

It's not your typical replacer. It's optimized dairy.

Premium flavor with added functionality

With a great taste and the natural goodness of milk, **ofi's** instant filled milk powder, **Lactorich Vers** is designed to create better drinking milk and beverages. This milk powder provides a rich, creamy mouthfeel with a clean profile and no added flavors – offering optimal value.

In hot beverages like tea and coffee, Lactorich Vers remains stable and provides a superior whitening effect, with no floating particles – a key consumer purchasing driver. It also reduces astringent notes in tea, and instead offers a rich tea-flavor release.

Whitening effect comparison - tea

Stability test - coffee

A versatile product, Lactorich Vers can be used in other applications:

Drinking milk

Beverages

Ice cream

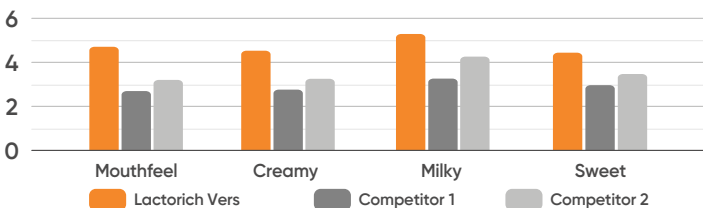

Cream filling

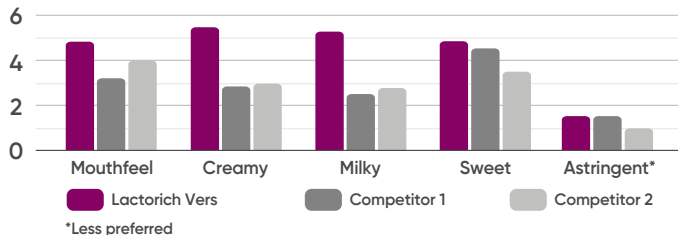

Savory
(soup, sauce, seasoning)

Give your consumers a great taste, premium mouthfeel, and the nutritional benefits of dairy in their favorite products today.

Sensory evaluation - drinking milk

Sensory evaluation - tea

In both drinking milk and tea, Lactorich Vers performs particularly better in terms of milkiness, creaminess and mouthfeel.
