NOTE 2 – BASIS FOR PREPARATION (CONTINUED)

b) Measuring Unit

IAS 29 “Financial Reporting in Hyperinflationary Economies” (“IAS 29”) requires that an entity’s financial statements whose functional currency is the currency of a hyperinflationary economy, regardless of whether they are based on the historical cost method or on the current cost method, be stated in terms of the measuring unit current at the end of the reporting period. For such purpose, in general, the inflation from the acquisition date or the revaluation date, as the case may be, should be computed in non-monetary items. Such requirements are also applicable to the comparative information disclosed in the financial statements.

To conclude on the existence of a hyperinflationary economy pursuant to the provisions set forth in IAS 29, the standard details a series of factors to be considered, including an accumulated three-year inflation rate that approximates to or exceeds 100%. Accordingly, pursuant to the requirements of IAS 29, effective since July 1, 2018, the Argentine economy should have been regarded as a hyperinflationary economy.

In turn, Law No. 27468 (published in the Official Gazette on December 4, 2018) introduced certain changes to Section 10 of Law No. 23928, as amended, establishing that the repeal of all such legal and regulatory standards which establish or authorize price indexation mechanisms, monetary adjustments, changes in costs or any other form of restatement of indebtedness, taxes, prices or rates for goods, works or services, is not applicable to financial statements, which should continue to be subject to the provisions of Section 62 *in fine* of the Argentine General Companies Law No. 19550 (as amended in 1984) and its amendments. In addition, Law No. 27468 repealed Decree No. 1269/2002 dated July 16, 2002, as amended, and entrusted the National Executive Branch, through its regulatory agencies, with the duty of setting the date as from which the foregoing provisions would come into force in respect of financial statements filed with them. Accordingly, by way of General Resolution 777/2018 (published in the Official Gazette on December 28, 2018), the C.N.V. provided that issuers subject to its oversight were required to restate their annual, interim and special financial statements ended on and after December 31, 2018 into constant currency as required by IAS 29. Therefore, the Company’s condensed interim financial statements as of September 30, 2021 have been restated.

In accordance with IAS 29, the financial statements of an entity reporting in the currency of a hyperinflationary economy should be presented in the current unit of measurement as of the end of the reporting period. All balances disclosed in the entity’s balance sheet, other than those stated in the current unit of measurement as of the end of the reporting period, should be adjusted by reference to a general price index. All profit & loss items should be reported in terms of a unit of measurement adjusted as of the end of the reporting period by reference to the changes in the general price index occurring since the date on which revenues and expenses have been originally recognized in the financial statements.

The inflation adjustment was calculated by reference to the indexes established by the FACPCE, which are based on the price indexes released by the Argentine Institute of Statistics and Census (“INDEC”). The following table shows the applicable indexes as of the end of each reporting year/period, and the indexes applicable to each month.

Below is a detail of the main guidelines for the application of the inflation adjustment:

- Monetary assets and liabilities should not be restated, for they are stated in current currency as of the end of the reporting period.
- Non-monetary assets and liabilities recognized at cost and equity items should be restated, by reference to the respective adjustment ratios, for they are stated in a currency prior to the end of the reporting period.
- All profit & loss items are restated by reference to the respective adjustment factors.
- The effects of inflation on the Company's net monetary position are disclosed in the statement of profit or loss in a separate item, under "Loss on Net Monetary Position".
- The Company has reported revenues from financing and costs of financing (including, without limitation, interest and foreign exchange gain (loss)) at their restated nominal value, as provided for in paragraph 28 of IAS 29. Accordingly, such items are not reported net of the effects of inflation (in real terms).

Comparative figures were restated into constant currency at the reporting period end.

NOTE 31 – PROVISIONS

This account includes the estimated amounts to face risks of probable occurrence, which, if they occur, will give rise to a loss for the Company.

(1) Legal Claims:

The Company is subject to claims, lawsuits and other legal proceedings, including customers' claims, where a third party is claiming payments for alleged damages, refunds for losses or compensation. The potential debt for the Company with respect to such claims, lawsuits and other legal proceedings cannot be certainly estimated. Management periodically reviews the progress of each of the significant issues and calculates the potential financial exposure.

