Its main business is to create, develop, direct, manage, market, exploit and operate credit and/or debit and/or purchase and/or similar card systems. The Company may hold an interest in the capital stock of other companies rendering supplementary services to the financial activity, which are allowed by the Argentine Central Bank (BCRA).

NOTE 2 – BASIS FOR PREPARATION

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and as approved by the International Accounting Standards Board (IASB), and, particularly, in accordance with International Accounting Standard (IAS) 34 “Interim Financial Reporting” used in preparing the condensed interim financial statements.

The Argentine National Securities Commission (C.N.V.), pursuant to Title IV “Periodical Reporting Requirements”- Chapter III “Rules concerning the Presentation and Valuation Criteria of Financial Statements” - Section 1 of its regulations, has established the application of Technical Pronouncement No. 26 (TP No. 26) issued by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE), as amended, adopting the IFRS issued by the IASB for certain entities included in the public offer regime prescribed in Law No. 17811, whether by reason of their capital stock or notes (“*obligaciones negociables*”), or because these entities have applied for authorization to be included in such regime.

Also, some additional matters required by the Companies Law and/or C.N.V. regulations, among others, the supplementary information established in the last paragraph of Section 1, Chapter III, Title IV of General Resolution No. 622/13 were included. Such information is included in the notes to these condensed interim financial statements, as established by IFRS.

In preparing these condensed interim financial statements, the Company has availed of the option set forth in IAS 34, and has prepared such statements on a condensed basis. Therefore, these financial statements do not include all such information required to prepare a full set of annual financial statements, and users are encouraged to read them jointly with the Company’s annual financial statements as of December 31, 2020.

The figures disclosed in these condensed interim financial statements and in their accompanying notes are stated in thousands of Argentine Pesos, except for net earnings per share.

NOTE 2 – BASIS FOR PREPARATION (CONTINUED)

b) Measuring Unit

IAS 29 “Financial Reporting in Hyperinflationary Economies” (“IAS 29”) requires that an entity’s financial statements whose functional currency is the currency of a hyperinflationary economy, regardless of whether they are based on the historical cost method or on the current cost method, be stated in terms of the measuring unit current at the end of the reporting period. For such purpose, in general, the inflation from the acquisition date or the revaluation date, as the case may be, should be computed in non-monetary items. Such requirements are also applicable to the comparative information disclosed in the financial statements.

To conclude on the existence of a hyperinflationary economy pursuant to the provisions set forth in IAS 29, the standard details a series of factors to be considered, including an accumulated three-year inflation rate that approximates to or exceeds 100%. Accordingly, pursuant to the requirements of IAS 29, effective since July 1, 2018, the Argentine economy should have been regarded as a hyperinflationary economy.

In turn, Law No. 27468 (published in the Official Gazette on December 4, 2018) introduced certain changes to Section 10 of Law No. 23928, as amended, establishing that the repeal of all such legal and regulatory standards which establish or authorize price indexation mechanisms, monetary adjustments, changes in costs or any other form of restatement of indebtedness, taxes, prices or rates for goods, works or services, is not applicable to financial statements, which should continue to be subject to the provisions of Section 62 *in fine* of the Argentine General Companies Law No. 19550 (as amended in 1984) and its amendments. In addition, Law No. 27468 repealed Decree No. 1269/2002 dated July 16, 2002, as amended, and entrusted the National Executive Branch, through its regulatory agencies, with the duty of setting the date as from which the foregoing provisions would come into force in respect of financial statements filed with them. Accordingly, by way of General Resolution 777/2018 (published in the Official Gazette on December 28, 2018), the C.N.V. provided that issuers subject to its oversight were required to restate their annual, interim and special financial statements ended on and after December 31, 2018 into constant currency as required by IAS 29. Therefore, the Company’s condensed interim financial statements as of March 31, 2020 have been restated.

In accordance with IAS 29, the financial statements of an entity reporting in the currency of a hyperinflationary economy should be presented in the current unit of measurement as of the end of the reporting period. All balances disclosed in the entity’s balance sheet, other than those stated in the current unit of measurement as of the end of the reporting period, should be adjusted by reference to a general price index. All profit & loss items should be reported in terms of a unit of measurement adjusted as of the end of the reporting period by reference to the changes in the general price index occurring since the date on which revenues and expenses have been originally recognized in the financial statements.

