GENERAL INSTRUCTIONS

CLiK Extra Spray-On provides season long protection to sheep against body, breech and poll strike for up to 29 weeks and may be used on sheep with any length wool from 4 weeks after shearing. CLiK Extra Spray-On also protects mulesing and marking wounds on lambs against fly strike during the wound healing process. The dose volume is determined by the weight of sheep being treated. Apply CLiK Extra Spray-On according to the diagrams and tables in the Directions for Use.

Apply directly from the container or an appropriate backpack using a spray-on applicator gun recommended by Elanco Animal Health.

CLiK Extra Spray-On may be applied to all breeds of sheep to obtain protection against fly strike. CLiK Extra Spray-On is applied as a low-volume treatment to areas where protection is required. When applying CLiK Extra Spray-On, the nozzle of the applicator gun should be high enough above the fleece (approximately 15-25 cm), to achieve a 15 cm wide band at each pass for protection from body strike. For treatment of mulesing wounds, the bands must be wide enough to cover the wound and 25 mm onto the surrounding wool.

The product should not be applied during gusty or windy weather as spray drift may reduce the period of protection. It is a good agricultural practice for mulesing/marking to be carried out at times of minimal fly activity. Reduced efficacy may occur in sheep affected with dermatophilosis.

SAFE HANDLING INSTRUCTIONS

May irritate the eyes and skin. Avoid contact with eyes and skin. When opening the container and using the product, wear long length rubber gloves. Wash hands after use.

CRITICAL COMMENTS

1. Use only a spray-on applicator gun recommended by Elanco Animal Health.
2. Ensure the applicator gun is clean.
3. Calibrate applicator gun using an accurate volume measure.
4. Ensure all areas to be protected are treated.
5. When preventing body strike ensure bands overlap along the midline (Diagram 1).
6. When protecting mulesing wounds from fly strike, take special care to treat the wound and the surrounding 25 mm of wool (Diagram 2).
7. When protecting marking wounds from fly strike, take special care to treat the wound and surrounding wool (Diagram 3).
8. This product is not recommended for treating existing strikes. Use a product registered as a dressing for existing strikes.
9. Heavy rain following the application of this product could diminish the period of protection.

Environmental Protection

1. DO NOT use on ewes which are producing or may in the future produce milk that may be used or processed for human consumption.
2. DO NOT use on sheep less than 4 weeks after shearing.

Dosage and Administration

SAFE HANDLING INSTRUCTIONS

May irritate the eyes and skin. Avoid contact with eyes and skin. When opening the container and using the product, wear long length rubber gloves. Wash hands after use.

1. FIRST AID

If poisoning occurs, consult a doctor or Poisons Information Centre. Phone Australia 131126.

2. ADDITIONAL USER SAFETY INFORMATION

Sheep Re-housing Interval. After treatment wait until sheep are dry before re-housing. If additional hazard information is required, refer to the Safety Data Sheet.

3. ENVIRONMENTAL PROTECTION

Do NOT contaminate streams, rivers or watercourses with the chemical or used containers.

4. DISPOSAL

This container can be recycled if it is clean, dry, free of visible residues and has the drumMUSTER logo visible. Triple-rinse container for disposal. Dispose of rinsate or any undiluted chemical according to State legislative requirements. Wash outside of the drumMUSTER logo visible. Triple-rinse container for disposal. Dispose of rinsate or any undiluted chemical according to State legislative requirements.

5. STORAGE

Store below 30°C (Room Temperature). Do Not Freeze, Protect from Light. Store in original container tightly closed in a dry, cool place.

6. EXCLUSION OF LIABILITY

To the extent permitted by legislation, Elanco Australasia Pty Ltd will not be liable or responsible for any loss, damage or expense where the product is not used as directed.

APVMA Approval No: 81863/104200

Elanco Australasia Pty Ltd on 1800 226 324 or the APVMA website (www.apvma.gov.au/residues)

Use of this product may result in wool residues that may not comply with European Union environmental quality standards.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

WITHHOLDING PERIODS

MEAT: DO NOT USE less than 14 days before slaughter for human consumption.
MILK: DO NOT USE on ewes which are producing or may in the future produce milk that may be used or processed for human consumption.

WOOL HARVESTING INTERVAL: DO NOT USE less than 3 months before shearing or fibre collection.

TRADE ADVICE

EXPORT SLAUGHTER INTERVAL (ESI): DO NOT USE less than 9 weeks before slaughter for export. The ESI on this label was correct at the time of label approval. Before using this product, confirm the current ESI from Elanco Australasia Pty Ltd on 1800 226 324 or the APVMA website (www.apvma.gov.au/residues)

U.S. FEDERAL LAW PROHIBITS REMOVAL FROM PACKAGE OR USE IN VIOLATION OF LABEL INSTRUCTIONS.
