## Scope for certificate 2022-003

The scope of this ISO/IEC 27001:2013 certification is as follows:

The scope of the ISO/IEC 27001:2013 certification covers Mailchimp's Information Security

CERTIFY

Management System (ISMS) established over Mailchimp's Automated Marketing & Commerce Platform, as well as the security of member and contact data within the platform, stored and processed in accordance with its Terms of Service. The Mailchimp platform, and its available features, are deployed across Mailchimp's Colocation Infrastructure and third party cloud service providers.

The certified ISMS scope includes the following supporting resources:

- The Mailchimp Application which includes the software, hardware, and SaaS services utilized by Mailchimp's customers to create, send, publish content and manage their audiences, and the ability to service customer accounts.
- The Data Warehouse which supports information processing, analytics, machine learning, and data science. It supports the customer's ability to utilize advanced analytics features and Mailchimp's internal business analytics.
- The Mailchimp Transactional Application which includes all software and SaaS services utilized by Mailchimp customers to create and send their transactional email, and the ability to service customer accounts.
- The Mail Transfer Agent which includes the hardware and software utilized by the Mailchimp App and Transactional to send email.

The certified ISMS scope includes the following information:

- Data about Mailchimp's users ("Members")
- Data about Mailchimp's audience ("Subscribers")

The certified ISMS scope includes the following organizational units and departments:

- Technology
- Engineering
- Operations
- APT
- Delivery
- Security
- IT
- Development
- Mobile
- SRE
- QA
- Product
