CYWARE™ | Overview

Outpace Threats with Agentic AI-Powered Threat Intelligence Management

Secure your organization with a Continuous Threat Operationalization Platform that transforms cyber threat intelligence into action.

Cyware empowers security teams to operationalize threat intelligence and take real-time action. Our platform unifies threat management, secure collaboration, and automation to help organizations outpace adversaries with speed and precision.

From enterprises and governments to ISACs and critical infrastructure, Cyware solutions are designed to enable defenders to transform intelligence into meaningful, measurable outcomes.

Our Vision

Build a unified ecosystem where every security team collaborates seamlessly, automates intelligently, and advances collective defense.

Our Mission

To empower security teams with agentic AI-powered solutions that help transform cyber threat intelligence into coordinated, real-time defense.

Drive Collective Defense with Operationalized Intelligence and AI-Powered Threat Response

Turn Threat Intelligence into Real-Time Action with Unified Management

Manage the full threat intelligence lifecycle, detect compromised credentials, operationalize out-of-the-box feeds and advisories, and enable seamless collaboration.

Accelerate Threat Response with Agentic AI and Intelligent Automation

Respond faster using agentic AI, automated playbooks, and intelligence-led, adaptive workflows that orchestrate actions across your entire security stack.

Collaborate and Share Intelligence Securely Across Your Ecosystem

Exchange threat intelligence in real time across teams, partners, ISACs, and ISAOs to strengthen collective defense.

From Intelligence to Action: The Cyware Product Suite

Cyware Intel Exchange

Automatically ingest feeds from multiple sources, enrich indicators with contextual data, and deliver actionable intelligence to the right teams at the right time.

Cyware Orchestrate

Connect disparate security tools, automate repetitive tasks, and orchestrate complex response workflows to accelerate incident response and reduce manual effort.

Cyware Respond

Track investigations, coordinate response activities, maintain audit trails, and ensure consistent incident handling procedures across your SOC.

Cyware Quarterback AI

Enhance threat detection, mitigation, and response capabilities by hyperautomating workflows with the help of an agentic AI-powered assistant.

Cyware Collaborate

Collaborate securely with internal teams, external partners, ISACs, and ISAOs while maintaining full control over sensitive threat intelligence data.

The World's Leading Security Teams Trust Cyware

From finance and government to healthcare and energy, organizations rely on Cyware to protect critical sectors. Our people and technology work around the clock to safeguard the digital world.

Our platform doesn't just streamline operations, it transforms them.

- Automated Threat Intelligence Enrichment
- Premium Out-of-the-Box Threat Intelligence Feeds
- STIX/TAXII-based Bi-directional Threat Intel Sharing
- Bi-directional Data Sharing Across Security Tools
- Customized and Contextual IOC Scoring
- Compromised Credential Management
- TTP Tracking, Analysis, and Actioning
- Threat Campaign Investigation and Tracking
- Malware Sandbox Analysis and Correlation
- Unstructured Threat Intelligence Operationalization
- Playbook-Driven Threat Intel Actioning
- AI-Powered Threat Intelligence Lifecycle Management
- Analyst-to-Analyst Collaboration and more.

> Cyware helps bridge inter-team silos by consolidating the entire SecOps infrastructure into a single pane of glass for delivering unified, automated threat response with centralized threat visibility, analysis, and control
>
> - **Former CISO, Arvest Bank Bank**

> The Cyware platform is easy to navigate, and a simple search of 'finance' is enough to determine whether there are any cyberattacks we need to be aware of.
>
> - **Cyber Threat Hunt Specialist, Quilter**

> We are grateful for the continued partnership with Cyware, which has enabled us to make sense of data faster and act in more precise, impactful ways.
>
> - **VP of Operations, MTS-ISAC**

Building a connected cybersecurity ecosystem to operate smarter, respond faster, and defend better.

Cyware integrates with over 400 leading security and IT tools such as SIEMs, SOARs, TIPs, and scanners to enable unified and automated workflows across your stack.

Our global network of channel partners, MSSPs, and technology alliances delivers flexible and scalable solutions to security teams worldwide.

400+ Integrations

Across Ingestion and Actioning Tools

TEAM CYMRU · splunk> · Microsoft · IBM Radar · zscaler · servicenow · aws · CROWDSTRIKE

Compliance Coverage

FedRAMP · Privacy Shield Framework · COALFIRE ISO 27001 CERTIFIED ISO · AICPA SOC · VPAT 508 Compliant
