GOVERNING BODIES

The President and CEO implements the operative business with the assistance of the Corporate Management Group. Internal audit subordinate to the Board of Directors is responsible for internal auditing and auditors are responsible for the external auditing.

The general meeting

The general meeting of the shareholders is SATO’s supreme decision-making body. The annual general meeting is to be held once a year within six months of the end of the financial year. An extraordinary general meeting is held when it is necessary according to the consideration of the Board of Directors or the Finnish Limited Liability Companies Act.

The annual general meeting decides on the matters due to it under the Finnish Limited Liability Companies Act and the articles of association. These include the adoption of the Company’s financial statements and consolidated financial statements, the use of profit indicated on the balance sheet, discharging the members of the Board of Directors and the President and CEO from liability, electing the members and Chair of the Board of Directors and an auditor, and determining the remuneration to be payable to them. The meeting may also handle other matters to be dealt with at a general meeting in accordance with the Finnish Limited Liability Companies Act, such as share issues, acquisition of the Company’s

own shares and amendments to the articles of association. The meeting also deals with matters which a shareholder has requested to be dealt with at a general meeting in accordance with the Finnish Limited Liability Companies Act.

SATO has a single series of shares. Each share confers entitlement to one vote at a general meeting. Entitlement to attend the general meeting is held by a shareholder who has been entered in the register of shareholders maintained by Euroclear Finland eight working days before the general meeting. The Finnish Limited Liability Companies Act also contains regulations concerning nominee-registered shareholders.

In order to ensure the dialogue between shareholders and Company bodies and to fulfil shareholders' entitlement to ask questions, the President and CEO, Chair of the Board of Directors and the Board members must attend the general meeting. Persons proposed as Board members must be present at a general meeting deciding on their election.

The Company's annual general meeting was held on 23 March 2018. A total of 16 shareholders attended the meeting, representing 96.17 per cent of the Company's shares and votes. DESCRIPTION OF THE PROCEDURES FOR INTERNAL CONTROL AND THE MAIN FEATURES OF RISK MANAGEMENT SYSTEMS

Internal control

The aim of internal control is to help to verify the efficiency, productiveness and reliability of the Group's operations, and to confirm the compliance of operations with the law and other regulations. In addition, SATO's activities are steered by SATO's internal instructions such as Code of Conduct. SATO's priority is that each person working for SATO Group is acquainted with rules and regulations regarding his/her own tasks and follows them. SATO organizes regularly training about internal instructions and it is an essential part of introduction for work.

The Group's internal control systems serve i.a. to verify that the financial reports issued by the Company give essentially correct information on the financial standing of the Group. The Group has determined for the key spheres of its operations Group-wide principles which form the basis for internal control. Each of SATO's units has its own controller function to assure that the financial reporting meets with Group's instructions.

Responsibility for the arrangement of internal control is held by the Board of Directors and by the President and CEO who implement the resolutions of the Board. Each member of the Board of Directors is sent a monthly report on the Group's finan-

cial position and operating environment. The Audit Committee of the Board of Directors oversees the effectiveness of internal control and the accuracy of the financial reporting. Responsibility for the performance of internal control is held by the operational organisation of the entire Group, in such a way that each Group employee is responsible to his or her supervisor at all times for the supervision of his or her sphere of responsibility.

The content of the reporting process and compliance with regulations are the responsibility of the Group's financial administration. The Group's financial reporting process complies with the Group's operational guidelines and process descriptions as well as control measures for ensuring the quality of reporting. The controls on the reporting process have been specified on the basis of a control risk assessment matrix for the process. The types of controls are, for example, system controls, specifications, or audits or actions carried out by management or another party. Responsible parties have been allocated for controls which are in charge of the implementation and effectiveness of the controls.

The interpretation and application of accounting standards has been consolidated in the hands of the Group's financial administration, which maintains operating guidelines on financial reporting, process descriptions, calculation manuals and control mechanism descriptions, and which attends to the associated in-house communications. The Group's financial administration also oversees compliance with these instructions and procedures. The monitoring of the budgeting and reporting processes is based on the Group's

reporting principles, for which the definition and centralised maintenance is the responsibility of the Group's financial administration. The principles are applied uniformly throughout the Group and a standardised Group reporting system is in use.

Risk management

SATO's risk management is based on the risk assessment embodied in the strategic and annual planning process. Risk assessment also covers the risks of the financial reporting process. Business risks are categorised as strategic and operative risks as well as financing and market risks. The controls on the financial reporting process are specified on the basis of a separate survey of reporting process risks.

Responsibility for the arrangement of risk management is held by the Company's Board of Directors and the CEO. The internal audit and internal control support the Board of Directors in performing its duty of supervision. The mission of the Audit Committee is to assess the adequacy and appropriateness of risk management processes and risk management. The Audit Committee reports to the Board of Directors, which supervises the risk management.

Internal audit

Internal audit supports the Board of Directors in performing its duty of supervision. Internal audit acts in accordance with the annual plan approved by the Audit Committee of the Board. Audit objects are elected in accordance with the Group's strategic targets, estimated risks and focus areas. In year 2018 the internal audit conducted five audits.

The internal audit assesses, independently and systematically, the functionality, efficiency and appropriateness of the Group's management and governance systems, as well as the business processes and risk management. In its reports, the internal audit makes recommendations for the improvement of systems and processes.

The aim of the internal audit is to give reasonable reliability of the correctness of financial and business reporting, the appropriate management of the Company's assets and the legality of Company's activities. In addition, the internal audit aims to promote the development of the risk management. The person liable for the internal audit reports to the Chief Financial Officer (as the member of the organisation) and the findings of internal audit to the President and CEO as well as to the Audit Committee of the Board.

SATO's rules concerning insider trading are based on the EU's Market Abuse Regulation (596/2014, "MAR"), the Finnish Securities Markets Act and they comply with the standards of the Financial Supervisory Authority and the guidelines of the Helsinki and Irish stock exchanges where these apply to an issuer of listed bonds.

The insider guidelines include, among other things, guidelines concerning trading in SATO's financial instruments. SATO has no permanent insiders and it does not maintain a list of permanent insiders. A project-specific list of insiders is based on a decision by the President and CEO or, if he/she is recused, the CFO. Insider information is in particular information that concerns the ability of SATO and the SATO Group to fulfil their commitments in respect of issued bonds.
