PRODUCT DESCRIPTION
ZOLVIX contains MONEPANTEL, a member of the new and unique class of anthelmintics, the Amino-Acetonitrile Derivatives (AADs). When used at the recommended dose rate (2.5 mg/kg), it is effective against AAD-sensitive strains of the following gastro-intestinal roundworms (nematodes) including those resistant to macrocyclic lactones, benzimidazoles (white drenches), levamisole and morantel (clear drenches) in sheep.

Efficacy spectrum (adult and/or immature L4 stage)
Barber’s pole worm Haemonchus contortus*
Small brown stomach worm Ostertagia (Teladorsagia) circumcincta*, Ostertagia (Teladorsagia) trifurcata*, Ostertagia (Teladorsagia) daviani*, Black scour worm Trichostrongylus colubriformis*, Trichostrongylus vitrinus*, Trichostrongylus raptatus*; Stomach hair worm Nematodirus filicollis*, Nematodirus spathiger (adult only), Small intestinal worm Cooperia curvice*; Cooperia oncophora*, Large mouthed bowel worm Chabertia ovina*, Large bowel worm Oesophagostomum venulosum (immature L4 only).

* Includes adult and immature L4 stage

DIRECTIONS FOR USE
Restraints:
DO NOT USE in sheep less than 10 kg body weight.
DO NOT USE in female sheep which are producing or may in the future produce milk or milk products for human consumption.

Dosage and Administration
Use remaining product within 12 months of opening the container. ZOLVIX is a ready-to-use solution. Check dose rates and drench gun before treatment commences. The dose rate is 0.5 mL ZOLVIX/5 kg liveweight (1 mL/10 kg), equivalent to 2.5 mg MONEPANTEL/kg liveweight. Drench sheep orally, using an Elanco recommended drench gun. Maintain applicator gun carefully to ensure accurate dosage. After use, clean gun by flushing with warm, soapy water. Rinse with cold water.

Re-treatment Interval:
DO NOT re-treat less than 21 days after the last treatment. After three consecutive treatments, 115 days must elapse before treating again with ZOLVIX.

WITHHOLDING PERIODS
MEAT: DO NOT USE less than 14 days before slaughter for human consumption.
MILK: DO NOT USE in female sheep which are producing or may in the future produce milk or milk products for human consumption. EXPORT SLAUGHTER INTERVAL (ESI): DO NOT USE less than 115 days before slaughter for export. The ESI on this label was correct at the time of label approval.

Before using this product, confirm the current ESI from the Elanco Animal Health on 1800 226 324 toll free or the APVMA website (www.apvma.gov.au/residues).
