D2	5	First Resources	PT Ketapang Agro Lestari	PT Ketapang Agro Lestari	Indirect via third party	Sime Darby	Dec-19	Mighty Earth Rapid-Response Report 21	Deforestation - 8ha	Dec-21	PT Ketapang Hijau Lestari - High Carbon Stock assessment at PT Ketapang Hijau Lestari was completed in 2017 by a registered organization with HCSA. Based on third-party trader's monitoring, there was no land clearing at HCS area identified. FAP Agri has also published their NDPE policy in October 2019. No longer in Sime Darby's Supply Chain.	CLOSED CASE
D4	1	Wilmar International Limited	-	-	Indirect via third party	Wilmar	Oct-18	Sept 2018 - Greenpeace The Final Countdown	Alleged buying from groups that are deforesting (Tesso Nilo National Park) and land grabbing	Nov-18	Wilmar published its two-year progress report covering: Olam has engaged with Wilmar and part of that engagement includes meeting with Wilmar on 11th Oct 2018 Key updates are: Oct 2018 1. Wilmar will develop a system that will accurately monitor land use change across countries we source palm oil from. The system will use near real-time satellite monitoring that will provide independent verification of compliance with their NDPE policy. 2. The output of the monitoring will be shared independently 3. Monitoring will cover both areas that supply to Wilmar and areas linked to its suppliers. 4. Timeline of action is available here 1. Wilmar will develop a system that will accurately monitor land use change across countries we source palm oil from. The system will use near real-time satellite monitoring that will provide independent verification of compliance with their NDPE policy. 2. The output of the monitoring will be shared independently 3. Monitoring will cover both areas that supply to Wilmar and areas linked to its suppliers.	Ongoing Monitoring
D4	2	Wilmar International Limited	-	-	Indirect via third party	Wilmar	Oct-18	Sept 2018 - Greenpeace The Final Countdown	Alleged buying from groups that are deforesting (Tesso Nilo National Park) and land grabbing	Nov-18	Wilmar has issued a joint statement with Aid Environment as well as supported by Unilever and Mondelez on the following: • Starting Jan 2019, Wilmar will implement a "suspend then engage" procedure on the basis of verified proof. • Since May 2018, group level maps has been a condition for trade for all new suppliers. These maps will be uploaded to Aidenvironment supplier group mapping platform • A "Reengagement Protocol" will be published specifying the time-bound process to engage suppliers that have been suspended, including the terms and conditions to resume sourcing. Full details on the action plan is available - here	Ongoing Monitoring
D4	3	Wilmar International Limited	-	-	Indirect via third party	Wilmar	Oct-18	Sept 2018 - Greenpeace The Final Countdown	Alleged buying from groups that are deforesting (Tesso Nilo National Park) and land grabbing	Dec-18	Wilmar continues to implement its action plan as well as monitoring.	Ongoing Monitoring
D4	4	Wilmar International Limited	-	-	Indirect via third party	Wilmar	Oct-18	Sept 2018 - Greenpeace The Final Countdown	Alleged buying from groups that are deforesting (Tesso Nilo National Park) and land grabbing	Oct-19	Outspan Malaysia continue to monitor the implementation of its action plan. In addition, they have asked Wilmar to apply its NDPE Policy to companies which are possibly clearing for non-palm related as long as the company is a supplier to Wilmar. Direct supplies from Wilmar to Outspan Malaysia are to be monitored.	Ongoing Monitoring
D4	5	Wilmar International Limited	-	-	Indirect via third party	Wilmar/Sime Darby/BLC/Fuji Oil Europe	Oct-18	Sept 2018 - Greenpeace The Final Countdown	Alleged buying from groups that are deforesting (Tesso Nilo National Park) and land grabbing	Jul-22	Sime Darby/BLC/Fuji Oil Europe - have connections within their supply chain. Wilmar Grievance List shows 2 Cases under Greenpeace, The Final Countdown Report. Both cases are in Case Closed Status: Eastern Eden Estate, a subsidiary of Jaya Tiasa re: deforesting allegations - Wilmar started its engagement with Jaya Tiasa on the adoption of NDPE Policy since late 2015. In early 2016, the supplier had publicly committed to adhere to Wilmar's NDPE Policy. When the allegation of non-compliance was brought to their attention, and immediately reached out to Jaya Tiasa for clarification. The supplier clarified that they remain fully committed to the NDPE policy, and there were no new land clearing activities. With reference to the Greenpeace report, the clearance happened outside their concession area. Jaya Tiasa has also shared their group wide concession map with Wilmar for ongoing monitoring. Gifford Ltd - a subsidiary of Rimbunan Hijau (PNG) Group - Wilmar has initiated engagement with Rimbunan Hijau since early September 2018 to seek clarification on allegation of deforestation at their Papua New Guinea site. Wilmar does not source from Gifford Ltd but their parent company Rimbunan Hijau is associated with suppliers in Malaysia. A meeting was held on 7 September 2018 to further discuss the issues. On 20 September 2018, Gifford Ltd has subsequently provided a written commitment in adhering to the NDPE policy and committed to moratorium of land clearing prior to all necessary assessments, including the HCV and HCS assessment. Gifford has also shared their group wide concession maps with Wilmar for ongoing monitoring.	CLOSED CASE
D14	1	Sime Darby	-	-	Direct /Indirect	Sime Darby	Jul-21	Liberty Shared	Liberty Shared ("LS") has filed a petition against SD for allege child labour and forced labour	Jul-20	Sime Darby Plantation Berhad stated their intention to engage with Liberty Shared.	Engagement
D14	2	Sime Darby	-	-	Direct /Indirect	Sime Darby	Jul-21	Liberty Shared	Liberty Shared ("LS") has filed a petition against SD for allege child labour and forced labour	Oct-20	We have engaged with SD on the matter. Overall, attempts have been made by SD to engage with the CBP, they have not had the opportunity to provide an explanation and neither has SDP been provided details of the allegation by LS	Engagement

D15	5	Felda Global Venture (FGV)	Felda Global Venture (FGV)	-	Indirect via third party traders	Bunge	Nov-20	https://apnews.com/article/palm-oil-abuse-investigation-companies-292096f0c429b6efc8e8a6da11c7	AP news alleged rape & abuse/Liberty Shared	Dec-23	Dec-23: Bunge's Grievance List states - FGV has successfully completed the third & final phase of its recruitment fees reimbursement on September 2023. A total of RM 72.2 million has been disbursed to almost 20,000 migrant workers employed by FGV. All 3 phases of reimbursement is currently being verified by ELEVATE as the independent firm appointed by FGV. Additionally, ELEVATE will also verify the implementation of other aspects of FGV's overall commitments to combat and mitigate Forced Labor in its operations, aligned with the ILO's 11 indicators on Forced Labor- this will take place in the first quarter of 2024, following which FGV will make its submission to the USCBP in June 2024. (No further updates as at June 2024).	Ongoing Monitoring
D15	6	Felda Global Venture (FGV)	Felda Global Venture (FGV)	-	Indirect via third party traders	Bunge	Nov-20	https://www.fvcholding.com/press-release/fv-submits-petition-to-us-cbp-to-modify-wro/?page=1	AP news alleged rape & abuse/Liberty Shared	Jul-24	Bunge's Grievance List states that as of July 2024, FGV released a statement informing stakeholders that it has submitted its petition to the United States Customs and Border Protection (USCBP) for the modification of the Withhold Release Order (WRO). (No further updates as at August 2024).	Ongoing Monitoring
