

Kia ora,

We have now opened NIPS registrations for 2022. After two Covid-impacted years, we are excited to bring the NIPS event back this year and look forward to your involvement.

This season, we have had to make some changes to how we run NIPS. These changes will ensure a great event for all involved, while also acknowledging some limitations at our end, brought upon by Covid-19.

This year, we will initially limit registrations to two teams per school. This limitation has been determined based on the number of qualified staff members we have available to successfully run the programme. Our team continues to be heavily impacted by the pandemic, both in terms of numbers but also in qualifications, of staff able to run an event of this standing.

After receiving registrations, due by Friday 8 July, we will assess numbers and look at opportunities to open further registrations. There is space on the registration form to list further teams that you would like to register, should space allow. We will be able to confirm final registrations, either way, by Monday 11 July.

Thanks for your understanding and support in getting NIPS back on the calendar for 2022.

Ngā mihi nui
