

## THE *LADY DIOR* SEEN BY DAVID WISEMAN

Based in Los Angeles, David Wiseman finds inspiration in the beauty of nature to create ceramics, installations and objects. After collaborating with the House by sculpting bells of lily-of-the-valley for the boutiques in Shanghai, Tokyo and New York, he conceived two creations as part of the *Dior Lady Art* project. The totally transparent large bag was made of perforated leather and represents a remarkable technical feat. On the medium-sized bag, Dior gray and traditional *Lady Dior* production techniques are paired with unique charms adorned with porcelain and brass lily-of-the-valley.
