

MRWs

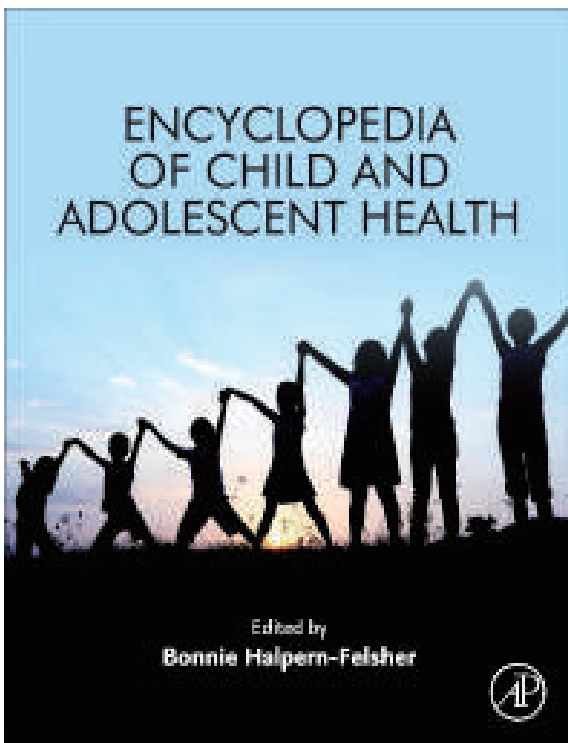

백과사전

우리는 대부분 저널에 실린 글을 통해 학문적 문헌을 접하게 됩니다. 하지만 연구자는 학제적 연구를 통해 새로운 주제 영역을 발견함과 동시에 기반이 되는 지식에 접할 수 있는 권위있는 수단이 필요합니다. MRWs는 이에 도움을 줄 수 있습니다. 연구자와 학생들이 새로운 분야와 학제적 연구에 필요한 지식과 신뢰를 구축할 수 있는 기반 지식을 제공하기 때문입니다.

Encyclopedia of Child and Adolescent Health

ISBN: 9780128188729

저자: Bonnie Halpern-Felsher

출판 년도 : 2023

생물심리사회 모델로 알려진 Encyclopedia of Child and Adolescent Health는 아동 및 청소년 발달과 신체와 정신 건강의 여러 측면을 다루고 있습니다. 생물심리사회 모델에 따르면 건강은 생물학적(e.g., 유전학, 신체 발달, 가족 병력), 심리적(e.g., 정신 건강, 정체성 발달, 태도), 사회적(e.g., 가족, 동료, 학교, 사회적 지원) 요인의 상호 작용으로 정해집니다. 해당 이론은 각각의 요인이 아닌 상호 작용하는 요소들이 건강에 어떤 영향을 미치는지 이해하는 것을 강조하고 있습니다. 이 책에는 생물심리사회 모델뿐만 아니라 중개연구에 의한 접근 방식도 함께 다루고 있습니다. 각 섹션과 모든 항목에는 건강과 건강 증진을 알리고 위험을 예방할 수 있는 노력에 대한 논의가 포함되어 있습니다.

ELSEVIER

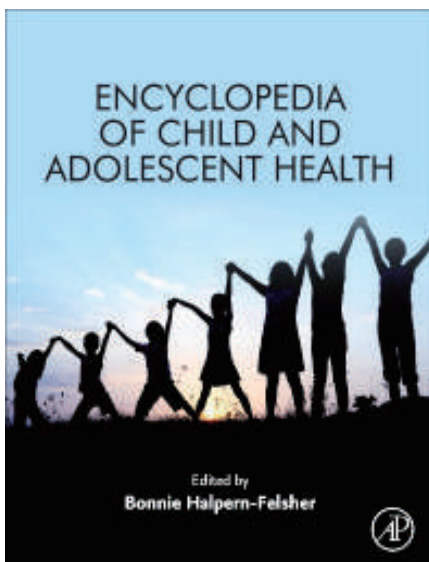

Meet the editors

Editor-in-Chief

Bonnie Halpern-Felsher

is the Marron and Mary Elizabeth Kendrick Professor in Pediatrics II and the Taube Endowed Research Faculty Scholar. Her primary appointment is in the Division of Adolescent Medicine, Department of Pediatrics. She holds courtesy appointments in the Departments of Epidemiology and Population Health and Psychiatry and Behavioral Sciences. She is the Director of the Stanford Reach Lab. Dr. Halpern-Felsher is a developmental psychologist with additional training in adolescent and young adult health. Funded by the NIH and many foundations, her research focuses on cognitive, psychosocial, and environmental factors involved in adolescent and young adult health-related decision-making, health communication, and prevention. She particularly focuses on understanding and reducing adolescent and young adult tobacco, alcohol and marijuana use, risky sexual behavior, driving, and other health-related behaviors. She then translates her research into prevention and cessation efforts and into informing policy. Her research as well as her committee and policy work have been instrumental in setting policy at the local, state, and national level. She has served as a consultant to a number of community-based adolescent health promotion programs and has been an active member on several national campaigns to understand and reduce adolescent tobacco/e-cigarette use and other risky behaviors. She has testified in several states, at the US Food and Drug Administration, and in the US Congress arguing for more tobacco/e-cigarette regulation, served on six Institute of Medicine/National Academies of Medicine committees, and contributed to three Surgeon General Reports, all focused on reducing adolescent risk behavior and promoting health. Dr. Halpern-Felsher also translates her research findings into adolescent prevention programs, such as three programs in which she is the founder and executive director: Tobacco Prevention Toolkit, the Cannabis Awareness and Prevention Toolkit, and the Vaping Information, Solutions, and Interventions Toolkit. In addition to her scholarly work, Dr. Halpern-Felsher developed and leads several programs and courses aimed at teaching research to undergraduate, graduate and medical students and fellows, and she developed and directs several mentoring programs for underrepresented youth. In recognition of her research, advocacy and mentoring roles, Dr. Halpern-Felsher has received several awards, including the Department of Pediatrics' Advocacy Award in 2019, the Postdoc Mentoring Award in 2019, and the Clinical Science Research Award in 2021.