The inflation adjustment was calculated by reference to the indexes established by the FACPCE, which are based on the price indexes released by the Argentine Institute of Statistics and Census (“INDEC”). The following table shows the applicable indexes as of the end of each reporting year/period, and the indexes applicable to each month.

Below is a detail of the main guidelines for the application of the inflation adjustment:

- Monetary assets and liabilities should not be restated, for they are stated in current currency as of the end of the reporting period.
- Non-monetary assets and liabilities recognized at cost and equity items should be restated, by reference to the respective adjustment ratios, for they are stated in a currency prior to the end of the reporting period.
- All profit & loss items are restated by reference to the respective adjustment factors.
- The effects of inflation on the Company's net monetary position are disclosed in the statement of profit or loss in a separate item, under "Loss on Net Monetary Position".
- The Company has reported revenues from financing and costs of financing (including, without limitation, interest and foreign exchange gain (loss)) at their restated nominal value, as provided for in paragraph 28 of IAS 29. Accordingly, such items are not reported net of the effects of inflation (in real terms).

Comparative figures were restated into constant currency at the reporting period end.

NOTE 31 – PROVISIONS

This account includes the estimated amounts to face risks of probable occurrence, which, if they occur, will give rise to a loss for the Company.

(1) Legal Claims:

The Company is subject to several claims, lawsuits and other legal proceedings, including customers' claims, where a third party is claiming payments for alleged damages, refunds for losses or compensation. The potential debt for the Company with respect to such claims, lawsuits and other legal proceedings cannot be certainly estimated. Management periodically reviews the progress of each of the significant issues and calculates the potential financial exposure.

A provision is booked when a potential loss derived from a claim or legal proceeding is deemed likely and the amount can be fairly estimated.

Provisions for contingent losses reflect a fair estimation of the losses to be incurred based on the information made available by Management as of the date of the preparation of the condensed interim financial statements and considering the lawsuits to which Tarjeta Naranja is a party. These estimations are mainly prepared with the assistance provided by the legal advisors.

NOTE 31 – PROVISIONS (CONTINUED)

(2) Tax Claims:

As of the date of these financial statements, the Company is in the following situations with respect to certain Provincial Tax Boards:

The Company has a dispute with the Tax Revenue Agency of the Province of Río Negro. In due time, the tax agency made an adjustment of AR\$ 895 for turnover tax for the tax periods from January 2010 to June 2012 from the Company. The Company timely challenged the adjustment made. The amount claimed plus accrued interest totaled AR\$ 3,017 and AR\$ 3,348 (AR\$ 2,964 in nominal terms) as of March 31, 2021 and December 31, 2020, respectively.

Furthermore, Tarjeta Naranja has a dispute with the General Tax Board of the Province of Córdoba regarding a difference in the turnover tax liability payable for tax periods running from January 2016 to August 2018. On February 14, 2020, the tax agency gave notice to the Company of an official tax assessment in the amount of AR\$ 35,723, plus interest. On September 4, 2020, the tax agency dismissed the grounds and defenses filed by the Company and gave notice of an official tax assessment for the previously notified amount. The Company timely challenged the adjustment made. On November 6, 2020, the Company was notified of the dismissal of the appeal requesting reversal it had filed. In response, the Company filed an administrative complaint against the tax agency's position. The amount claimed plus accrued interest totaled AR\$ 124,755 and AR\$ 137,283 (AR\$ 121,540 in nominal terms) as of March 31, 2021 and December 31, 2020, respectively.

The Company also has outstanding claims from certain Municipal Tax Bureaus in some parts of the country; most of them in connection with Publicity and Advertising, and in respect to which it has filed the respective defenses. As of March 31, 2020 and December 31, 2020, total municipal claims against the Company amounted to AR\$ 25,840 and AR\$ 29,187 (AR\$ 25,840 in nominal terms), respectively.

The provisions booked in liabilities related to the cases described above had been adjusted based on the opinion of the legal advisors, the judicial precedents referred to above and the favorable evolution thereof.

However, Tarjeta Naranja S.A.'s Board of Directors, based on tax advisors' opinions, considers the taxes involved have been appropriately calculated according to legal regulations currently in force, and those tax authorities' claims have no legal or technical grounds. Therefore, the Company is currently exercising — and will exercise in the future — its constitutional rights in order to clarify and settle said issues.