A provision is booked when a potential loss derived from a claim or legal proceeding is deemed likely and the amount can be fairly estimated.

Provisions for contingent losses reflect a fair estimation of the losses to be incurred based on the information made available by Management as of the date of the preparation of the condensed interim financial statements and considering the lawsuits to which Tarjeta Naranja is a party. These estimations are mainly prepared with the assistance provided by the legal advisors.

NOTE 31 – PROVISIONS (CONTINUED)

(2) Tax Claims:

As of the date of these financial statements, the Company is in the following situations with respect to certain Provincial Tax Boards:

The Company has a dispute with the Tax Revenue Agency of the Province of Río Negro. In due time, the tax agency made an adjustment of AR\$ 895 for turnover tax for the tax periods from January 2010 to June 2012 from the Company. The Company timely challenged the adjustment made. The amount claimed plus accrued interest totaled AR\$ 3,125 and AR\$ 4,059 (AR\$ 2,964 in nominal terms) as of September 30, 2021 and December 31, 2020, respectively.

Furthermore, Tarjeta Naranja has a dispute with the General Tax Board of the Province of Córdoba regarding a difference in the turnover tax liability payable for tax periods running from January 2016 to August 2018. On February 14, 2020, the tax agency gave notice to the Company of an official tax assessment in the amount of AR\$ 35,723, plus interest. On September 4, 2020, the tax agency dismissed the grounds and defenses filed by the Company and gave notice of an official tax assessment for the previously notified amount. The Company timely challenged the adjustment made. On November 6, 2020, the Company was notified of the dismissal of the appeal requesting reversal it had filed. In response, the Company filed an administrative complaint against the tax agency's position. The amount claimed plus accrued interest totaled AR\$ 131,292 and AR\$ 166,459 (AR\$ 121,540 in nominal terms) as of September 30, 2021 and December 31, 2020, respectively.

The Company also has outstanding claims from certain Municipal Tax Bureaus in some parts of the country; most of them in connection with Publicity and Advertising, and in respect to which it has filed the respective defenses. As of September 30, 2021 and December 31, 2020, total municipal claims against the Company amounted to AR\$ 27,564 and AR\$ 35,390 (AR\$ 25,840 in nominal terms), respectively.

The provisions booked in liabilities related to the cases described above had been adjusted based on the opinion of the legal advisors, the judicial precedents referred to above and the favorable evolution thereof.

However, Tarjeta Naranja S.A.'s Board of Directors, based on tax advisors' opinions, considers the taxes involved have been appropriately calculated according to legal regulations currently in force at the time of the settlements, and those tax authorities' claims have no legal or technical grounds. Therefore, the Company is currently exercising — and will exercise in the future — its constitutional rights in order to clarify and settle said issues.

On December 1, 2017, Tarjeta Naranja S.A. filed an action against the Argentine tax authorities (AFIP as per its initials in Spanish) for the recovery of the Income Tax for the years 2014 and 2016 in the amount of AR\$ 580,164, in nominal terms. The action was grounded on the total and/or partial failure to apply the inflation adjustment mechanisms set forth in Title VI of the Income Tax Law, leading to absorb a substantial portion of taxable income and surpass any reasonable taxation threshold. On May 17, 2018, an identical action was filed in respect of the predecessor company Tarjetas Cuyanas S.A. for the years 2014 and 2016, in the amount of AR\$ 145,478, in nominal terms. On September 27, 2019 and September 17, 2019, the Company filed the respective actions for years 2017 and 2018 in the amount of AR\$ 326,498 and AR\$ 973,843, respectively, in nominal terms. Similarly, on February 20, 2020, the Company filed an action with AFIP for the recovery of the Income Tax for the year

NOTE 31 – PROVISIONS (CONTINUED)