D15	7	Felda Global Venture (FGV)	Felda Global Venture (FGV)	-	Indirect via third party traders	Bunge	Nov-20	https://www.fvcholding.com/press-release/fv-submits-petition-to-us-cbp-to-modify-wro/?page=1	AP news alleged rape & abuse/Liberty Shared	Sep-24	Bunge's Grievance List States - Following FGV's announcement in July on the submission of FGV's petition to US CBP to modify the WRO, Bunge commenced direct engagement with FGV to better understand the outcome of the independent verification assessment of LRQA and the various processes it has undergone towards instituting enhancements in eradicating forced labor in its operations, overall improved governance and monitoring of the implementation of LRQA's recommendations aligned with the 11 ILO indicators on Forced Labor. Bunge observed several good practices that FGV has adopted that are aligned with the ILO standards, including the process and methodology towards reimbursement of recruitment fees, examples of how FGV implements the employer pays principle in practice and a high-level overview of the capacity building programmes and safeguards it has deployed at these migration corridors. Bunge will continue to monitor the announcement from US CBP of any changes to the WRO modification against FGV and until such changes, FGV will not enter our flows into North America. We will continue to maintain engagement for progress with FGV on a regular basis. (No further updates as at February 2025).	Ongoing Monitoring
D15	8	Felda Global Venture (FGV)	Felda Global Venture (FGV)	-	Indirect via third party traders	Bunge	Nov-20	https://www.fvcholding.com/press-release/fv-submits-petition-to-us-cbp-to-modify-wro/?page=1	AP news alleged rape & abuse/Liberty Shared	Mar-25	Bunge's Grievance List States - In November 2024, Bunge participated in FGV's general stakeholder engagement session where the below efforts were highlighted and FGV welcomed stakeholders' input. • Total sum of recruitment fees identified for remediation and the progress of the remediation, involving active and former workers. • Positive impacts on recently recruited workers that undergone FGV enhanced ethical and fee free recruitment. • FGV's overall compliance to the ILO indicators on Forced Labor, enhancements and safeguards introduced in child protection initiatives, grievance management and a wide array of amenities upgrades, including their ongoing effort to upgrading worker welfare and accommodation, providing satellite internet connectivity. In February 2025, FGV publicly reported that it is actively engaging US Customs and Border Protection (US CBP), including promptly responding to US CBP's additional request for clarification on Malaysian legislation governing overtime working hours. FGV is reported to have provided the clarifications and resubmitted its petition to the US CBP on February 15th. Separately, Bunge was made aware that FGV has engaged with the human rights activist which alleged several claims regarding the treatment of migrant workers, in particular to work permit renewals and inability to return to their home country: • FGV has provided its clarification and rebuttal, in addition to responding to Business and Human Rights Resource Centre's query, noting that the delays in work permit renewal was regrettable but beyond FGV's control, due to a backlog in the government's Immigration Department's processing of applications and the issuance of check-out memos. • Following this allegation, FGV conducted an internal investigation and subsequently engaged with the Malaysian Immigration Department, requesting urgent and expedited processing of the remaining permit applications. The backlog of processing the permit renewals has since been resolved. • FGV provided Bunge with clarification that its migrant workers retain full possession of their travelling documents, including the provision of secure personal lockers that only the workers have access to. FGV asserts that workers are notified of the request for temporary passport collection to facilitate work permit renewal rather than a deliberate act by FGV to curtail worker's freedom of movement. Bunge continues to engage with FGV to ensure continued compliance to Bunge's Human Rights Policy.	Ongoing Monitoring
D15	9	Felda Global Venture (FGV)	Felda Global Venture (FGV)	-	Indirect via third party traders	Bunge	Nov-20	https://www.fvcholding.com/press-release/fv-submits-petition-to-us-cbp-to-modify-wro/?page=1	AP news alleged rape & abuse/Liberty Shared	Apr-25	Bunge's Grievance List states: Bunge has completed its review of FGV's ongoing efforts and progress towards eliminating and combating forced labor through the various enhancements made in ethical and fee free recruitment, remediation of recruitment fees and strengthened governance of its overall human rights and decent work agenda enshrined in its Group Sustainability Policy. Whilst FGV is currently prohibited to enter Bunge's North American supply chain in light of the Withhold Release Order, exposure to FGV may be present in other supply chains that does not correlate with North America. Bunge will continue to monitor FGV's actions and petition progress with the US CBP and hold FGV accountable for any actions that goes contrary to Bunge's Human Rights commitments.	Not within oil supply chain
D16	1	Wilmar International Limited	Benso Oil Palm Plantation Limited	Benso Oil Palm Plantation Oil Mill	Direct supplier	Wilmar	Jan-21	BSPO Complaint Ref. The other affected farmer has initiated legal proceedings and the hearing has been adjourned until 25.08.2021.	Engagement
D17	2	IOI Corporation	-	Mekassar Estate	Indirect via third party traders	Sime Darby/ISF/Bunge/Fuji Oil Europe	Jun-21	https://www.iogroup.com/Content/5/pdf/Outsourcing%20and%20Recruitment%20Practices%20and%20Equalization.pdf	Alleged breach of migrant worker's rights specifically to IOI's Mekassar estate, as reported by Finnwatch.	Jul-21	Sime Darby's Grievance Register states as at 22 November 2021 - IOI updated us that the planned independent assessment was completed in October 2021. All forced labour indicators, including allegations raised by Finnwatch have been assessed. A draft interim report has also been shared with IOI. Additionally, in consultation with their Sustainability Advisory Panel (SAP), IOI is currently finalising an action plan based on key outcomes from the Sustainability Consultation Forum (SCF). On 13 January 2022, IOI published a further update on outcomes and action plans arising from the Sustainability Consultation Forum, which includes active engagement with relevant stakeholders to develop solutions for responsible recruitment practices. IOI is also participating in the National Action Plan on Forced Labour (NAPFL) 2021-2025 and setting up a working group to find the best approach to legalise undocumented workers in Sabah. (No further updates as at end of April 2024). Not within the off supply chain since June 2024.	Ongoing Monitoring

D17	3	IOI Corporation	-	Mekassar Estate	Indirect via third party traders	Sime Darby/ISF/Bunge/Fuji Oil Europe	Jun-21	https://www.iogroup.com/Content/MEDIA/NewsroomDetails7nrlNewsID=1044	Finnwatch - Migrant Workers' Rights in Oil Palm Estates in Malaysia CASE: IOI Group, Mekassar	Jun-21	Bunge's Grievance log: states on July-2021, that on June 30, 2021, Finnwatch published a report on IOI highlighting a grievance related to migrant worker's rights in oil palm estates in Malaysia, making allegations specific to IOI's Mekassar estate. See full report here . The same allegations specific to Mekassar had been the subject of a previous complaint by a grievance raiser to RSPO; an RSPO decision on this complaint is still pending. Additionally, in June 2021, IOI became aware of a petition to U.S. Customs and Border Protection (CBP) filed by a migrant worker rights activist, IOI disclosed publicly that a petition had been filed and their intent to cooperate fully with CBP.	Not within off supply chain
D17	5	IOI Corporation	-	Mekassar Estate	Indirect via third party traders	Sime Darby/ISF/Bunge/Fuji Oil Europe	Jun-21	https://www.iogroup.com/Content/5/pdf/Recruitment%20and%20Equalization.pdf	Alleged breach of migrant worker's rights specifically to IOI's Mekassar estate, as reported by Finnwatch.	Jul-22	There have been no further update from Bunge's Grievance Register, since July 2021 (as at May 2023).	Ongoing Monitoring