NOTE 31 – PROVISIONS (CONTINUED)

On December 1, 2017, Tarjeta Naranja S.A. filed an action against the Argentine tax authorities (AFIP as per its initials in Spanish) for the recovery of the Income Tax for the years 2014 and 2016 in the amount of AR\$ 580,164, in nominal terms. The action was grounded on the total and/or partial failure to apply the inflation adjustment mechanisms set forth in Title VI of the Income Tax Law, leading to absorb a substantial portion of taxable income and surpass any reasonable taxation threshold. On May 17, 2018, an identical action was filed in respect of the predecessor company Tarjetas Cuyanas S.A. for the years 2014 and 2016, in the amount of AR\$ 145,478, in nominal terms. On September 27, 2019 and September 17, 2019, the Company filed the respective actions for years 2017 and 2018 in the amount of AR\$ 326,498 and AR\$ 973,843, respectively, in nominal terms. In the absence of an answer from AFIP, on December 6, 2019 the Company filed an action for protection of fundamental rights on grounds of undue delay with the Federal Tax Court regarding Tarjeta Naranja S.A.'s years 2014 and 2016. On February 26, 2020, the Company was served notice of the favorable outcome of this action, whereby AFIP was ordered to render judgment within the following 60 days. On the other hand, and given the fact that the statute of limitations for AFIP to render judgment had run off, on December 27, 2019, the Company filed an action for recovery with the Federal Courts concerning Tarjetas Cuyanas S.A.'s years 2014 and 2016 and Tarjeta Naranja S.A.'s year 2018. On December 30, 2019, the Company brought an identical action in connection with Tarjeta Naranja S.A.'s year 2017. Similarly, on May 26, 2020, Tarjeta Naranja S.A. filed an action with AFIP for the recovery of the Income Tax for the year 2019 in the amount of AR\$ 1,364,949, in nominal terms.

NOTE 42 - RESTRICTED ASSETS

Liens in Force

As of March 31, 2021 and December 31, 2020, liens for a total amount of AR\$ 98,190 and AR\$ 1,099, respectively, have been levied on funds deposited in checking accounts opened by the Company at several financial institutions. Since the appropriate defenses have been filed during such legal proceedings to safeguard the Company's interests, the seized funds have been included in these condensed interim financial statements under "Other Receivables".

Covenants Undertaken

The commitments undertaken by virtue of Class XXVIII (TC), XXXVII, XLIV, XLV and XLVI Notes ("*Obligaciones Negociables*") issued by the Company are mentioned in Note 35.

Security Deposits

As March 31, 2021 and December 31, 2020, the Company paid AR\$ 7,301 and AR\$ 7,992, respectively, for security related to certain buildings lease agreements. These funds have been included in these condensed interim financial statements under "Other Receivables".

Restriction on the Distribution of Dividends

The Company's Ordinary and Extraordinary Shareholders' Meeting held on March 16, 2006 resolved to define the following policy for the distribution of dividends: i) to keep under Retained Earnings those retained earnings corresponding to years prior to 2005 and, therefore, not to distribute them as dividends, and ii) to set as maximum limit for the distribution of dividends 25% of the liquid and realized income for each year as from 2005. These restrictions shall remain in full force as long as the Company's equity remains below AR\$ 300,000. Thus, the policy for the distribution of dividends approved by the Company's Board of Directors at its meeting held on January 4, 2006 has been ratified.

Furthermore, in the Price Supplement of Class XXXVII Notes, the Company agreed not to distribute dividends: i) in excess of 50% of the Company's net profit accrued since January 1, 2017 until the most recent previous quarter plus 50% of the net profit accrued during the year ended December 31, 2016, net of restricted payments made in 2016, and ii) when (a) the Total Liabilities (Liabilities minus Cash and Cash Equivalents) to Equity Ratio does not exceed 7 to 1, and (b) the Indebtedness (Borrowings minus Cash and Cash Equivalents) to Equity Ratio does not exceed 4 to 1.

NOTE 47 – ECONOMIC ENVIRONMENT

The Company operates amidst a challenging economic environment whose main variables have experienced strong volatility, both locally and internationally.

