditions for use as it relates to the CloroxPro™ HealthyClean™ certificate and digital badge?

A21: A certificate and/or digital badge are assigned to individuals and have unique identification numbers and are not transferrable. Certificates issued through means that were misrepresentative of identity, false, or otherwise fraudulent will be invalidated.

When promoting your certificate and/or digital badge, avoid use of the term certification, certified, licensed, or accredited as it relates to YOU as a CloroxPro HealthyClean certificate holder. To clarify, the *CloroxPro HealthyClean Certificate Programs – Trained Specialist Course* and the *Trained Manager Course* – are accredited by the ANSI National Accreditation Board. That means the accreditation applies to the courses, but the term does not pertain to the individual.

Q22: Who is ANSI/ANAB? What does it mean that the certificate courses are ANAB accredited?

A22: The ANSI National Accreditation Board (ANAB) is a non-government organization that provides accreditation services to public and private sector organizations across a wide variety of industries. ANAB is an independent third-party accreditation body that evaluates training certificate programs against ASTM E2659-18, which is a globally recognized standard for certificate programs. In order to receive ANAB accreditation, the certificate program must meet rigorous standards for design, delivery, monitoring and outcomes. Earning an accreditation provides confidence that the certificate holder has completed a high quality course of study.

Q23: Does my certificate and/or digital badge expire? What happens with that occurs?

A23: Yes, both the certificate and the digital badge will automatically expire 3 years from the date of issuance. You'll receive an email notification that the certificate and badge have expired. You can re-enroll in the course and take the final evaluation to receive an updated certificate and digital badge. Instructions will be included in the email.

If you choose not to renew your credentials, your digital badge will show as expired (it will turn black/white vs colored version) and you will need to stop using your designation as a HealthyClean Trained Specialist or Trained Manager.

Q24: Are there tools available to help me during the course and when I take the final evaluation?

A24: For both courses, we've created a useful handbook/resource guide that captures some highlights from each module, provides a "notes" section so you can jot down notes to refer back to during the final evaluation (or anytime you want a refresher) and includes checklists, "how-to" guides and tools to support you on the job. These handbooks can be found on the left menu bar of the HealthyClean Learning Center. Download and save it to your files. You can print it out and take handwritten notes or refer to it as needed.

Eligibility and Program Details (ANAB-accredited courses only)

Q25: Who should take these training courses?

A25: Any professional/commercial cleaners would benefit from taking these courses to build their knowledge and skills around cleaning for health and how to create healthier shared spaces. The Trained Specialist course is designed specifically to assist frontline cleaners with their day-to-day jobs, learning how to clean and disinfect in a way that is effective, efficient and safe for themselves, staff and building occupants. The Trained Manager course is designed to assist managers with the essential knowledge and tools to run an efficient and sustainable cleaning for health operation.

Q26: What are the program eligibility requirements?

A26: CloroxPro® shall not discriminate or deny opportunity to anyone on the grounds of gender, age, religion, race, marital status, parental status, disability status, status as a veteran, sexual orientation, or nationality. Participants must agree to the terms and conditions before taking the course.

Q27: What are the terms & conditions and privacy policy? How will my information be used?

A27: You can view the Terms & Conditions and Privacy Policy at www.CloroxPro.com/healthyclean and also on the left menu section of the CloroxPro HealthyClean Learning Center (NOTE: The CloroxPro HealthyClean Learning Center is where you will take the courses after signing in each time). The information you provide at sign-up will be treated as confidential and only used by CloroxPro as it relates to providing access to this course and issuing you a certificate/digital badge. CloroxPro does not sell your information to any 3rd parties. You can also opt-in/opt-out to receive newsletters, educational materials, and industry insights from CloroxPro.

Q28: Is there a fee to participate?

A28: The Trained Specialist course and Trained Manager course each cost \$300 per person. If you've been provided with a promotional code (see FAQ questions 5 and 12 for how to obtain a promotional code), you will be able to enter that promotional code during the registration process to have the fee reduced or waived. CloroxPro also runs promotions throughout the year and you may be able to find promotional codes to waive fees on the CloroxPro website (cloroxpro.com).