D17	6	IOI Corporation	-	Mekassar Estate	Indirect via third party traders	Sime Darby/ISF/Bunge/Fuji Oil Europe	Jun-21	Migrant workers' rights in oil palm estates in Malaysia CASE: (finnwatch.org)	Finnwatch - Migrant Workers' Rights in Oil Palm Estates in Malaysia CASE: IOI Group, Mekassar	Jun-21	Fuji Oil Group Grievance List states - Following the allegations made by Finnwatch, IOI has reached out to the respective parties and conducted a formal investigation to the matter. Some of these actions include: 1. Investigation into the mistreatment of the labour workers - of which IOI has taken disciplinary action against the supervisor and a formal apology is issued to the workers. 2. Investigation into lack of issuance of PPE - of which IOI has found to be well documented and issued regularly in accordance with IOI's operating procedure. 3. Investigation into the illegal fees collected by a named person - to which IOI has suspended the recruitment agency and had reported the findings to the authority and the Indian Embassy for further formal investigation. 4. Investigation into the living situation of the labour workers - of which IOI has action plans to conduct renovation, new guidelines for providing basic amenities to workers at all estates and formed guidelines on "worker's work verification" to enable to verify their working hours.	Ongoing Monitoring
D17	7	IOI Corporation	-	Mekassar Estate	Indirect via third party traders	Sime Darby/ISF/Bunge/Fuji Oil Europe	Jun-21	https://www.iogroup.com/Content/5/PDF/Recruitment%20and%20Follow-up%20and%20Actions.pdf	Finnwatch - Migrant Workers' Rights in Oil Palm Estates in Malaysia CASE: IOI Group, Mekassar	Jan-23	Fuji Oil Group Grievance List further states - other than investigations conducted by IOI, as of July 2021, IOI has implemented several action plans and improvement programmes to tackle labour violations. This can be seen in the response letter by IOI on Finnwatch report. Some of these action plans include : 1. additional training on understanding human rights and human rights education 2. increase the regular monitoring by sustainability and human resource personnel from IOI HQ to bring out awareness. 3. IOI also states that they will conduct a direct video interview between IOI personnel with potential workers if needed to avoid any form of exploitation or forced labour etc. (No further updates as at December 2023).	Ongoing Monitoring
D17	8	IOI Corporation	-	Mekassar Estate	Indirect via third party traders	Sime Darby/ISF/Bunge/Fuji Oil Europe	Jun-21	https://www.iogroup.com/Content/5/PDF/Recruitment%20and%20Follow-up%20and%20Actions.pdf	Alleged breach of migrant worker's rights specifically to IOI's Mekassar estate, as reported by Finnwatch.	Jun-23	Jun-23 Bunge's Grievance List update states that based on the findings of a "Special Audit" by the Certification Body to verify the allegations of the grievance and the complainant's lack of interest and unresponsiveness despite the RSPO Secretariat's multiple attempts to engage on the complaints, the RSPO Complaints Panel dismisses the complaints against IOI Mekassar. See CP Decision Letter on IOI Mekassar Estate here . (No further updates as at April 2025). Not within the off supply chain since June 2024.	Not within off supply chain
D17	9	IOI Corporation	-	Mekassar Estate	Indirect via third party traders	Sime Darby/ISF/Bunge/Fuji Oil Europe	Jun-21	https://www.iogroup.com/Content/5/PDF/Recruitment%20and%20Follow-up%20and%20Actions.pdf	Finnwatch - Migrant Workers' Rights in Oil Palm Estates in Malaysia CASE: IOI Group, Mekassar	Jan-24	Fuji Oil Group has removed this grievance from their current Grievance List - as the case in now closed.	CLOSED CASE
D17	1	IOI Corporation	-	Mekassar Estate	Indirect via third party traders	ISF	Jun-21	https://www.iogroup.com/Content/5/PDF/Recommendation%20and%20Response.pdf	Alleged breach of migrant worker's rights specifically to IOI's Mekassar estate, as reported by Finnwatch.	Jul-21	ISF stated in Jul 21, following the report from Finnwatch dated 30 June 2021, IOI has further reviewed the report to ascertain if further action plans were required on the issues highlighted. As it should be, most of the actions mentioned in the report had already been initiated during the course of their engagement with Finnwatch and incorporated into IOI's systems and processes. See detailed "Report on Response and Follow-up Actions" . They have also looked at the recommendations by Finnwatch. See "Report on Recommendations and Response by IOI". Additionally, they have further contacted the Indian Embassy to obtain feedback on the investigation of illegal monies collected from the Indian workers, allegedly by the person(s) connected to the Recruitment Agency in India that IOI had suspended. There has been no response as yet.	Ongoing Monitoring

No land clearing in the same period from PT Uniseraya	Mar-23	Mar-23 Bunge updated its Grievance Register, and states: Asian Agri (a subsidiary of RGE) communicated through their webpage that was contacted by Eyes on the Forest on 21 May 2018 to seek clarification of its finding. In response to the letter, Asian Agri had sent a letter to EoF on 25 May 2018 to provide clarification and evidence to the finding of EoF that PT Inti Indosawit Subur (Uku1 1) received 1.5 ton of FFB from TNHP on 17 June 2017. Asian Agri had immediately conducted a site visit on 23 May 2018 and traced the reported supply chain to gather insights as well as reviewed the 17 June 2017 supply report to confirm the data. Asian Agri have taken measures since then by suspending the Delivery Order (DO) holder of the reported truck on 24 May 2018. On Asian Agri's Grievance List, this case has been listed as closed. Bunge's Grievance Register further states 'Asian Agri is committed to producing sustainable and responsible palm oil. The company have a system in place to ensure that procurement processes and parties involved in their supply chain adhere to their sustainability policy and traceability commitments. They have a Traceability MasterDatabase of their entire third party supply chain which enables them to monitor the source of incoming supply. The farmers sign a statement with them that bind FFB suppliers to source only from legal areas and to prevent the inclusion of illegal FFBs in their supply to their mills. Asian Agri achieved 100% FFB traceability to plantation since 2017'.	CLOSED CASE
ID12	1	Woodman Sdn Bhd	Woodman Kuala Baram Estates Sdn Bhd	Baram Estate, part of LPF/0004 (nearest Woodman group mill listed on WRI UML is Adong Palm Oil Mill)	Indirect via third party traders	Wilmar, Bunge & Sime Darby	Sep-19	Mighty Earth Raised, Response Report 18	Jul-20	Supplier updated that the clearing was non palm related. We have asked all our suppliers to investigate all clearing regardless if its palm or non-palm related.	CLOSED CASE
ID12	2	Woodman Sdn Bhd	Woodman Kuala Baram Estates Sdn Bhd	Baram Estate, part of LPF/0004 (nearest Woodman group mill listed on WRI UML is Adong Palm Oil Mill)	Indirect via third party traders	Wilmar, Bunge & Sime Darby	Sep-19	Mighty Earth Raised, Response Report 18	Dec-21	Supplies from Woodman Group came into Sime Darby supply chain via third party traders who have NDPE policies and commitments. Engagements with Woodman Group clarified that the clearing detected in the Baram, Adong and Liku concessions are not related to oil palm development. We shared with Sime Darby our Responsible Palm Oil Policy and Living Landscapes Policy. They acknowledged the NDPE commitments to all commodities and shared that their own NDPE commitments are not restricted to just palm but cover all agricultural commodities sourced by them. Therefore commodities not sourced by Sime Darby would fall beyond the scope of these commitments. Woodman Group do not appear within our latest traceability listing.	CLOSED CASE
ID12	3	Woodman Sdn Bhd	Woodman Kuala Baram Estates Sdn Bhd	Baram Estate, part of LPF/0004 (nearest Woodman group mill listed on WRI UML is Adong Palm Oil Mill)	Indirect via third party traders	Wilmar, Bunge & Sime Darby	Sep-19	Mighty Earth Raised, Response Report 18	Jan-22	Aug -19 ME reports about peat development of 168ha and deforestation of 1 ha. Bunge reached out again to its trade partners for further updates on the allegations in the report. Woodman Group do not appear within our latest traceability listing.	CLOSED CASE

