

Harness Faculty Talent to Solve Challenges in Schools of Medicine

Top Challenges Facing Medical School Leaders Today

ACCREDITATION

LCME and COCA

accreditation is complex and time-consuming—and must reflect faculty's multi-dimensional work.

OVERWORKED FACULTY, ESPECIALLY PHYSICIAN FACULTY

66%

of faculty are reporting feeling burned out,¹ especially physician faculty

HYBRID IS HERE TO STAY

45%

Nearly half (45%) of institutions are implementing new business models

INCREASING DEI

“One of the most critical, overriding problems we face in academic medicine, in our private lives, and throughout society.”²

Faculty are central to solving these challenges.

And yet, there is no shortage of hurdles to faculty engagement.

Run equitable hiring, review, promotion, and tenure with **limited administrative burden**

Automate and showcase faculty expertise to support institutional strategy

Facilitate, measure, report, and recognize high-value faculty work **to maintain LCME and COCA accreditations**

What is the best path forward?

Academic leaders identified these necessary components for faculty engagement.

Optimized Scholar Career Trajectory

Seamless Governance Processes

Automated Faculty Data for Real-time Insights

Analytics to Inform Strategic Plans
