 **SERIES**
Diesel-Fueled Generator
ENGINE OIL

Stay Moving.
Ready · Set · Rehiko

Keep your business running with genuine Rehlko aftermarket parts and services. Our XTREME Conditions 10W-40 diesel engine oil is **formulated to excel in even the most demanding conditions** – protecting your generators, extending engine life and optimizing efficiencies in ways that reduce your total cost of ownership. With Rehlko's highly engineered products and expert service teams, you can trust your generator to deliver reliable performance, **letting you focus on running your business.**

Features & *Benefits*

Extreme Service Protection

Feature: Rehlko diesel oils provide superior wear and corrosion resistance, even under heavy loads.

Benefit: Extends engine life and minimizes downtime, reducing long-term maintenance costs.

Engineered for Longevity

Feature: Advanced low-SAPS (sulfated ash, phosphorus, and sulfur) formulation protects modern after-treatment systems.

Benefit: Keeps emissions systems functioning properly, reducing environmental impact and compliance risks.

Optimized for All Conditions

Feature: XTREME Conditions 10W-40 is a fully synthetic oil designed for mission-critical applications in all operating conditions.

Benefit: Ensures peak generator efficiency and reliability, even in extreme temperatures.

Enhanced Efficiency & Lower Costs

Feature: XTREME Conditions 10W-40, is a category 3.1 oil for large KD Series generators and is designed for longer oil drain intervals and reduced viscosity breakdown.

Benefit: Maximizes fuel efficiency, reduces oil consumption, and lowers total operating costs.

Versatile Product Line

Feature: Two distinct oil options:

Benefit: The right oil for every diesel generator, ensuring optimal performance no matter your power system.

XTREME CONDITIONS

Fully synthetic for high performance engines and stage 5 engines, used in Industrial diesel generators.

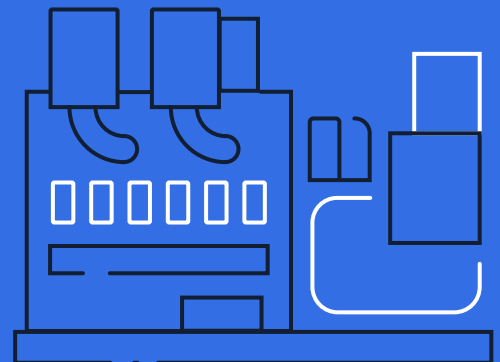

XPERT CLASSIC

Conventional oil with proven viscosity stability for legacy engine platforms.

- ✓ **Extended Engine Life & Reliability:**
Protect against wear and corrosion to extend generator lifespan and prevent costly repairs.
- ✓ **Lower Maintenance & Operating Costs:**
Longer oil drain intervals reduce maintenance needs, keeping your generator running efficiently while cutting costs.
- ✓ **Peak Performance in Any Condition:**
Maintain viscosity and stability in extreme temperatures and heavy loads for consistent, reliable performance.
- ✓ **Enhanced Fuel Efficiency & Emissions Control:**
XTREME Conditions Low-SAPS formulation optimizes fuel efficiency, reduces emissions and ensures compliance with environmental regulations.

Customer Benefits

About Rehlko Diesel-Fueled Generator *Engine Oil*

When your business depends on continuous power, every component of your generator system matters—including the oil that keeps it running. Rehlko diesel engine oils are **specifically formulated for industrial, mobile, and marine generator applications**, providing unmatched wear protection and long-term performance.

Rehlko XTREME Conditions 10W-40

A fully synthetic oil designed for mission-critical generators operating in all environments. It delivers exceptional performance under extreme temperatures and heavy loads, minimizing viscosity breakdown and maximizing efficiency. Compared to competitor oils, XTREME Conditions lasts longer and offers superior wear protection.

Whether you choose synthetic or conventional oil, Rehlko's diesel-fueled engine oils are engineered for superior protection and performance—giving you peace of mind while you focus on running your business.

Rehlko XPERT Classic 15W-40

A high-quality conventional oil tailored for legacy diesel engines that have historically used conventional formulations. It delivers strong viscosity control, robust wear protection, and minimal friction for reliable power generation.
