## LESSON 1 – MEANS OF TRANSPORT

### MEMORY CARD GAME

Place one set of the cards on the table faced down on the left side and the other set of cards on the right side of the table, also faced down. The first player turns around the first card and tries to find the same card in the second set on the right. At the same time, he says the English phrase for the image he/she sees on the card. If he/she turns around the right cards, he/she gets to keep it and is allowed to take the second turn. If not, he/she turns both cards face down and it is the other player's turn.
