

TOWNHOUSE

CENTER FOR REHABILITATION
AND NURSING

Dear Family and Friends,

Townhouse Center would like to update you on daily activity that has been going on in the facility in regards to the COVID19 pandemic. We remain COVID free with our residents as well as our staff members within the last 24 hours. We have not had a death with an active COVID19 diagnosis. We have received clarification about all guidelines put out by NYSDOH and visitation. We need to remain COVID free for 28 days to open up to visitation from the last positive results date. Based upon these guidelines we can begin visitation on 8/20 as long as a submitted plan is approved by the DOH. Please keep in mind that if anyone else tests positive during this time period, the 28 day clock will restart again. We continue to monitor, follow all CDC and DOH recommendations and continues to report specific numbers to the DOH on a daily basis. We look forward to reuniting you with your loved ones. Should you have any questions or concerns please feel free to reach out to administration.

*Sincerely,
Administration*
