STATdx discovery insights

Dr Yogesh Mate

My name is Dr Yogesh Mate. As a general radiologist at Apex Radiology (part of Integral Diagnostics Group) in Australia, I have relied on [STATdx](#) consistently, finding it to be an exceptional, comprehensive, and reliable “one-stop shop” for all my difficult and challenging cases.

What are the biggest benefits you found in using STATdx in your day to day routine?

The greatest benefit of using [STATdx](#) is the extensive collection of diagnostic images coupled with a systematic approach that encompasses etiology, demographics, clinical presentation, imaging features, and differential diagnosis. This structure greatly enhances my ability to analyze complex cases efficiently and confidently, ensuring accurate and thorough evaluations.

How has STATdx impacted your diagnostic process?

[STATdx](#)'s extensive content covering all systems and modalities, clarity, and ease of access have significantly improved my diagnostic process. I particularly appreciate the depth of information available, which helps me navigate complex cases with confidence and saves a lot of time needed to do the research for difficult cases.

If you had a colleague that was considering STATdx, what would you tell them?

I would be pleased to recommend [STATdx](#) to my colleagues as a vital tool for their daily practice, knowing the positive impact it can have on their diagnostic efficiency and confidence.

Since I started using [STATdx](#) I rarely need to use any other online platform or textbooks.

It is evident that a great deal of effort and expertise goes into maintaining and updating [STATdx](#), and I want to acknowledge and thank you for your ongoing commitment to supporting the radiology community. Your resource has become an integral part of my professional toolkit, and I am grateful for the continuous value it provides.
