RHIMS 10 Review I Tested It and Found Some Surprises Today

RHIMS 10 Review: Unlocking High-Paying Phone Calls Without Selling a Thing

If you have spent any time trying to make money online, you already know how exhausting traditional affiliate marketing can feel. You spend hours writing long product reviews, trying to rank against massive authority sites, filming videos for social media, or burning money on paid ads, only to watch people click away without buying. Selling is hard work. Convincing a total stranger to pull out their credit card and make a purchase requires overcoming deep skepticism, handling objections, and competing with thousands of other marketers pushing the exact same offers.

What if you could bypass the hardest part of the equation entirely? What if you did not have to sell anything, close any deals, answer any phone calls, or deal with refunds?

That is the exact premise behind **RHIMS 10: Get Paid Per Call**. Created by veteran marketer JayKay Dowdall, this training program flips the script on conventional online business models by tapping into the multi-billion-dollar pay-per-call industry. Instead of earning a commission only when someone buys a product, you earn a payout whenever a qualified caller phones a local business or service provider using a special tracking number you provide.

In this comprehensive review, we will take a deep dive into what RHIMS 10 is, how the system works, what is included inside, the complete OTO and pricing structure, and whether it is truly worth your time and money.

What is RHIMS 10?

RHIMS stands for *Really Helpful Internet Marketing Stuff*, a long-running and respected series of practical, no-fluff marketing guides created by JayKay Dowdall. RHIMS 10 is the tenth major installment in the series, focusing entirely on a streamlined, AI-assisted approach to pay-per-call affiliate marketing.

To understand why this model is catching on, consider a real-world scenario. Imagine a homeowner wakes up to find their basement flooded because a sump pump failed. They do not browse Amazon reading comparison articles; they pick up their phone immediately, search for an emergency plumber, and call the first reliable number they see. That plumber desperately needs that phone call because it represents a high-value customer. In fact, local businesses like plumbers, roofers, locksmiths, HVAC technicians, and legal services are more than willing to pay substantial fees—often ranging from $30 to $100+ per call—just to get connected with a live, motivated customer.

In the RHIMS 10 model, you act as the digital connector. You do not own the plumbing company, you do not answer the phone when it rings, and you never speak to the customer. You simply set up a simple digital asset using artificial intelligence, direct targeted traffic to

it, and let the pay-per-call network route the call directly to the business while tracking your commission automatically.

Core Features and What You Get Inside

RHIMS 10 is designed from the ground up to be practical, beginner-friendly, and stripped of unnecessary bloat. Here are the core components included in the main package:

1. The Complete "Get Paid Per Call" Video Training

The core training walks you through the entire pay-per-call landscape from scratch. You do not need any prior experience in local marketing or telecommunications. The modules cover how the industry operates, how to choose beginner-friendly evergreen niches (such as home services, insurance, and legal support), and how to navigate network rules safely.

2. The AI Call-Funnel Building System

One of the biggest hurdles for marketers is staring at a blank screen, trying to figure out how to build pages, write copy, and structure a campaign. RHIMS 10 solves this by incorporating AI workflows. You receive specialized copy-and-paste prompts and step-by-step instructions that instruct artificial intelligence to help you research niches, analyze campaign payouts, draft conversion-focused copy, and assemble your simple call funnels in a fraction of the time it would take manually.

3. The Network Approval Strategy

If you have ever tried applying to affiliate networks, you know that getting rejected can be frustrating. Pay-per-call networks can be equally selective, sometimes turning away a high percentage of raw beginners. The training includes a dedicated approval strategy module designed to help newcomers present themselves correctly, meet network standards, and secure their accounts smoothly.

4. The Free-Traffic Method

You do not need to spend money on Google Ads, Facebook Ads, or Bing Ads to make this work. The core training focuses heavily on a free-traffic methodology that taps into existing online pockets and established digital assets where targeted consumers are already looking for solutions. According to the creator, this approach requires no complex SEO campaigns, no daily social media posting, and no chasing algorithm updates.

5. Launch-Week Bonus Package

Buyers during the launch window also receive an impressive bundle of supplementary resources, including:

- **The Call Funnel AI Prompt Vault:** Advanced prompts for troubleshooting, scaling winning campaigns, and checking compliance.
- **The FREE Traffic Treasure Map:** A visual guide mapping out additional set-and-forget traffic sources.

- **The Case Files:** Historical case studies breaking down real pay-per-call campaigns.
- **Direct Vendor Access:** A direct communication channel to get your questions answered when you encounter roadblocks.

