Welcome to E-PIC

Elsevier Product Insights for Customers offers you a free and unique view on your institution's engagement with research content and tools.

It is meant for administrators and librarians who recognize the role of great content and tools in a successful research strategy. It is the result of Elsevier's enduring focus on customer value and transparency.

Understand the usage of tools and content, explore gaps in your portfolio, gain information to promote adoption of tools and find out where your institution is trending.
