

ETS surcharge adjustment rules 2024

ETS surcharge will be adjusted on a monthly basis.

Adjustments will be done on the 1st day of the calendar month and be valid for one calendar month.

ETS surcharge will be calculated based on a one-month average EUR per metric tonne price for CO2 emissions up to the 20th day of the previous month (e.g. March based on 20th January to 20th February).

Includes 100% of emissions for voyages within the EU & EEA, 50% of the emissions from voyages starting or ending outside of the EU.

Covers 40% of total CO2 emissions in 2024, with increase to cover 70% in 2025 and 100% from 2026 onwards.

Surcharge rules are valid for all routes.

The CO2 emissions price can be followed [here](#)

Emissions price EUR/tCO2 price	75,01-80,00	80,01-85,00	85,01-90,00	90,01-95,00	95,01-100,00	100,01-105,00	105,01-110,00	110,01-115,00	115,01-120,00