2015 in the amount of AR\$ 149,763, in nominal terms. In the absence of an answer from AFIP, on December 6, 2019 the Company filed an action for protection of fundamental rights on grounds of undue delay with the Federal Tax Court regarding Tarjeta Naranja S.A.'s years 2014 and 2016. On February 26, 2020, the Company was served notice of the favorable outcome of this action, whereby AFIP was ordered to render judgment within the following 60 days. On May 21, 2021, AFIP rejected the claim. Consequently, on June 18, 2021, Tarjeta Naranja filed a complaint requesting the tax refund with the Federal Court. On the other hand, and given the fact that the statute of limitations for AFIP to render judgment had run off, on December 27, 2019, the Company filed an action for recovery with the Federal Courts concerning Tarjetas Cuyanas S.A.'s years 2014 and 2016 and Tarjeta Naranja S.A.'s year 2018. On December 30, 2019, the Company brought an identical action in connection with Tarjeta Naranja S.A.'s year 2017 and on April 29, 2021 for Tarjeta Naranja's year 2015. Similarly to the rest of the years, on May 26, 2020, Tarjeta Naranja S.A. filed a complaint requesting refund of the Income Tax with AFIP for the year 2019 for the amount of AR\$ 1,364,949, in nominal terms.

Since the appropriate defenses have been filed during such legal proceedings to safeguard the Company's interests, the seized funds have been included in these condensed interim financial statements under "Other Receivables".

Covenants Undertaken

The commitments undertaken by virtue of Class XXXVII, XLIV, XLV, XLVI, XLVII, XLVIII and XLIX Notes ("*Obligaciones Negociables*") are mentioned in Note 35.

Security Deposits

As of September 30, 2021 and December 31, 2020, the Company paid AR\$ 8,859 and AR\$ 9,691, respectively, for security related to certain buildings lease agreements. These funds have been included in these condensed interim financial statements under "Other Receivables".

Restriction on the Distribution of Dividends

The Company's Ordinary and Extraordinary Shareholders' Meeting held on March 16, 2006 resolved to define the following policy for the distribution of dividends: i) to keep under Retained Earnings those retained earnings corresponding to years prior to 2005 and, therefore, not to distribute them as dividends, and ii) to set as maximum limit for the distribution of dividends 25% of the liquid and realized income for each year as from 2005. These restrictions shall remain in full force as long as the Company's equity remains below AR\$ 300,000. Thus, the policy for the distribution of dividends approved by the Company's Board of Directors at its meeting held on January 4, 2006 has been ratified.

Furthermore, in the Price Supplement of Class XXXVII Notes, the Company agreed not to distribute dividends: i) in excess of 50% of the Company's net profit accrued since January 1, 2017 until the most recent previous quarter plus 50% of the net profit accrued during fiscal year 2016, net of restricted payments made in 2016, and ii) when (a) the Total Liabilities (Liabilities minus Cash and Cash Equivalents) to Equity Ratio does not exceed 7 to 1, and (b) the Indebtedness (Borrowings minus Cash and Cash Equivalents) to Equity Ratio does not exceed 4 to 1.

NOTE 48 – ECONOMIC ENVIRONMENT

The Company operates amidst a challenging economic environment, both locally and internationally.

In recent months, international markets have been affected by the proliferation of the coronavirus Delta variant, the re-emergence of substantial inflationary pressures, and certain disruptive decisions in China, among other factors. Consequently, global economic recovery is still ongoing, though at a slower pace than that observed months ago. The new international scenario seems to converge into one characterized by more moderate economic growth with tighter financial conditions, in addition to further inflationary pressures caused by delays in production chains and hikes in certain commodity prices. In this vein, the U.S. Federal Reserve seems more likely to start implementing a restrictive monetary policy in the short term, beginning with withdrawing liquidity from markets (also known as “tapering”), potentially followed by interest rate hikes.

