

A TASK AWAITS YOU IN THE WASTE COLLECTION AREA!

Taming the rubbish mountains doesn't require heroic deeds, but there's always plenty for heroes to do – and now you can become one too!

Take on the waste shelter superheroes challenge and make sure the right rubbish bag ends up in the right bin. Fill in the game board by colouring a new square after each successful task. When all the squares are filled, you've earned your cape as a true superhero among other heroes!

BIOWASTE	CARDBOARD	GLASS	MIXED WASTE
			Only clean, store-bought packaging belongs in plastic recycling. Plastic toys or even toothbrushes should be disposed of in mixed waste.
Did you know that banana peels and lettuce stumps are turned into fuel at a biogas plant, powering vehicles like lorries!			
	Cardboard is thick, multi-layered paper. It is usually brown in colour.		
		Glass jars and bottles can be recycled with their labels on. However, take deposit bottles back to the shop – you'll earn some money and the glass will be recycled!
