

Pistachio

SOURCING

Our pistachio footprint has continued to grow and we now farm over 1200 acres throughout orchards in California, a region that comprises 99% of the entire US pistachio production.

Ofi also maintains an extensive sourcing network, made up of other leading processors to meet our global customer's demand.

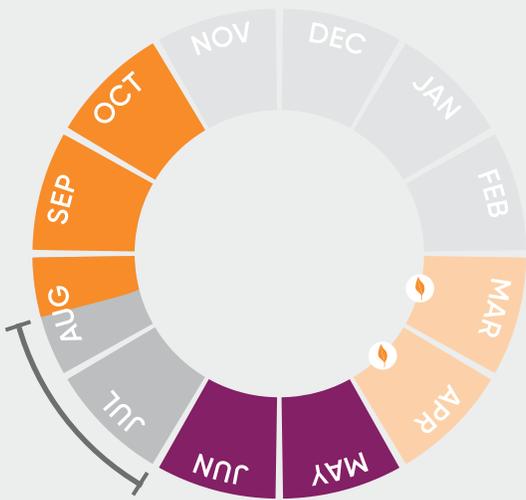

PROCESSING

Cracking, roasting and salting of both inshell & kernel, as well as pistachio ingredient processing, is done at our Vietnam facility.

The plant is over 53,000 square feet with a process flow engineered to customize specification. This includes color sorters, infra and x-ray screen, metal detectors and manual sorting.