Locally, after recording a 9.9% decline in GDP in 2020, the Argentine economy managed to return to pre-pandemic levels by August 2021. Even though during the second quarter of 2021, GDP rose by 17.9% YoY driven by the low basis for comparison, it fell 1.4% in seasonally-adjusted terms relative to the first quarter of the year. Such a decline was primarily driven by the restrictions reinstated by the government in April and May to cope with the new wave of infections. The local economy rebounded after the elimination of the restrictions. According to INDEC, in July and August, economic activity climbed 0.9% and 1.1%, respectively, on a monthly basis. Accordingly, economic activity increased 0.3% compared to February 2020—the month prior to the implementation of the first restrictions imposed to cope with the pandemic.

In the meantime, as of September, fiscal accounts displayed a primary deficit equal to 1.3% of GDP (including the tax revenues from the “Extraordinary Solidarity Contribution,” but excluding the Special Drawing Rights (SDRs) transferred by the International Monetary Fund). In recent months, the public sector accounts deficit has started to accelerate, hand in hand with a decline in total revenues and growing primary expenditures. As a result of such increased deficit, the Central Bank’s assistance to the Treasury has been on the rise. So far this year, the Central Bank has drawn AR\$ 787,712,000 in total as transfer of profits, thereby using up this form of financing. The Central Bank also transferred AR\$ 2,599,000 as Temporary Advances. However, in late September the Treasury repaid AR\$ 427,401,000 to the monetary authority against said amount.

The issuance of pesos has been putting pressure on the FX front for several months now, particularly, in the face of the upcoming elections (when the precautionary demand for U.S. dollars usually increases), combined with the fact that the intensive settlement of harvest proceeds was left behind (which reduces supply). Consequently, in recent months the Central Bank and the C.N.V. have imposed a number of measures to curb the loss of foreign currency. During the third quarter of 2021, the sale of U.S. dollars to the private sector and the use of foreign currency to intervene in the securities market and contain the financial exchange rates resulted in the loss of International Reserves, which was more than offset by the transfer of SDRs by the IMF for US\$ 4,319,000 (in thousands). Thus, at the end of the third quarter, International Reserves amounted to US\$ 42,911,000 (in thousands).

NOTE 48 – ECONOMIC ENVIRONMENT (CONTINUED)

Despite the growing pressures, the Central Bank has been firmly maintaining the exchange anchor. The official exchange rate is currently rising at an annualized pace of approx. 11%, below inflation which, in September, hit an annual rate of 52.5%. In particular, the official exchange rate established by the Central Bank on a daily basis through Communiqué “A” 3500 depreciated from AR\$/US\$ 95.73 on the last business day of June to AR\$/US\$ 98.74 on the last business day of September. As a result of the use of an exchange anchor, the multilateral real exchange rate appreciated, declining 6.6% from June 30 to September 30.

The Company’s management monitors the changes in the variables affecting its business on an ongoing basis to define the course of action to be followed, and identify potential impacts on its financial position. Consequently, these consolidated financial statements should be read in the light of these circumstances.

NOTE 49 – COVID-19

During the reporting period, the Company has been operating under the circumstances resulting from the outbreak of the Covid-19 pandemic, declared as such by the World Health Organization in March 2020.

The pandemic is still affecting businesses and economic activities at a global and local level. The outbreak of new variants, such as Delta, could require the reinstatement of social distancing measures and restrictions, which are unpredictable at this time. In addition, the progress made in the COVID-19 vaccination campaign has paved the way for the return to productive and business activities. However, the final extent of the coronavirus outbreak and its impact on the global and local economy are still uncertain.

In Argentina, the National Government adopted several measures to contain the virus proliferation, including, without limitation, border closures and mandatory social distancing measures, combined with the interruption of non-essential business activities for a long time, with certain differences depending on the region and the activity. As of the date of these financial statements, productive and business activities have been resumed, in compliance with health protocols and certain rules of conduct.

However, against this backdrop, during the year the Central Bank adopted certain measures, including (i) the need for a previous appointment for onsite customer service, (ii) the extension of credit card payment due dates; (iii) the financing of unpaid credit card balances at maximum rate, (iv) the easing of bank debtors’ classification criteria, and (v) foreign exchange controls.