ID28	1	Bumitama Group	PT Andalan Suktes Makmur	PT Andalan Suktes Makmur	Indirect via third party traders	Wilmar	Jan-20	Mighty Earth Raised, Response Report 23	Mar-20	Wilmar stated that Bumitama conducted ground checking and verified that this is not a result of land clearing but a fire scar from forest fires that occurred in the area in September 2019. These areas are owned by the local community and thus ended from the management of the company are a part of the set aside areas of 2,500 hectares (about 36% of PT ASMR's permit) that were excluded from the company plantation development plans and were set-aside for conservation based on the rapid HCS assessment and peat delineation study conducted in April 2014 (12 September 2014 announcement). The fires were tackled by Bumitama's fire-response personnel. Two teams of 24 men were dispatched to the site. However, the forest terrain, lack of access roads and peat soil made it very difficult to extinguish. Once put out, both incidents were recorded and reported accordingly to relevant local authorities, as well as to the RSPO under the hotspot monitoring scheme. Direct purchasing from Wilmar by Olam Edible Oils and not off Group.	Not within off supply chain
ID56	1	RGE Royal Golden Eagle	Apical - Asian Agri	PT Usaha Sawit Unggul	Indirect via third party traders	Wilmar /Sime Darby	#####	Mighty Earth Raised, Response 17 & 19	May-22	Olam - Asian Agri Commenced an investigation. Based on the evidence received, it has been confirmed that the land clearing is located outside of PT USU concession. Reinstated from Closed Cases for further investigation and currently awaiting updates from the Suppliers.	Investigating / Validating
ID56	2	RGE Royal Golden Eagle	Apical - Asian Agri	PT Usaha Sawit Unggul	Indirect via third party traders	Wilmar /Sime Darby	#####	Mighty Earth Raised, Response 17 & 19	Jun-22	Sime Darby has confirmed that RGE are in their supply chain indirectly via several third-party traders (not this specific concession) with relevant NDPE policies and commitments. They have a very limited exposure to the supplier, as RGE's linkage to them are only via spot market purchases. They have assessed the grievances raised by RAN against the RGE and can conclude that, in their opinion, grievances have been well managed and RGE group of companies have transparently reported actions taken. They will be monitoring the indirect supplier to ensure continued compliance to NDPE commitments. Sime Darby has stated they 'consider the grievance resolved'.	CLOSED CASE
ID56	3	RGE Royal Golden Eagle	Apical - Asian Agri	PT Usaha Sawit Unggul	Indirect via third party traders	Wilmar /Sime Darby	#####	Mighty Earth Raised, Response 17 & 19	Jul-22	Not within direct supplies to off. PT Usaha Sawit Unggul are not suppliers to Wilmar however they are investigating indirect links relating to the Group/Parent and will update as information becomes available.	Not within off supply chain

ID76	1	Sipef	PT Agro Muara Rupit	-	Indirect via third party traders	Sime Darby	Feb-21	Mighty Earth Rapid Response 32	267ha forest clearance	Feb-21	We have reached out to Wilmar which has a meeting planned with Sipef. Sipef has also provided the following update to Wilmar namely: Investigation 6 Page 6 • The development has been approved under the RSPO NPP process in August 2014 • It has undergone an HCSA assessment which is under review by the HCSA Secretariat	CLOSED CASE
ID76	2	Sipef	PT Agro Muara Rupit	-	Indirect via third party traders	Sime Darby	Mar-21	Mighty Earth Rapid Response 32	267ha forest clearance	Mar-21	We are waiting for confirmation that the development is not HCS forest	CLOSED CASE
ID76	3	Sipef	PT Agro Muara Rupit	-	Indirect via third party traders	Sime Darby	Mar-21	Mighty Earth Rapid Response 32	267ha forest clearance	Dec-21	SPEF notes that from the evidence provided, none of the reported cleared areas overlap with either the HCV or any of the HCS areas. SPEF also informed our third party trader that the area cleared is covered by rubber vegetation. Status of the PT AMR peer review (area I & II) has been completed and the result is already available publicly at the HCSA website.	CLOSED CASE
ID76	4	Sipef	PT Agro Muara Rupit	-	Indirect via third party traders	Sime Darby/Bunge	Mar-21	Mighty Earth Rapid Response 32	267ha forest clearance	Jan-22	Wilmar Reported Mar-21: Global Witness report on SPEF's PT Tolan Tiga Indonesia land dispute remains committed to legal compliance and believes that the HGU represents the highest form of legal authority for land use. The company has the legal right to use this land as per its HGU, which has been renewed twice since the original issuance. Jan-21 RSPO NPP for PT AMR was concluded in August 2014, at a time where integrated HCV-HCS assessments was not a requirement. Standalone HCSA assessment for PT AMR was conducted after the ratification of the current RSPO standard, which is still under review by HCSA secretariat. The RSPO No Deforestation Task Force has issued a guidance document "Interpretation of Indicator 7.3.2.2 and Annex 5" which guides growers with the transition to integrated HCV-HCS assessment. As per guidance in Annex 5, clearing is allowed to proceed in areas that are identified as "Low Risk" within a Land Use Risk Identification (LURI), in parallel where stand alone HCSA assessment is conducted per the HCSA methodology. PT AMR's LURI was conducted by an independent assessor and accepted by RSPO in April 2020. The clearing detected by Mighty Earth are all within areas identified as "Low Risk" as per RSPO approved LURI. None of the areas identified for conservation and HCS within PT AMR has been cleared. SPEF remains committed to its No Deforestation Commitments. The RSPO Annex 5 guidance was followed to ensure no HCS forest would be cleared in the ongoing development.	CLOSED CASE
ID76	5	Sipef	PT Agro Muara Rupit	-	Indirect via third party traders	Sime Darby/Bunge	Mar-21	Mighty Earth Rapid Response 32	267ha forest clearance	Jan-22	Sime Darby PT Agro Muara Rupit is not specifically in our supply chain, however other mills affiliated with SPEF are. Supplies from SPEF came into our supply chain via third party traders who have NDPE policies and commitments. SPEF responded to the allegations, stating that the development detected by Mighty Earth has not undergone an integrated HCV-HCS Assessment, as it relates to a NPP of 2014 and it was not required at the time. A Land Use Risk Identification (LURI) was conducted by an independent assessor and accepted by the RSPO in April 2020. The LURI shows that all of the clearings identified by Mighty Earth are wholly within the area identified as Low Risk.	CLOSED CASE
ID76	6	Sipef	PT Agro Muara Rupit	-	Indirect via third party traders	Sime Darby/Bunge	Mar-21	Mighty Earth Rapid Response 32	267ha forest clearance	Jan-22	Bunge reported Jan 21: Deforestation and/or peat development. Satellite imagery shows that between May and October 2020, a total of 267 hectares of forest were cleared in the PT Agro Muara Rupit (wet estate) concession. Allegation on Night Earth Report 32, March-2021: Alleged land dispute between SPEF's PT Tolan Tiga Indonesia and Kelompok Tani Bersatu (KTB). Allegation on Global Witness Report.	CLOSED CASE

of3	1	The Capitol Group	PT MPHS	Medco Papua Hijau Selaras	Indirect via third party traders	Fuji Oil Europe	Mar-16	Mighty Earth Rapid Response 27, 28 & 29	286, 35.08, 31 & 245 ha deforestation	Apr-22	As according to their direct supplier, a HCV-HCS has already been conducted by qualified assessor, where the assessment was finalised in February 2019. When the allegation of deforestation was brought to Medco Papua Hijau Selaras's (MPHS) attention in March 2020, the company has planned for a field verification to investigate the matter. However, due to the restrictive movement imposed by the government of Indonesia to curb the spread of covid-19, MPHS's key personnel was stranded at the estates and unable to proceed with the field investigation. When the situation became conducive for travelling in June 2020, MPHS has immediately conducted the field verification and the assessment report is currently underway. MPHS has committed to peer review and will publish its HCS/HCV report on the HCV Network website once it is ready. From September 2020 onwards, they have observed strict moratorium. Meanwhile, PT MPHS committed to rehabilitate the affected areas, as identified in the HCV and HCS assessment reports. Working together with Balai Pengawas Daerah Aliran Sungai (BPDA) since November 2020, PT MPHS also committed to as plant 30,000 trees as part of their rehabilitation plan. Still pending completion of HCSA peer review, estimated by Q2 2021. Sep-21: There were some delays in the finalisation of integrated reports due to worsening of COVID-19 pandemic, where it was finally been submitted to the HCVRN on 11 July 2021. In the meantime, they have also prepared management plans for HCV/HCS areas, therefore protecting these areas while preventing similar incidences from recurring. Their direct supplier will continue to monitor and engage PT MPHS closely, while continuing to guide them through the peer review process as well as in developing a rehabilitation plan. We have reached out to our Tier 1 Supplier and are awaiting further information on their investigations.	CLOSED CASE