Global economic activity has been showing signs of recovery for several months now, as the onset of the pandemic and the adoption of the first couple of restrictions on circulation are being left behind. However, the arrival of winter and the new waves of infections in the Northern Hemisphere hindered the economic rebound in the countries of that region. This situation could be replicated in the Southern Hemisphere, where infections levels are on the rise. At a global level, the pace of economic recovery is uneven, since countries which have made further progress in their vaccination campaigns seem to have gained more momentum than those with still low vaccination levels.

Locally, the Argentine economy was already recessionary when the pandemic broke out. The coronavirus worsened the prevailing scenario, with GDP declining by 9.9% in 2020. Additionally, pre-pandemic activity levels have not still been attained in the first months of 2021, despite the sustained economic recovery displayed since May 2020. By the end of the first two months of 2021, economic activity had declined by 2.4% in year-on-year terms.

The fiscal accounts closed the first quarter of the year with a primary deficit of 0.2%—a better result compared to the 0.6% deficit recorded in the first quarter of 2020. Revenues have been increasing in recent months, hand in hand with the economic rebound, while the growth pace of primary expenditures has slowed down. Despite the lower deficit and the regained access to the local debt market, the Treasury had to resort to the Central Bank for assistance. In March, the monetary authority transferred AR\$ 135,000 million as Temporary Advances—a financing mechanism that had not been used for half a year until then. In 2020, the Central Bank transferred a total of AR\$ 2,014,702 million (as much as 7.5% of GDP) to the Treasury to cover the fiscal deficit, AR\$ 407,720 million of which in the form of Temporary Advances and AR\$ 1,606,982 million as profits for fiscal year 2019.

The inflationary effect of the monetary issuance in 2020 started to be noticed in the last few months of the year, despite the freeze on utility rates, the regulated prices for some services, and certain price control programs such as “Precios Máximos” and “Precios Cuidados.” During the first months of 2021, inflation continued following the same trend as in previous months, with prices rising, on average, 4.1% in January-March. During the first quarter of 2021, the Consumer Price Index reflected a 13% variation, with average year-on-year inflation standing at 40.6%.

On the exchange front, the official exchange rate established by the Central Bank on a daily basis through Communiqué “A” 3500 depreciated 8.5%, from AR\$/US\$ 84.15 on the last business day of 2020 to AR\$/US\$ 91.99 on the last business day of March 2021. In order to contain inflation, the monetary authority adopted measures to curb the exchange rate increase. This resulted in the appreciation of the real exchange rate, which fell 5.4% from December 31, 2020 to March 31, 2021.

Despite the loss of competitiveness of the local currency, the Central Bank managed to build up international reserves during the first quarter of the year. As of March 31, 2021, reserves amounted to US\$ 39,593 million, up from the US\$ 39,387 million recorded at the end of 2020. The growth in reserves was primarily due to the Central Bank’s purchases of U.S. dollars from the private sector (for an aggregate amount of US\$ 2,266 million from January through March) and the increase in banks’ reserve requirements (US\$ 303 million), together with the recovery of foreign currency deposits. The above-described volatile and uncertain scenario still remains as of the date of these condensed interim financial statements.

The Company's Board of Directors monitors the changes in the variables affecting its business on an ongoing basis to define the course of action to be followed, and identify potential impacts on its financial position. Consequently, these condensed interim financial statements should be read in the light of these circumstances.

NOTE 48 – COVID-19

During the year, the Company has been operating under the challenging circumstances resulting from the outbreak of the Covid-19 pandemic, declared as such by the World Health Organization in March 2020.

The pandemic is still affecting businesses and economic activities at a global and local level.

In Argentina, the National Government adopted several measures to contain the virus proliferation, including, without limitation, border closures and mandatory social distancing measures, combined with the interruption of non-essential business activities for a long time, with certain differences depending on the region and the activity. As of the date of these condensed interim financial statements, Decree No. 287/2021 is currently in force whereby certain restrictions were imposed on circulation and development of commercial activities until May 21, 2021.

The final extent of the Coronavirus outbreak and its impact on the global and local economy are still unknown, and governments may take more stringent measures, which are unpredictable at this time.

