About 10X

Our goal is to give investors more money at and in retirement. We achieve this by providing one optimal investment solution.

Three investment principles underlie 10X's life-stage portfolios:

1. Long-term strategic asset allocation
2. Diversification
3. Low fees

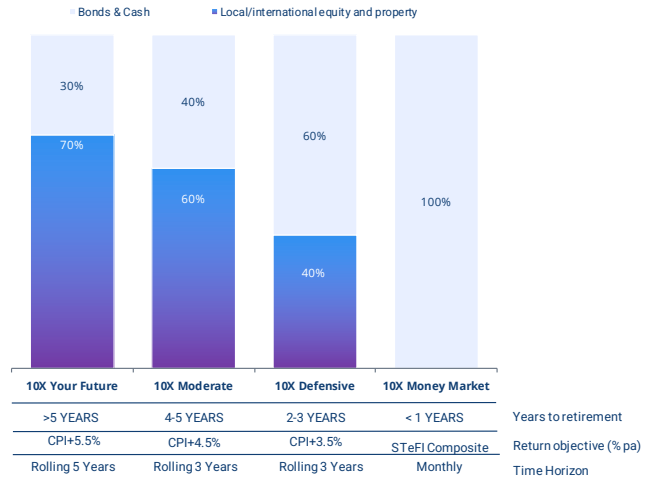

10X Life-Stage Retirement Solution

10X invests each investor's money according to their retirement date. Those more than 5 years from retirement are invested in the 10X Your Future Portfolio, to maximise their long-term return.

Those within 5 years of retirement are invested in portfolios with gradually declining equity exposure to preserve their capital.

Investors may also opt out of the default glidepath and select an investment portfolio of their choice.

10X Life-stage Portfolios¹

10X portfolio returns vs inflation

10X Portfolio	1 Month	3 Month	1 Year	3 Year	5 Year	10 Year	15 Year
10X Your Future	2,1%	1,3%	14,3%	12,8%	12,1%	9,6%	11,2%
10X Moderate	1,9%	1,2%	13,5%	12,5%	11,5%	8,6%	10,2%
10X Defensive	1,9%	1,1%	12,2%	11,6%	10,4%	8,2%	9,0%
10X Money Market*	0,6%	1,7%	7,4%	8,3%	7,6%	6,7%	7,4%
10X Income	0,7%	1,2%	8,5%	9,9%	-	-	-
SA Inflation	0,6%	1,2%	3,1%	3,7%	4,8%	4,6%	5,0%

Source: 10X Investments, Stats SA. Performance is before 10X's fee but after all other expenses. All returns greater than 12 months are annualised.

*10X Money Market portfolio replaced the final life-stage glidepath portfolio on 01 December 2022. Returns before 01 December 2022 represent that of the previous life-stage portfolio.

The 10X difference

Our tried and tested investment philosophy delivers superior returns.

We are future-forward: We take a long-term strategic asset allocation approach, planning for well into the future.

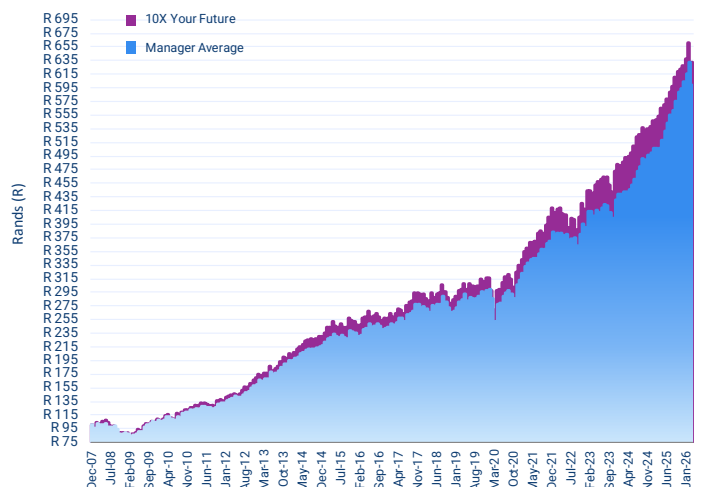

We are all about diversification: We believe being well diversified is the best way to manage risks and uncertainty, and to deliver better long-term returns.

We keep fees as low as possible: We know how fees can erode wealth, holding investors back from reaching their goals. Our fees are low and transparent, and we don't charge performance fees.

This investment strategy works really well for us and, importantly, for our investors. It is the reason we consistently deliver excellent long-term returns and have done so for almost two decades.

The 10X Your Future Portfolio has consistently outperformed the average return of our peers since inception (1 January 2008). Past performance is used here for illustrative purposes.

10X Your Future VS. Average return of large investment managers since inception (before fees)¹

Low fees

10X charges low total fees to ensure investors save more of their money, and

A lump sum of R100,000 invested over a working life (40 years) earning 6.5% pa plus inflation will grow to R1.24 million in today's money. However, this is before fees. Paying a fee of 0.5% pa (as a % of investment value), your lump sum will only grow to R1.02 million. In fact, for every 1% in fees you save per annum, you will have almost 50% more money after 40 years.

Impact of fees on after inflation value of R100,000 invested for 40 years earning 6.5% pa plus inflation²

SOURCE: 10X Investments. This graph shows the hypothetical 6.5% pa return above inflation.