Bunge has requested their Tier 1 suppliers to engage with Fangiono Agro Plantation to investigate the allegation. (No further updates as at Feb 2023). Not within off supply chain since June 2024.	Not within off supply chain

of16	2	Fangiono Agro Plantation	PT Karangsiang Hiju Lestari (PT KHL) & PT Bulungan Hiju Perkasa (PT BHP). Shadow Company links with First Resources	Karangsiang Hiju Lestari	Indirect via third party traders	Bunge	Jan-23	https://www.youtube.com/watch?v=h5572NCGYxwchich	Forest Peoples Programme Report - shows allegations of long standing land conflict & human rights violations	Feb-23	Bunge have reported that their Tier 1 supplier would rely on RSPO complaints system investigations into group ownership links between First Resources and Fangiono Agro Plantation (FAP) to avoid duplication of efforts. Their Tier 1 supplier expects FAP Agri to comply with their NDPE policy. They indicated that PT Karangsiang Hiju Lestari (KHL) has provided evidence that it reached an agreement in 2015 to develop plasma scheme for the affected village (including Desa Bebanas and Desa Sujau) where it overlapped with the company's HGU area. In 2011, the community of Desa Sujau received monetary compensation to release rights over the land and to nullify the previous agreement for plasma development. PT KHL and Desa Sujau reached a mutually agreed compensation sum and the payment was given to the nominated community representatives. The community of Desa Bebanas requested PT KHL to provide financial assistance as part of the social responsibility in addition to the compensation of land areas belong to Desa Bebanas and plasma development, a mutually agreed payment was given to the nominated community representatives. PT KHL has evidence to substantiate this statement. Community members continued to occupy cultivated areas within KHL's HGU area and illegally harvest FFB. Various efforts to engage community have been undertaken but were unsuccessful and police reports were filed as the last resort. In a letter dated Jan 7th 2021, the Customary Leader gave a mandate to PT KHL to restrict access to the concession, and to refer to local laws for further action if necessary. The Bebanas community have sold the plasma area to other individual landowners. PT KHL have submitted a letter February 16th 2021 to the Regional People's Representative Council (DPRD) to notify them of this situation. PT KHL has shared evidence with Bunge's Trading Partner related to the agreement with the community, land survey and compensation payment. The individuals referred in the FPP report, from Desa Sujau, have illegally encroached and worked the lands within PT KHL's HGU. In order to resolve the issue, agreements have been reached to compensate for the costs of land development with the exception of those found guilty of illegally harvesting FFB. With regards to the environmental issues reported by FPP, reference was made to the 2015 KOMNAS HAM report that referred to PT Bulungan Hiju Perkasa (BHP), not PT KHL. FAP has also responded that PT BHP does not have environmental or legality issues as alleged in the report. (No further updates as at July 2023). Not within off supply chain since June 2024.	Not within off supply chain
of16	3	Fangiono Agro Plantation	PT Karangsiang Hiju Lestari (PT KHL) & PT Bulungan Hiju Perkasa (PT BHP). Shadow Company links with First Resources	Karangsiang Hiju Lestari	Indirect via third party traders	Bunge	Jan-23	https://www.youtube.com/watch?v=h5572NCGYxwchich	Forest Peoples Programme Report - shows allegations of long standing land conflict & human rights violations	Aug-23	Bunge's Grievance List update states that in May 2023, Forest Peoples Programme (FPP) outlined in a letter areas of concerns from responses of Fangiono Agro Plantation (FAP) and other involved companies, to the matter between FAP (PT Karangsiang Hiju Lestari, PT KHL and PT Bulungan Hiju Perkasa, PT BHP) and the Dayak Agabag. In this letter, it also requested PT KHL to share copies of the plasma agreements with the communities of Sujau and Bebanas. Their Tier 1 supplier initiated engagement with FAP to seek clarification on the issues raised by FPP. FAP has provided the information as follows: " PT KHL & PT BHP Obtained a Location Permit in 1995. In 2003, using the FPP process, they carried out a series of mapping with the local communities and an agreement was reached in 2004 on final concession boundaries. However, since 2008, the people of Sujau, Bebanas, and Meliau Baru started moving out of their traditional settlements, which originally were situated outside of PT KHL's HGU area, into the HGU area. This was due the development of the Trans-Kalimantan Road network that cuts through PT KHL's HGU. On the matter related to Tataban village, FAP has also clarified that the Aki Bangkangan is a cultural site located in the cemetery area near Tataban village that is outside of the FAP's HGU area. FAP has indicated that it does not have any intention to encroach or disturb the site in any way. The area concerned is situated within the concession of PT PT Adinda Hutani Lestari, which is an HTI company. " The agreement on the Plasma scheme is entered into by the Company and the plasma farmer cooperative. The selection of the recipients of plasma is determined through musyawarah (consensus) by the community. Once agreed, the list of plasma recipients is proposed in a Letter of Prospective Farmers for Land Candidates (Calon Petani Calon Lahan) to be recognized by District Head (Bupati). Legally, the process related to plasma scheme has to be managed by a cooperative, representing plasma farmers. The agreement document was copied to the cooperative. " The plasma agreement document was signed in two copies. Both FAP (PT KHL and PT BHP) and the cooperative have a copy of plasma agreement document. FAP stated that if the community wants to obtain a copy of the plasma agreement, they can do so by requesting from cooperative's management. PT KHL and PT BHP reaffirmed its openness to discussions with the community and cooperative's management. "PT KHL is operating legally as they obtained land use permit (HGU) since 2004. As part of the HGU legality process, PT KHL has provided compensation for land acquisition. Furthermore, PT KHL will not force eviction of community members who do not want to surrender their land areas to the plantation. The company still allows landowners to manage their land independently. "Prior to obtaining the HGU, FAP has carried out PPC and participatory mapping to identify and delineate community land areas within the Iain Lokas (Location Permit). Community land areas that did not get the agreement released to the company were excluded from the HGU area. FAP emphasised that the compensation for land release was a documented process (with evidence of signed agreements, receipts and photographs) and was carried out based on mutual agreement and without coercion. FAP regrets claims that PT KHL and PT BHP coerced the communities in the land acquisition process. " The legislation of Indonesia recognizes the Village Head, Village Secretary, Village Consultative Body (Badan Permusyawaratan Desa), and Customary Chair as the legitimate and legal representatives. In this case, the agreements between PT KHL, PT BHP and the communities has been represented and signed by valid and legitimate parties, and thus, fulfills the element of representation according to Indonesian law. "FAP reaffirmed its openness for dialogue with stakeholders. (No further updates as at January 2025). Not within off supply chain since June 2024.	Not within off supply chain

Feb-24	Feb-24 Bunge Grievance List update states - AAL appoints EcoNusantara to assist in developing an action plan to put in effect the recommendations of EcoNusantara's independent verification of allegations. AAL will publish the finalised action plan and subsequently will keep stakeholders up to date with a monthly progress report. AAL and EcoNusantara extends the invitation to civil societies to work closely with them towards a mutual solution. (Updated end of June 2024).	Ongoing Monitoring