However, against this backdrop, during the year the Central Bank adopted certain measures, including (i) the need for a previous appointment for onsite customer service, (ii) the extension of credit card payment due dates; (iii) the financing of unpaid credit card balances at maximum rate, (iv) the easing of bank debtors' classification criteria, and (v) foreign exchange controls.

As part of the plan to cope with the current situation, effective since April 13, 2020, the Company's branches have started to operate on special business hours with previous appointment being required, and certain transactions shifted from face-to-face to digital channels, which resulted in an increase in electronic payments. In addition, the Company has devised special financing plans to afford customers debt payment facilities, and launched special promotions for on-line purchases at Tienda Naranja's site, as well as for purchases at supermarkets and drug stores. These actions are meant to mitigate the impact of increasing arrears and lower spending levels.

In view of the foregoing, the Company cannot reasonably quantify the extent to which the COVID-19 pandemic will affect its business and the results of its operations in the future, if the current situation persists over time.

The Company's Board of Directors is monitoring the situation and taking all possible actions to preserve human life and its operations.

NOTE 49 – SUBSEQUENT EVENTS

On April 6, 2021, the Company issued Class XLVII Notes (“*Obligaciones Negociables*”) for an aggregate principal amount of US\$ 8,500 due on April 28, 2023. Interest will be payable quarterly at a fixed rate of 7.0%. The proceeds from the above-mentioned issuance were used to settle 60% of the outstanding principal payment due in respect of Class XXXVII Notes (“*Obligaciones Negociables*”), thus fulfilling the requirements of Communiqué 7230 issued by the Central Bank.

In order to reduce the exposure to changes in the exchange rate associated with its indebtedness, on April 6, 2021 the Company entered into forward contracts to hedge principal and interest amounts in respect of Class XLVII Notes (“*Obligaciones Negociables*”).

The Ordinary and Extraordinary Shareholders’ Meeting of Tarjeta Naranja S.A. was held on April 19, 2021, at which time the shareholders approved Tarjeta Naranja S.A.’s Inventory, Balance Sheet, Statement of Profit or Loss, Statement of Other Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows, their accompanying Schedules, Exhibits and supplementary Notes and further documents set out in Section 234, paragraph 1 of the Argentine General Companies Law, Annual Report, Summary of Activity, and Supervisory Committee’s Report for the year ended December 31, 2020. At said Shareholders’ Meeting, the shareholders further resolved:

- To distribute dividends in the amount of AR\$ 2,484,964 (AR\$ 2,200,000 in constant Argentine Pesos at December 31, 2020) to its shareholders for the year ended December 31, 2020; and
- to increase the balance of the Discretionary Reserve for “Distribution of Future Dividends and/or to Generate New Businesses and Undertakings, as required by the Company’s Financial Needs” by AR\$ 1,260,534 (AR\$ 1,115,982 in constant Argentine Pesos at December 31, 2020).

On the other hand, in order to maintain and enhance the value proposition to its customers, on April 26, 2021, the Company issued its Class XLVIII Notes (“*Obligaciones Negociables*”) for an aggregate principal amount of AR\$ 5,001,000, due within 12 months from the date of issuance. The Notes will accrue interest at Badlar plus a 5.0% margin, payable on a quarterly basis.

On April 27, 2021, Tarjetas Regionales S.A. and Tarjeta Naranja S.A., as shareholders of Cobranzas Regionales S.A., made irrevocable contributions to offset losses on a proportional basis to their equity interests, in the amount of AR\$ 200,000 and AR\$ 10,526, respectively. The contribution was accepted by the Board of Directors of Cobranzas Regionales S.A., as per Minutes No. 214.

Increase in Loans and Limits

In view of the prevailing scenario and given the increased chances for origination, Naranja raised the maximum loan amount during the first quarter of 2021. Therefore, the maximum amount customers can now borrow, always considering their credit balance, is AR\$ 120,000, payable in up to 24 installments.

Arrears Ratios

Amidst the challenges posed by the constraints inherent to the lockdown, Naranja achieved better-than-expected results. During the reporting period, our 30 days' arrears ratios reached an average of 6.01%—the Company's lowest mark ever. During the same period, the Company achieved average recovery rates of 77% and 56% in the 61-90 days' and in the 91-120 days' arrears tranches, respectively.

