REVISION HISTORY

*Revision Date	*RV	Explanation	Revision No
*Review Date	*RW		

DFDS is committed to complying with the laws, regulations, and the ISO 27001 Information Security Management System standard while conducting its operations. It pledges to continuously develop and improve its existing management system, ensuring the confidentiality, integrity, and availability of information by adopting the following principles:

- Defining information security objectives and activities, planning, implementing, monitoring, and continuously improving the management system within the company,
- Establishing, documenting, and continuously improving policies and procedures in accordance with the standard,
- Ensuring business continuity and securing all information assets,
- Identifying activities and information assets, taking necessary actions to minimize risks based on risk and opportunity assessments,
- Initiating and tracking relevant processes in case of an information security violation and taking measures to reduce such incidents,
- Protecting information assets against cyber threats and malicious software,
- Following up on the latest technologies and innovations in information security and developing appropriate solutions,
- Providing training to enhance competency and raise awareness of information security within the organization,
- Ensuring that the policy is communicated to stakeholders, remains accessible, and stays up to date.

This policy applies to DFDS Group companies, including Ekol Transport A.Ş., Ekol Lojistik LTD. ŞTİ., and Ekol Gümrük Müşavirliği Tic. LTD. ŞTİ.