0f18	8	Astra Agro Lestari Group	Various	Various	Indirect via third party traders	Bunge	Mar-23	Indonesian palm oil linked to illegal deforestation, land rights abuses & environmental & human rights violations. (file.org)	Friends of the Earth US & Indonesia - Allegations re. longstanding land rights abuses & environmental & human rights abuses. AAL & ENS joint statement - The Verification Report.	Jul-24	Bunge Grievance List states - as at July 24: Allegations in a March 2024 analysis by Genesis Bengkulu of several AAL mills linked to deforestation for palm plantation development in areas still covered by protected area designation. (No further updates as at August 2024).	Ongoing Monitoring
0f18	9	Astra Agro Lestari Group	Various	Various	Indirect via third party traders	Bunge	Mar-23	Indonesian palm oil linked to illegal deforestation, land rights abuses & environmental & human rights violations. (file.org)	Friends of the Earth US & Indonesia - Allegations re. longstanding land rights abuses & environmental & human rights abuses. AAL & ENS joint statement - The Verification Report.	Aug-24	Bunge is in direct engagement with AAL on the action items stated in the action plan following EcoNusantara independent verification report and welcomes AAL's open door approach with regards to receiving constructive and helpful information from stakeholders towards long term resolution of the grievance. Astra reiterates that it is willing to provide the complainant access to all the proprietary data it has that went into the EcoNusantara verification at Astra's offices. AAL also shared with Bunge that their sustainability advisor, Robertsbridge, continues to encourage the complainants to engage and mediate with Astra directly for meaningful and forthright discussion.	Ongoing Monitoring
0f18	10	Astra Agro Lestari Group	Various	Various	Indirect via third party traders	Bunge	Mar-23	Indonesian palm oil linked to illegal deforestation, land rights abuses & environmental & human rights violations. (file.org)	Friends of the Earth US & Indonesia - Allegations re. longstanding land rights abuses & environmental & human rights abuses. AAL & ENS joint statement - The Verification Report.	Sep-24	AAL shared with Bunge that they commit to regularly publish their progress towards implementing the action plan following the independent verification report from EcoNusantara. Please find AAL's first progress update here. AAL informed Bunge that the key in implementation has always been to be inclusive and adhering to the principles of Free, Prior and Informed Consent of the communities, and in consultation with stakeholders within the area of their operation. Furthermore, AAL is still willing to work with interested parties to actively participate in resolving any grievances and their commitments stated in the action plan. EcoNusantara continues to play a key role in facilitating this. Bunge will continue to engage AAL directly and keep track of the milestones and action plan deliverables (no further updates as at October 2024).	Ongoing Monitoring
0f18	11	Astra Agro Lestari Group	Various	Various	Indirect via third party traders	Bunge	Mar-23	Indonesian palm oil linked to illegal deforestation, land rights abuses & environmental & human rights violations. (file.org)	Friends of the Earth US & Indonesia - Allegations re. longstanding land rights abuses & environmental & human rights abuses. AAL & ENS joint statement - The Verification Report.	Nov-24	Bunge Grievance List states - Bunge received direct feedback from AAL on the various allegations asserted by Friends of the Earth's latest article "Lack of Progress". AAL assures stakeholders that the action plan jointly developed with EcoNusantara aims to address all the concerns of stakeholders in the long term and AAL further invites FoE and WALHI to re-commence direct engagement and where possible, third-party mediation. AAL has the interest of the people at heart and recognizes that FPIC is an extensive process which requires full participation from the communities, hence they have planned a series of activities to engage stakeholders surrounding their operations, local CSO, academia and any stakeholder interested to resolve the grievances that have been raised. Despite the claims, AAL asserts that at no point has the company nor AAL employees and its consultants blocked or ordered the exclusion of any part of any community to attend the village meetings. The open invitation was sent by the village heads themselves with no coordination or at the behest of AAL, nor did AAL instructed the village heads to restrict any stakeholder from attending the meeting. AAL categorically denies any allegation that AAL instructed the arrest or criminalization of any community members (no further updates as at December 2024).	Ongoing Monitoring

Allegedly connected to Alas Kusuma. Alas Kusuma has two oil palm operations: PT Suka Jaya Makmur and PT Kusuma Alam Sari. In the PT Kusuma Alam Sari concession alone, it is estimated that over 1,300 ha of peat was developed between January 2016 and December 2022 and, in 2023, 107 ha peat areas have been developed. Mighty Earth confirmed that KPN has suspended Alas Kusuma as of December 2023. (No further updates as at April 2025). Not within the off supply chain since June 2024.	Not within off supply chain

of21	10	Sungaibudi	Pt Tunas Baru Lampung	Tunas Baru Lampung	Indirect via third party traders	Bunge	Feb-24	Report not yet available (issued February 2024)	Mighty Earth Rapid-Response Report 43	Mar-24	Bunge Grievance updates shows - Tunas Baru Lampung - (2020) Analysis by Chain Reaction Research (CRR) shows that ten palm oil companies were alone responsible for approximately 39,500 hectares (ha) of deforestation and peat development in Indonesia, Sarawak (Malaysia) and Papua New Guinea in 2019. This total amounts to roughly 44 percent of all deforestation detected within known oil palm concessions in these regions last year (90,000 ha). This figure is considerably higher than the 74,000 ha detected in 2018. However, this total does not include land that was burnt during the dry season in 2015, which saw substantially more forest and peat lost. (Updates as of March 2024). As of April 2024 - Error on Supplier Mill list shows Tunas Baru Lampung - as PO1000007523 s/be named PT Sumber Budi Agung - Supplier informed - not part of Sungaibudi, therefore not in query, therefore move to Closed Cases.	CLOSED CASE

of22	2	Kretam Holding Bhd	Syarikat Kretam Mill	Kretam	Indirect via third party traders	Bunge	Feb-24	Starting Alert/Earthworm		Feb-24	A Starting Alert has highlighted connections to Kretam Mill and Bunge show this Mill in their Listings. Awaiting response/feedback on findings in the Report.	Investigating / Validating
of22	4	Kretam Holding Bhd	Syarikat Kretam Mill	Kretam	Indirect via third party traders	Bunge	Feb-24	Starting Alert/Earthworm		Mar-24	Bunge's Grievance Log updated states: Deforestation alert (in 2 areas) regarding land clearing situated within the proximity of Kretam's Masang estate after 31st December 2015 (out-of-date for NDPE) Kretam responded to Bunge that one of the alert detections falls within land owned by Kretam whilst the other falls outside its legal boundaries. During initial investigation and site-visit at the alert area, Kretam identified that a third party had encroached into Kretam's landbank and the occurrence of land clearing and subsequent new planting was not conducted by Kretam. Kretam shared its site visit report with Bunge and re-affirms its commitment to responsible and sustainable oil palm cultivation, as they are members of the RSPO and Masang estate is part of its RSPO IP supply base. Due to the seriousness of the issue, Kretam has escalated this land encroachment as a civil matter to local authorities to investigate and take action. (Updated end of March 2024).	Investigating / Validating
