

## Head of Software Development (m/f/d)

E - C O M M E R C E

You prefer to write code in PHP and appreciate the benefits of a microservice-based architecture? You are passionate about topics related to AWS and would like to have a say in what direction fashionette will develop technologically? You enjoy leading teams and supporting them in their daily work? Then you should apply to us now, because we have the ideal position for you. For the further development of our eCommerce platform we are looking for a **Head of Software Development (m/f/d)**.

### YOUR RESPONSIBILITIES

- As Head of Software Development (m/f/d) you are responsible for the management and further development of our two development teams, which are based in the two European cities Malaga and Duesseldorf
- In close collaboration with the teams you will develop our microservice-architecture further and ensure that our platform can also be optimized in the future
- You develop technical solutions for complex, system-wide requirements
- You evaluate and rate new technologies and cloud services and give your recommendation to ensure that we will continuously have a sustainable technique-stack
- You identify technical debts, so we can continuously remove them and due to your foresight, you can ensure that technical debts will become less and less in the future
- Together with the teams you will develop our architecture and coding guidelines and monitor their compliance
- You will take our deployment process to the next level and ensure a smooth deployment to production

### YOUR QUALIFICATIONS

- You have at least 5 years of experience in software development with OO-PHP
- You have already gained first leadership experience
- You have already implemented projects using microservice architecture
- You are familiar with terms like Domain-driven Design, SOLID, DevOps, CI/CD, etc. and have a clear opinion
- You know the challenges of distributed teams and know how to handle them
- You have good communication skills, can explain complex issues easy and understandable and you know how to “sell” your solutions
- You can speak English fluently and in ideally also German

### OUR BENEFITS

- You can choose between a modern, well-equipped MacBook Pro or a Windows laptop, which you can also use privately
- You decide which events you want to visit so that you are always up to date about the latest developments
- You have a say in what technologies we will use and can leave your own footprint at fashionette
- You need to clear your mind? No Problem. Have some fun with your colleagues and play some Xbox or use our football table
- Hungry? We have a muesli, fruit and ice cream flat rate! And because enjoying some nuts from our snack bar can make you thirsty we also have a wide variety of free drinks to offer
- And because your health is important we also offer regular, free and in house massages
- Further benefits: occupational pension, regular Team-Events and company parties, holiday on Carnival Monday, individual office design + 50 € from us for your personal decoration of your desk, employee discount for most of our handbags

### ABOUT FASHIONETTE

We offer more than 6.000 handbags and accessories which are carefully selected and composed by our experienced style experts. To make sure that our customers can enjoy a great shopping experience, our international scrum teams are responsible for ensuring a smooth operation and the continuous improvement of our eCommerce platform. Herby we rely on agile methods, cross-functional teams, clean code, microservices and a strong test automation.

Since 2008 we are successfully active on the market and are growing continuously. Our philosophy includes flat hierarchies and comprehensive transparency across all levels – once a month we place all the cards on the table: Achievements, problems, concrete numbers

### OUR TECHNIQUE-STACK