How RHIMS 10 Works: Step-by-Step

The workflow taught inside RHIMS 10 is clean, systematic, and easy to follow:

1. **Pick a Niche and Campaign:** You select a high-demand service niche (like home repairs or legal aid) and grab your unique tracking number from a reputable pay-per-call network.
2. **Deploy the AI Funnel:** Using the provided AI prompts, you quickly generate a clean, focused web asset designed to capture the intent of someone looking for immediate help.
3. **Publish on Existing Traffic Assets:** Instead of building a massive social media following from zero, you place your funnel where targeted visitors are already congregating.
4. **Route and Earn:** When a customer calls the number, the network routes the call to a local business, verifies that the call meets the qualifying criteria, and logs your commission.
5. **Stack and Repeat:** Once a single funnel is up and running (requiring minimal monthly maintenance), you can clone the process in a new niche to scale your earnings.

RHIMS 10 Pricing and OTO Breakdown

If you are looking to purchase RHIMS 10, it helps to understand the front-end cost as well as the optional upgrades (One-Time Offers) available after checkout.

Front-End Offer

- **RHIMS 10: Get Paid Per Call ($27 One-Time):** This is the core training program, complete video course, AI prompt system, and all launch-week bonuses. The vendor notes that the price is set as a low-cost entry during the launch period before rising to $47 afterward. There are no mandatory monthly software subscriptions required to get started, though you will need a custom domain (roughly $10) and an AI tool of your choice.

Optional OTOs (Upgrades)

Based on the official product launch structure, several optional upgrades are available for marketers who want to accelerate their results:

- **RHIMS 10 Deluxe ($120.00):** Advanced modules and expanded framework resources for scaling operations.

image_7a95eb.png

- **RHIMS 10 Pay-Per-Call Masterclass ($97.00):** Advanced training sessions, deeper strategic breakdowns, and live Q&A components.

  image_7a95eb.png

- **RHIMS 10 RHIMS Vault ($197.00):** Access to a comprehensive archive of previous training materials, case studies, and historical marketing assets.

  image_7a95eb.png

- **RHIMS 10 The Fresh List ($60.00):** A curated recurring resource providing fresh niche ideas and campaign opportunities on an ongoing basis.

  image_7a95eb.png

Note: The front-end product is fully functional on its own. You do not need to purchase any of the OTOs to make the core system work.

Exclusive Bonuses Included With Your Access

To help you get the absolute best results with RHIMS 10, we have put together a massive, high-value custom bonus package that you will receive instantly when you grab your copy through our review page:

- **Bonus 1: The High-Converting Niche Cheat Sheet (Value $197)** A curated list of recession-proof, high-payout local service niches that consistently convert best for beginners, saving you days of trial and error.
- **Bonus 2: Advanced AI Prompt Expansion Pack (Value $147)** Custom-crafted prompt sequences designed to generate hyper-persuasive funnel copy and compliance-friendly landing page text tailored specifically for local service providers.
- **Bonus 3: The Zero-Budget Traffic Accelerator (Value $297)** A step-by-step blueprint detailing hidden, overlooked free traffic sources that require zero ad spend and zero social media posting.
- **Bonus 4: Private Campaign Scaling & Stacking Blueprint (Value $197)** A masterclass guide on how to take a single profitable call funnel, automate its maintenance, and successfully stack multiple funnels to grow your monthly income.

Pros and Cons

The Pros:

- **No Selling Required:** You never have to pitch products, convince skeptical buyers, or close sales over the phone.
- **Beginner Friendly:** The training starts from absolute fundamentals and removes the technical guesswork using AI prompts.
- **Low Startup Costs:** The front-end price is extremely affordable ($27), and you only need a basic domain to get started without expensive software suites.
- **Complete Anonymity:** You do not need to show your face, build a personal brand, or record video reviews.

- **Strong Double Guarantee:** Backed by a 180-day money-back guarantee and a special $250-in-six-months performance guarantee, lowering financial risk.

The Cons:

- **No Guaranteed Income:** This is a business training course, not an automated ATM. Your earnings depend entirely on your effort, consistency, and execution.
- **Network Approval Hurdle:** Pay-per-call networks can be selective, so you must follow the training's guidance carefully to secure your publisher accounts.
- **Initial Learning Curve:** Setting up your first funnel requires learning a new workflow, even with AI assistance.

Conclusion and Final Verdict

Traditional affiliate marketing has left a lot of digital marketers burned out. Between fierce competition, saturated product launches, and the sheer psychological weight of trying to sell strangers online, finding a sustainable path forward can feel daunting.

RHIMS 10: Get Paid Per Call offers a refreshing, practical alternative. By shifting the focus away from selling products and toward connecting motivated callers with local businesses that desperately need them, it opens up a unique monetization avenue that many beginners overlook.

With its low entry price, helpful AI prompt integration, free-traffic strategies, and robust 180-day guarantee, RHIMS 10 is well worth a serious look for anyone wanting a structured, low-risk introduction to pay-per-call marketing.

If you are willing to follow a step-by-step process and put in the initial setup work, RHIMS 10 provides all the tools and guidance you need to succeed. Highly recommended!