Q29: Are cancellations and refunds available?

A29: Cancellations and refunds can occur before a participant starts the course. If you want to cancel taking the course after you've signed up, please send an email to CloroxPro.HealthyClean@clorox. Please provide your name, company name and reason for the cancellation. If you've already paid, a refund will be issued to the same payment method used when signed up. However, once a participant starts taking the course, CloroxPro will not issue any refunds. If a participant taking the course does not complete it within the 60 days required, they can re-enroll, and they will not be charged an additional fee.

Q30: Are substitutions allowed (i.e., someone other than the registered participant taking the course and evaluation)?

A30: No substitutions are allowed. The person who signs up to take the course must be the same person taking that final evaluation to earn the certificate and digital badge. All participants who take the final evaluation agree that they are solely responsible for answers provided on the final evaluation to earn the certificate and they were not provided any assistance by other individuals. If not adhered to, the certificate and digital badge will be invalidated.

Q31: Is there a limit to how many people can be enrolled from one company?

A31: There is no limit. It is up to each company to decide who they would like to sign up for the course.

Q32: How do I make a complaint or an appeal?

A32: A complaint is a request for action relating to the certificate program activities. An appeal is a request for reconsideration of a decision that affected the achievement of a certificate. For complaints and appeals, please contact us at CloroxPro.HealthyClean@clorox.com to initiate the process. All complaints and appeals must be in writing and provide sufficient evidence to substantiate the claim.

A complaint must be submitted in writing within ninety (90) days of the incident's occurrence. An appeal must be submitted in writing within thirty (30) days of receiving the decision that is being appealed. If the written complaint and/or appeal does not provide adequate information to enable CloroxPro to make a decision, a HealthyClean Program Manager will reach out requesting more information (a response is required within 14 days of the request). If these deadlines or response times are not met, a letter will be sent indicating the complaint and/or appeal period has passed.

Once CloroxPro has received adequate information to process the complaint and/or appeal, the participant will receive a decision in writing from CloroxPro within a period no longer than thirty (30) days of receiving the complaint.

Q33: What if I need special accommodation due to disabilities?

A33: If you feel you have a disability that falls under the American Disabilities Act (<https://www.dol.gov/general/topic/disability/ada>) and would like an accommodation, please contact us at CloroxPro.HealthyClean@Clorox.com. For all non-Clorox employees, you will be sent an Accommodations Request Form. Once the required documentation is acceptable and complete, please allow us up to one week for the case to be reviewed. Once a decision is made, you will be contacted by email.

Q34: Where do I go to find more information or if I have any questions or concerns?

A34: Contact us via email at CloroxPro.HealthyClean@clorox.com. We will endeavor to get back to you within 1–2 business days from receipt of the email.

MICROLEARNING MODULES

Introduction to Healthcare Module

Q35: What is the purpose of the HealthyClean Introduction to Healthcare microlearning module? What specifically will I learn?

A35: The **CloroxPro HealthyClean® Introduction to Healthcare** training module will increase the understanding of healthcare-specific considerations when cleaning for health. Knowledge gained from this training will help healthcare workers safeguard patient environments and reduce the spread of healthcare-associated infections. The training includes an overview of infection prevention and control, a review of the types of spaces staff will encounter in healthcare settings, and considerations for cleaning and disinfecting patient care areas.

Q36: How do I register to take the for the CloroxPro HealthyClean Introduction to Healthcare training?

A36: The CloroxPro HealthyClean Introduction to Healthcare training is valued at \$99 per person and is currently available for sign-up through your Clorox representative or authorized CloroxPro distributors*. You can also visit www.CloroxPro.com/healthyclean to register directly. Your request for a HealthyClean account will be submitted to the Program Administrator and once approved, an email will be sent with instructions to get started. Check your inbox or spam folder if you don't receive an email within 24hrs.

