

Non-multimedia material

1. Listen to audio and decide if the following statements are true (T) or false (F):

- a. Tom has a headache and a fever.
- b. Tom has a cold.
- c. Tom has to take the pills once a day.

2. Listen to audio and fill in the gaps with one word:

Tom: Hello!

Doctor: Hello. What's the

T: I think I'm ill.

D: What do you have?

T: I have a headache and I a lot. And I have a sore throat.

D: Do you have a fever?

T: No, I don't.

D: OK, I'll examine you first. Good, it's probably just a I'll give you a prescription. Are you to penicillin?

T: No, I'm not.

D: OK. Take these pills a day after meals. If you don't get better in a week, come to me again.

T: OK, thank you. Bye!

D: Bye.

3. Read the dialogue in pairs. Next, make your own dialogues:

Student A: You are a doctor. Ask Student B to describe the symptoms of their illness. Say what Student B should do or take.

Student B: You are a patient. Describe the symptoms you have. Listen to the advice the doctor gives you.

Then swap roles.

Non-multimedia material

Key:**1.**