of22	5	Kretam Holding Bhd	Syarikat Kretam Mill	Kretam	Indirect via third party traders	Bunge	Feb-24	Starting Alert/Earthworm		Apr-24	Bunge's Grievance Log states Kretam held a consultative meeting with the smallholders involved in the encroachment of Kretam's land bank and shared these points: " Smallholders that encroached into Kretam's land accepted Kretam's site investigation findings and acknowledged that the land clearing did indeed encroached into Kretam's land bank. " Both parties agreed to conduct participatory mapping for boundary demarcation in April 2024, in order to establish clear boundary markings to prevent future disputes. " Smallholder agreed to cease all further clearings on Kretam's land bank and in parallel, Kretam commits to conduct monthly patrolling and surveillance to monitor progress and prevent further encroachment. " Lastly, Kretam commits to rehabilitate the areas cleared by the smallholder with selected native tree species, in consultation with stakeholders by Q3 2024. (No further updates as at April 2025). Not within the off supply chain since June 2024.	Not within off supply chain
of23	1	Abdi Budi Mula (ABM Group)	Pt Kalimantan Hamparan Sawit	-	Indirect via third party traders	Bunge	May-24	MightyearthRR-Report: 45		Jun-22	Abdi Budi Mula PU 1 is shown in Q4 2023 Mill list (Group Sumber Tani Harapan). Bunge's Grievance List states that several of their Tier 1 suppliers have engaged with ABM (PT Kalimantan Hamparan Sawit) on the detected deforestation. ABM responded indicating that they are developing the landbank as part of the government mandated plasma obligation for local communities. However since the indications of deforestation continues to occur, several Tier 1 suppliers have deemed ABM to be in non-conformance to Zero Deforestation commitments and have suspended purchase of palm products from ABM until such time when ABM can fulfill and comply with NDPE commitments. Bunge will communicate similar expectations to all Tier 1 suppliers. (No further updates as at July 2024)	Suspended
of23	2	Abdi Budi Mula (ABM Group)	Pt Kalimantan Hamparan Sawit	-	Indirect via third party traders	Bunge	May-24	MightyearthRR-Report: 45		Aug-24	Bunge's Grievance List states that some of their tier 1 suppliers have confirmed that they have applied its leverage with Abdi Budi Mula/Kalimantan Hamparan Sawit to conduct integrated HCV + HCS assessment and a Stop Work Order in place for the plasma development. Bunge will continue to monitor the implementation and NDPE commitment of ABM/KHS via its Tier 1 supplier. (No further updates as at April 2025). Not within the off supply chain since June 2024.	Not within off supply chain
of24	1	Sumber Tani Agung	Pt Kalimantan Hamparan Sawit	-	Indirect via third party traders	Bunge	May-24	MightyearthRR-Report: 44		Jun-24	Pt Kalimantan Hamparan Sawit is not named in Q4 2023 Mill Listings, however Sumber Tani Agung (STA) is. MERRR 44 suggests that Pt Kalimantan Hamparan Sawit was a 3rd party supplier of STA in 2021/22, assuming trade of FFB. Bunge's Grievance List for Sumber Tani Agung was last updated in June 22 and states- Tier 1 supplier confirmed that they are connected indirectly to PT Sawit Sukses Sejati (PT SSS) through Sumber Tani Agung (STA). They have engaged with their direct supplier who shared that PT SSS was no longer a consistent supplier to STA before the allegation. There were some FFB deliveries to STA in 2022 due to some operational issues, however, STA have ceased sourcing from PT SSS after the ME39 allegation. (no further updates as at August 2024) .	Ongoing Monitoring
of24	2	Sumber Tani Agung	Pt Kalimantan Hamparan Sawit	-	Indirect via third party traders	Bunge	May-24	MightyearthRR-Report: 44		Aug-24	Bunge state on their grievance list - Mighty Earth report alleges that Sumber Tani Agung (STA) used to buy FFB from Abdi Budi Mula (ABM)/PT Kalimantan Hamparan Sawit (KHS) in 2022. However, in 2023 ME could not find any evidence from the annual report that it had such a similar transaction with ABM. The 2022 annual report of STA shows that KHS was a third-party supplier of STA in 2021 and 2022. Mighty Earth assumes that this was for the trade in Fresh Fruit Bunches (FFB) of palm oil. STA's 2023 Annual Report shows no recorded sales in 2023. No data is published for the first quarter of 2024. Bunge will continue to monitor the implementation and NDPE commitment of ABM/KHS via its Tier 1 supplier (No further updates as at April 2025). Not within the off supply chain since June 2024.	Not within off supply chain
of25	1	Yayasan Sabah Group	Innoprise Plantations	Serijaya Industria Sdn Bhd	Indirect via third party traders	Bunge	Aug-24	Mighty Earth RR Report 45		Aug-24	Bunge has reached out to their Tier 1 Supplier, for further update.	Investigating / Validating
of25	2	Double Dynasty	Mutiara Pelita Genaan Plantation Sdn Bhd	-	Indirect via third party traders	Bunge	Aug-24	Mighty Earth RR Report 45		Aug-24	The Concession mentioned does not show in our Mill Listing , however, Double Dynasty does, therefore we have reached out to our Tier 1 Supplier for further information or/and any actions to be taken relating to the allegations.	Investigating / Validating
of25	3	Cipta Plantations/Samuel International	PT Praseta Mitra Muda/ NSS Group	Nusantara Sawit Persada	Indirect via third party traders	Bunge	Aug-24	Mighty Earth RR Report: 45		Aug-24	The Concession named is not in our Mill List however, Nusantara Sawit Persada is. Named by Mighty Earth as having connections to NSS. Bunge's Grievance List states, NSS Group (PT BSP) shared a map which describes none of their concessions, either the alleged clearance, are inside peatland area. Also, their Tier 1 Supplier reports that PT PMM is committed to the NDPE principles and has previously conducted an integrated HCV + HCS assessment and subsequent developments have always been limited to the "Go" areas determined by the aforementioned assessments. PT PMM also admitted that there was an irregularity found in the recent development detected by Mighty Earth that resulted in clearing on areas that was not subject under a HCV + HCS assessment. In a letter dated 12th July 2024, PT PMM committed to Bunge's Tier 1 supplier with the below. 1. The Company will immediately stop land clearing in the Company's concession area that has not yet been studied in HCS/HCV. 2. The Company will immediately carry out an (additional) HCS/HCV study in the targeted areas for further development followed by an integrated peer review process by HCVRN. 3. Land development will resume after the (additional) HCS/HCV study is completed for the area that declared as the "Go" area. The company guarantees that it will follow all changes that occur in the peer process review if there is any and necessary. 4. The Company acknowledges the calculation of the Company's responsibility for the aforementioned deforestation and will use it as the basis for a recovery plan program if needed according to the results of the HCS/HCV study." Bunge will continue to monitor PT PMM's compliance through it Tier 1 supplier. (No further updates as at February 2025).	Ongoing Monitoring

0125	3	Cipta Plantations/Samuel International	PT Praseta Mitra Muda/ NSS Group	Nusantara Sawit Persada	Indirect via third party traders	Bunge	Aug-24	Mighty Earth RR Report 45	During period June 23 & June 24 (918 ha) of Tree Cover Loss in the PT Prasetya Mitra Muda Concession	Aug-24	Bunge Grievance List states - Bunge spoke with its Tier 1 and Tier 2 suppliers who immediately conducted a field verification on Earthqualizer's detection on PT Nusantara Sawit Persada. Bunge has examined the field verification report and subsequently validated the contents with its partners. Some of the detections fell outside PT NSP's HGU boundaries whilst certain detections within HGU boundaries were not considered deforestation as conversion took place on rubber and shrub lands. Bunge notified its Tier 1 suppliers to conduct another round of field verification and provide additional objective evidence for additional areas that were detected. Bunge continues to monitor these concessions and hold its Tier 1 suppliers accountable.	Ongoing Monitoring