From Branches to Centers of Experiences

Naranja started to deploy a structure design that will support the change of mindset in people and the business, leveraging its competitive advantage with a renewed purpose, as a center of experiences, advice and sales. During the reporting period, the Company began the deployment in the Northeast region, followed by the Patagonia region of Argentina.

Promotions and Benefits

During the reporting period, Naranja announced, on average, over 90 monthly promotions through 360° communication strategies, covering all media, particularly, on-line. As a result of the scenario associated with the COVID-19 pandemic, Naranja kicked off special actions and promotions during the summer. DOCUMENTS EXAMINED

1. As members of Tarjeta Naranja S.A. and in accordance to the provisions of Section 294, subsection 5 of the Argentine General Companies Law, we have reviewed the accompanying financial statements of Tarjeta Naranja S.A. (hereinafter, the "Entity"), which include:

- the Condensed Interim Balance Sheet as of March 31, 2021;
- the Condensed Interim Statements of Profit or Loss and Other Comprehensive Income for the three-month period ended March 31, 2021;
- the Condensed Interim Statements of Changes in Equity and Cash Flows for the three-month period ended March 31, 2021;
- the summary of critical accounting policies and other explanatory information included in supplementary notes and exhibits.
- Summary of Activity

The figures and other information for fiscal year 2020 and its interim periods are an integral part of the aforementioned condensed interim financial statements, and are exclusively disclosed for comparative purposes to the figures and information for the current interim period.

BOARD OF DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

2. The Entity's Board of Directors is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting guidance set forth by the Argentine National Security Commission (C.N.V.) and such internal controls as it might be deemed required to ensure that the financial statements are free from material misstatements. As mentioned in Note 2 to the accompanying condensed interim financial statements, such accounting guidance is based on the application of the International Financial Reporting Standards (IFRS) and, in particular, for interim financial statements, on International Accounting Standard (IAS) 34 "Interim Financial Reporting," as approved by the International Accounting Standards Board (IASB). Such standards were adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) and by the C.N.V., and were used in preparing the financial statements.

RESPONSIBILITY OF THE SUPERVISORY COMMITTEE'S MEMBER

3. Our responsibility is to express a conclusion on the documents examined in paragraph 1., on the basis of our reviews performed within the scope detailed in paragraph 4.

4. Our examination was carried out in accordance with standards applicable in Argentina to members of the Supervisory Committee for the review of condensed interim financial statements, which include verifying the consistency of the documents reviewed with the information concerning corporate decisions, as disclosed in minutes, and the conformity of those decisions with the law and the bylaws insofar as concerns formal and documental aspects.

For purposes of our professional work on the above-described documents, we have relied on the work performed by the external auditors, Price Waterhouse & Co. S.R.L., who issued an unqualified limited review report on May 11, 2021, in accordance with the International Standard on Review Engagements 2410 ("ISRE 2410"), "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", which was adopted as review standard in Argentina by Technical Pronouncement No. 33 of FACPCE, as approved by the International Auditing and Assurance Standards Board (IAASB).

Said review included verifying the work plans and the nature, scope and timing of the procedures applied, and the results of the review performed by the above-referred professionals. A review of interim financial statements consists of making inquiries to the Entity's staff primarily responsible for the Entity's financial and accounting issues, and applying analytical and other review procedures. Such a review is substantially less in scope than an audit and, consequently, does not enable us to

obtain assurance that we would become aware of all the significant matters that might be identified in an audit. Accordingly, such review does not express an audit opinion.

Since it is not our responsibility to perform any management control, our examination did not extend to the judgments and business decisions regarding the different areas of the Entity, which are the exclusive responsibility of the Board of Directors.

We also report that, in compliance with the legality control that is part of our field of competence, during this period we have applied the other procedures described in Section 294 of Law No. 19550, which we deemed necessary according to the circumstances, including —among others— controlling the constitution and survival of the directors' bond.

CONCLUSION

- Based on our reviews, within the scope described in paragraph 4. above, and taking into consideration the External Auditor's limited review report, in our opinion, the condensed interim financial statements mentioned in paragraph 1. are fairly presented, in all material aspects, in accordance with the accounting guidance set out by the Argentine National Securities Commission (C.N.V.).
- In compliance with the legality control that is part of our field of competence, we have no observations to make.
