# THE GOOD GUYS<sup>®</sup>

## Our Installer Network

Our network of experienced and professional installers go through a rigorous onboarding and compliance process. We support them with on-site spot checks and feedback reviews to ensure we're providing an authentic, genuine and convenient in-home service experience.

## "From" Pricing

Each service is priced based on the skill set and average time required to complete the scope of work. Some jobs may need to be re-quoted and scoped to ensure they can be carried out safely. Our team will always be transparent about any additional costs. For more complex jobs, please contact us to discuss.

## HOW IT WORKS

### 1. Main installation

When selecting The Good Guys installation services, select one MAIN installation service for the product. This covers getting the installer to the site and the first install service.

### 2. Additional installs

For installations of additional products in the same visit, COMBO pricing is applicable.

### 3. Service add-ons

Customise the job with service add-ons like Delivery, Cable Hiding and E-Waste removal or additional time for product tutorials.

Once your booking is made: We'll SMS you with a link to manage your booking where you can add it to your calendar or reschedule if needed. Your installer will provide an updated arrival window by 9am on the day of your installation. You'll get another SMS once the installer is on the way.