** PLEASE NOTE: Promotional codes are available through select distributors and special CloroxPro offers to reduce and/or waive fees.*

Q37: How long does it take to complete the microlearning module?

A37: Everyone learns at their own pace, but the module should take you approximately 20 minutes. There are links to outside resources throughout the module so you can “learn more” about a particular topic, but those are optional and are NOT required to receive your certificate. The module is self-paced, meaning you can go as fast or slow as you’d like. In addition, the course is delivered “on demand”, so you can take it whenever it fits into your schedule. You will be able to easily find your place and resume the course whenever needed after logging back into your HealthyClean account.

Q38: What kind of device do I need to take the training? Can I take it from my smartphone?

A38: The training module can be accessed and completed using a computer, laptop, tablet, smartphone (although we recommend a larger screen for easier readability). You can use different devices as you go through the course, depending upon what is most convenient for you.

Q39: Is the module available in multiple languages?

A39: Currently the training module is only available in English.

Q40: Can I take the training if I am hearing, sight or mobility challenged?

A40: Yes. The training module will feature standard accessibility for learners with visual, auditory and/or mobility challenges. Standard accessibility includes closed captioning, alt-text and an intuitive tab order that allows you to access all slide items. The course has been designed to avoid elements that are not keyboard accessible and is balanced between text and audio. Slides are readable by a JAWS reader.

Q41: What do I earn when I complete the training module? Is there a certificate?

A41: Yes, when you successfully complete the training, you will be awarded a HealthyClean Certificate of Completion. To download, go to the “Completed” tab and you will see “View Certificate”. You can then save, print and share your new expertise with others.

Tougher Tasks Modules (Mold & Mildew, Grease & Grime, Hard Water Issues)

Q42: What is the purpose of the “Tougher Tasks” Modules? What specifically will I learn?

A42: There are 3 different CloroxPro HealthyClean® Tough Task Modules –Mold & Mildew, Grease & Grime, and Hard Water Related issues. Each training module is designed to help you learn what causes these different challenging and time-consuming cleaning tasks, how to identify and help prevent them and what CloroxPro product can help your team get the job done quickly and effectively.

Q43: How do I register to take one of the microlearning modules?

A43: The HealthyClean Tougher Tasks modules are free of charge. You can visit www.CloroxPro.com/healthyclean to register directly. Your request for a HealthyClean account will be submitted to the Program Administrator and once approved, an email will be sent with instructions to get started. Check your inbox or spam folder if you don’t receive an email within 24hrs.

Q44: How long does it take to complete one of these microlearning modules?

A44: Everyone learns at their own pace, but each module should take you less than 10 minutes. The modules are all self-paced, meaning you can go as fast or slow as you’d like. In addition, the course is delivered “on demand”, so you can take it whenever it fits into your schedule. You will be able to easily find your place and resume the course whenever needed after logging back into your HealthyClean account.

Q45: What kind of device do I need to take the training? Can I take it from my smartphone?

A45: All training modules can be accessed and completed using a computer, laptop, tablet, smartphone (although we recommend a larger screen for easier readability). You can use different devices as you go through the course, depending upon what is most convenient for you.

Q46: Are the modules available in multiple languages?

A46: Currently the training modules are only available in English.

Q47: Can I take the training if I am hearing, sight or mobility challenged?

A47: Yes. The modules will feature standard accessibility for learners with visual, auditory and/or mobility challenges. Standard accessibility includes closed captioning, alt-text and an intuitive tab order that allows you to access all slide items. The course has been designed to avoid elements that are not keyboard accessible and is balanced between text and audio (slides are readable by a JAWS reader).

Q48: What do I earn when I complete the training module? Is there a certificate?

A48: Yes, when you successfully complete the training, you will be awarded a HealthyClean Certificate of Completion. To download, go to the "Completed" tab and you will see "View Certificate". You can then save, print and share your new expertise with others.