NOTE 49 – COVID-19 (CONTINUED)

As part of the plan to cope with the current situation, effective since April 13, 2020, the Company's branches have started to operate on special business hours with previous appointment being required, and certain transactions shifted from face-to-face to digital channels, which resulted in an increase in electronic payments. In addition, the Company has devised special financing plans to afford customers debt payment facilities, and launched special promotions for on-line purchases at Tienda Naranja's site, as well as for purchases at supermarkets and drug stores. These actions are meant to mitigate the impact of increasing arrears and lower spending levels. However, as of the date of these financial statements, the Company maintains high liquidity and solvency levels sufficient to address the contingencies that may result from the above-described circumstances.

In view of the foregoing, the Company cannot reasonably quantify the extent to which the Coronavirus will affect its business and the results of its operations in the future, if the current situation persists over time.

The Company's Board of Directors is monitoring the situation and taking all possible actions to preserve human life and its operations.

NOTE 50 – SUBSEQUENT EVENTS

On October 14, 2021, Tarjetas Regionales S.A. and Tarjeta Naranja S.A., as shareholders of Cobranzas Regionales S.A., made irrevocable contributions to offset losses on a proportional basis to their equity interests, in the amount of AR\$ 365,000 and AR\$ 19,250, respectively. The contribution was accepted by the Board of Directors of Cobranzas Regionales S.A., as per Minutes No. 224.

On November 10, 2021, the Company issued Class L Notes for an aggregate amount of AR\$ 4,050,000, due within 12 months from the date of issuance. These notes will accrue interest at Badlar plus a 5.0% margin, payable on a quarterly basis. On the same date, the Company launched the reopening of Class XLIX, Series II Notes ("*Obligaciones Negociables*") for an aggregate amount of AR\$426,344, in addition to the AR\$1,246,500 issued on August 13, 2021. Insurance and Assistance Products

During the third quarter of 2021, the Company reached a stock of 2,180,000 insurance policies and assistance products. Six per cent (6%) of the sales were completed through digital channels, with an average of 70,000 new products per month. These indicators reflect stability in both the stock and the digital channel's contribution.

Social Innovation and Sustainability

During the third quarter of the year, the Company announced that since 2020 it has become carbon neutral in an attempt to offset its carbon footprint.

It also completed the rebranding of certain branches, embracing triple impact criteria. Besides, in anticipation of the Friendship Day, Naranja X partnered with Sumatoria to finance popular economy projects. Finally, seeking to embrace diversity, the Company participated in a joint action with Trans Argentinx and Contratá Trans to expand the education offering and job opportunities.

Promotions and Benefits

During the third quarter, Naranja's customers could enjoy several benefits, including the Z Plan (3, 6, 9 and 12 installments), discounts, and special and deferred payment plans on essential items, such as supermarkets, drug stores, delivery companies and gas stations, in addition to a broad value proposition specially conceived for our customers. Naranja launched benefits for special dates, such as the Children's Day, on several categories, including clothing, sports and electronics, among others.

Naranja launched the second stage of *Smartes* which will continue through December, offering up to 25% discounts on clothing and shopping malls nationwide.

The Z Plan (3 interest-free installments) was deployed in gas stations under the Puma Energy brand.

Rebranding

Progressively, Naranja X has continued pursuing its rebranding initiative across the branch network. This will allow the Company to offer a unique experience for users to engage with the new brand and value proposition. As of September 30, the new corporate image had already been deployed in 70% of the Company's branches.

Outlook

Naranja X's goal is to spearhead financial inclusion and education in the region, seeking to become the most human technological and financial platform preferred by the Argentinians. This will surely allow it to scale up new products and services simply and to a massive extent, facilitating financial inclusion and education.

With the removal of the pandemic-related restrictions, local economic and social conditions are likely to improve and continue to display favorable indicators.

