YOUR NETWORK, REINVENTED

Network Assessment and Remediation by Bedroc

Built on Bedroc Built on Bedroc

FROM ASSESSMENT TO ACTION

SEAMLESS, SECURE NETWORK

WHY CHOOSE OUR NETWORK SITE ASSESSMENT?

Comprehensive Evaluation
Our expert engineers conduct a thorough analysis of your entire network infrastructure, covering wired and wireless systems, security protocols, and performance metrics.

Tailored Recommendations
We don't just identify issues; we provide actionable insights and customized recommendations that align with your business goals and IT strategy.

Proven Results
With a track record of success, our assessments lead to measurable improvements in network reliability, security, and performance.

Cost-Effective Approach
Our assessments are designed to be budget-friendly, with a focus on long-term savings through optimized network performance and reduced downtime.

Strategic Remediation Planning
We don't stop at assessment; our team works with you to develop a detailed remediation plan, whether it's upgrading outdated equipment, enhancing security measures, or optimizing wireless coverage.

Rogue Switch Identification and Removal
As part of our remediation efforts, we "Seek and Destroy" all rogue switches—ensuring your network remains secure and fully managed.

WHAT'S INCLUDED IN THE ASSESSMENT?

Network Topology Review
Detailed examination of your network design, identifying any bottlenecks, redundancies, or outdated components.

Performance and Traffic Analysis
In-depth analysis of bandwidth utilization, latency, and network traffic to uncover inefficiencies and areas for improvement.

Security Vulnerability Assessment
Comprehensive security check to identify vulnerabilities and ensure compliance with industry standards.

Wireless Coverage Survey
Use of advanced tools like Ekahau to map wireless coverage, signal strength, and interference, with before-and-after heat maps provided.

Environmental Inspection
Assessment of physical factors like power, cooling, and cabling that impact your network's performance and reliability.
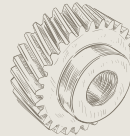

THE BEDROC ADVANTAGE

Leveraging years of industry experience, our team delivers high-quality, actionable network assessments tailored to your needs and budget, resulting in significant improvements in network uptime, security, and user satisfaction.