0125	4	Cipta Plantations/Samuel International	PT Praseta Mitra Muda/ NSS Group	Nusantara Sawit Persada	Indirect via third party traders	Bunge	Aug-24	Mighty Earth RR Report 45	During period June 23 & June 24 (918 ha) of Tree Cover Loss in the PT Prasetya Mitra Muda Concession	Mar-25	Bunge's Grievance List States - Bunge spoke with its Tier 1 and Tier 2 suppliers who immediately conducted a field verification on Earthqualizer's detection on PT Nusantara Sawit Persada. Bunge has examined the field verification report and subsequently validated the contents with its partners. Some of the detections fell outside PT NSP's HGU boundaries whilst certain detections within HGU boundaries were not considered deforestation as conversion took place on rubber and shrub lands. Bunge notified its Tier 1 suppliers to conduct another round of field verification and provide additional objective evidence for additional areas that were detected. 0125	4	Yayasan Sabah Group	Innoprise Plantations	Serijaya Industria Sdn Bhd	Indirect via third party traders	Bunge	Aug-24	https://www.wilmar-international.com/docs/default-source/default-document-library/sustainability/grievance/grievance-case-report/ineligible-grievance-001.pdf?sfvrsn=5684b9c_1_72	Tree Cover Loss between June 23 & April 24 (32 ha) in Serijaya Industria Sdn Bhd Concession.	Sep-24	Bunge states that their Tier 1 supplier shared that the land development reported in within Serijaya Industria Sdn Bhd in this latest Rapid Response 45 report is not related to Serijaya Industria Sdn Bhd's oil palm operations. Their land development activities were related to timber tree planting, mainly the timber species Laran (Neolamarckia cadamba). More detail can be consulted in Tier 1 supplier's ineligible grievance listing (case no. 90). (No further updates as at January 2025).	CLOSED CASE
0125	5	Double Dynasty	Mutiara Pelita Genaan Plantation Sdn Bhd	-	Indirect via third party traders	Bunge	Aug-24	Mighty Earth RR Report 45	Tree Cover Loss between Jan 23 & June 24 (140 ha)	Sep-24	Bunge's Grievance List states: Regarding allegations of Mighty Earth Rapid Response Report 45, our Tier 1 supplier has shared that land clearing was not carried out by Double Dynasty. The land clearing occurred outside Mutiara Pelita Genaan Plantation's project area. There has been no new land development for by Mutiara Pelita Genaan since 2015. The concession is a "Pelita Project", which is a common private-government-smallholder collaboration in Sarawak, Malaysia. Pelita project involves the State government of Sarawak and it is one of the State's community development project to improve community livelihood. Pelita Project is a three-way JV collaboration, where the private sector holds 60% of the shares, 30% owned by Native Customary Rights (NCR) landowners taking part in the project through the capitalisation of their land. The remaining 10% shares are owned by government agency, Sarawak's Land Custody and Development Authority (LCDA). Generally, the procurement of the NCR lands will be undertaken by Pelita Holding, a wholly owned subsidiary of LCDA, a statutory body under the Ministry of Rural and Land Development, Sarawak. Majority of the NCR/native lands consist of mix of shifting agricultural land, fruit trees, regenerating forest or secondary forest, subject to the land use history of the native lands. In cases where the NCR landowners refused to take part in the Pelita Project, the company will not conduct any land development on the plot of land as the NCR owners remained as the legal owner of the area. The detected deforestation in the report happened in such area where there was no participation in the Mutiara Pelita Genaan Plantation project by these NCR owners. Specifically for the case of Mutiara Pelita Genaan Plantation, the approved perimeter for this project is 13,000 ha, but less than 6000 ha was surrendered by NCR landowners for development following the principle of FPIC. The remaining 55% of the land was not developed by Mutiara Pelita Genaan Plantation as the land was not surrendered to them. Double Dynasty is currently suspended. Whilst some Tier 1 suppliers may not have imposed similar suspension on Double Dynasty, Bunge will continue to monitor the progress of Double Dynasty corrective actions plans regarding older allegations, as they are currently making progress on the recovery plan. (No further changes as at January 2025).	Suspended
0126	1	Rimbunan Hijau	Palmaraya Pelita Spapa Oya Plantations Sdn Bhd/Other Group members inc Palm Group Holdings/ Jaya Tiasa, Subur Tiasa & Rimbunan Sawit	Various	Indirect via third party traders	Bunge	Oct-24	Mighty Earth Rapid Response Report 46 (Draft)	Forest Loss/Clearance between January 23 & July 24 (114 ha)	Oct-24	The Concession named is not in our Mill List however, Jaya Tiasa & Palm Group POM are, along with Rimbunan Hijau Group. Bunge's Tier 1 Supplier, Wilmar, is currently investigating the case. Bunge's Grievance List states: October 2024: Earthqualizer Supplier Group Level Monitoring. (No further updates as at December 2024).	Investigating / Validating

0126	2	Tetangga Akrab Group (Suspected)	Palm Green Development Sdn Bhd	Tetangga Akrab 1 & Tetangga Akrab 2	Indirect via third party traders	Bunge	Oct-24	Mighty Earth Rapid Response Report 46	1,340 (ha) land proposing to develop	Sep-24	Bunge have this case registered under Pure Green Developments. Their Grievance List states: September 2024: Based on Earthqualizer Supplier Group bi-weekly monitoring report, continuous deforestation alerts have been reported since Q2 2024 and Q3 2024. A total of 99ha of deforestation have been reported against the company and according to EIA reports, the alleged area is designated for oil palm planting. Further stating, Bunge will not accept oil from this supplier, we have informed our trading partners and commercial team accordingly. (No further updates as at January 2024).	Supplier Blocked / Stop Purchase
0126	3	Rimbunan Hijau	Palmaraya Pelita Spapa Oya Plantations Sdn Bhd/Other Group members inc Palm Group Holdings/ Jaya Tiasa, Subur Tiasa & Rimbunan Sawit	Various	Indirect via third party traders	Bunge	Oct-24	Mighty Earth Rapid Response Report 46	Forest Loss/Clearance between January 23 & July 24 (114 ha)	Jan-25	Bunge's Grievance List states: Their Tier 1 supplier has engaged with Rimbunan Hijau Group, and shares the following conclusions on the allegations: 1) Palmaraya Pelita Spapa Oya Plantation Sdn Bhd concession: Our Tier 1 supplier reported in their public ineligible grievance list, that the area identified by Mighty Earth was not developed by Pelita Spapa Oya Plantation Sdn Bhd. Additionally, the alerts mentioned fall outside the boundaries of their Pelita project area". Our Tier 1 supplier also reiterates its commitment to their NOPE policy, which has been in effect since 2013 and applies to all suppliers, requiring that they comply with the key principles of NOPE, including not sourcing from non-compliant sources. ***"Pelita Project", which is a common private-government-smallholder collaboration in Sarawak, Malaysia. Pelita project involves the State government of Sarawak and it is one of the State's community development project to improve community livelihood. Pelita Project is a three-way JV collaboration, where the private sector holds 60% of the shares, 30% owned by Native Customary Rights (NCR) landowners taking part in the project through the capitalization of their land. The remaining 10% shares are owned by government agency, Sarawak's Land Custody and Development Authority (LCDA). Generally, the procurement of the NCR lands will be undertaken by Pelita Holdings, a wholly owned subsidiary of LCDA, a statutory body under the Ministry of Rural and Land Development, Sarawak. Majority of the NCR/native lands consist of mix of shifting agricultural land, fruit trees, regenerating forest or secondary forest, subject to the land use history of the native lands. In cases where the NCR landowners refused to take part in the Pelita Project, the company will not conduct any land development on the plot of land as the NCR owners remained as the legal owner of the area. The detected deforestation in this report happened in such area where there was no participation in the Pelita Spapa Oya Plantation project by these NCR owners. 2) Rimbunan Sawit Berhad/R.H. Plantation Sdn. Bhd: Selangor estate was divested from Rimbunan Hijau group since 21 December 2023. Please see the announcement on Bursa here. 3) Rimbunan Hijau Group – Subur Tiasa Holdings Berhad/ Tiasa Mesra Sdn Bhd: The company has clarified that the alert is not related to oil palm development. The land development activities were related to coconut planting. (No further updates as at April 2025). Not within the off supply chain since June 2024.	Not within off supply chain