To the Shareholders and Directors of
Tarjeta Naranja S.A.
Legal Domicile: La Tablada 451

DOCUMENTS EXAMINED

1. As members of Tarjeta Naranja S.A. and in accordance with the provisions of Section 294, subsection 5 of the Argentine General Companies Law, we have reviewed the accompanying financial statements of Tarjeta Naranja S.A. (hereinafter, the "Entity"), which include:

- the Condensed Interim Balance Sheet as of September 30, 2021;
- the Condensed Interim Statements of Profit or Loss and Other Comprehensive Income for the nine- and three-month periods ended September 30, 2021;
- the Condensed Interim Statements of Changes in Equity and Cash Flows for the nine-month period ended September 30, 2021; and
- the summary of critical accounting policies and other explanatory information included in supplementary notes and exhibits.
- Summary of Activity

The amounts and other information for fiscal year 2020 and its interim periods are an integral part of the condensed interim financial statements mentioned above and are disclosed to be exclusively construed in connection with the amounts and information for the current interim period.

BOARD OF DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

2. The Entity's Board of Directors is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting guidance set forth by the Argentine National Security Commission (C.N.V.) and such internal controls as it might be deemed required to ensure that the financial statements are free from material misstatements. As mentioned in Note 2 to the accompanying condensed interim financial statements, such accounting guidance is based on the application of the International Financial Reporting Standards (IFRS) and, in particular, for interim financial statements, on International Accounting Standard (IAS) 34 "Interim Financial Reporting," as approved by the International Accounting Standards Board (IASB). Such standards were adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) and by the C.N.V., and were used in preparing the financial statements.

RESPONSIBILITY OF THE SUPERVISORY COMMITTEE'S MEMBER

3. Our responsibility is to express a conclusion on the documents examined in paragraph 1., on the basis of our reviews performed within the scope detailed in paragraph 4.

4. Our examination was carried out in accordance with standards applicable in Argentina to members of the Supervisory Committee for the review of condensed interim financial statements, which include verifying the consistency of the documents reviewed with the information concerning corporate decisions, as disclosed in minutes, and the conformity of those decisions with the law and the bylaws insofar as concerns formal and documental aspects.

For purposes of our professional work on the above-described documents, we have relied on the work performed by the external auditors, Price Waterhouse & Co. S.R.L., who issued an unqualified limited review report on November 11, 2021, in accordance with the International Standard on Review Engagements 2410 ("ISRE 2410"), "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", which was adopted as review standard in Argentina by Technical Pronouncement No. 33 of FACPCE, as approved by the International Auditing and Assurance Standards Board (IAASB).

Said review included verifying the work plans and the nature, scope and timing of the procedures applied, and the results of the review performed by the above-referred professionals. A review of interim financial statements consists of making inquiries to the Entity's staff primarily responsible for the Entity's financial and accounting issues, and applying analytical and other review procedures. Such a review is substantially less in scope than an audit and, consequently, does not enable us to obtain

assurance that we would become aware of all the significant matters that might be identified in an audit. Accordingly, such review does not express an audit opinion.

Since it is not our responsibility to perform any management control, our examination did not extend to the judgments and business decisions regarding the different areas of the Entity, which are the exclusive responsibility of the Board of Directors.

We also report that, in compliance with the legality control that is part of our field of competence, during this period we have applied the other procedures described in Section 294 of Law No. 19550, which we deemed necessary according to the circumstances, including —among others— controlling the constitution and survival of the directors' bond.

CONCLUSION

- Based on our reviews, within the scope described in paragraph 4. above, and taking into consideration the External Auditor's limited review report, in our opinion, the condensed interim financial statements mentioned in paragraph 1. are fairly presented, in all material aspects, in accordance with the accounting guidance set out by the Argentine National Securities Commission (C.N.V.).
- In compliance with the legality control that is part of our field of competence, we have no observations to make.

REPORT ON OTHER STATUTORY AND REGULATORY REQUIREMENTS

We hereby report that:

- I. Tarjeta Naranja S.A.'s condensed interim financial statements arise from accounting records kept, in all formal aspects, in compliance with legal regulations; except that they have not yet been transcribed to the "Inventory and Balance Sheet" book, considering that Tarjeta Naranja S.A. keeps that book in digital format, pursuant to Resolutions 88/2019 and 57/2020 of the Superintendence of Commercial Companies of the Province of Córdoba.
