

CAREERS AT

fashionette[®]

fashionette offers a whole world of beautiful accessories from leading premium and luxury brands. We have been successfully established on the market since 2008 and are now one of the most popular online shops in German-speaking countries for designer bags, shoes and accessories as well as sunglasses, watches and jewellery.

With our range of more than 11,000 items from over 150 designers, many years of expertise and state-of-the-art, data-driven technology, we have set ourselves the goal of offering our customers an individual shopping experience, so that we can become Europe's leading online platform for fashion accessories in the premium and luxury sector.

To achieve this, we currently employ more than 150 people from different countries, of all different ages, and with different interests, abilities and talents, who are working together at fashionette. Because we truly embrace diversity. This makes fashionette flexible and strong so that as a national company operating internationally, we can successfully promote new ideas in all areas on a daily basis in a dynamic environment - from technology and logistics to operations and marketing, fashion and lifestyle.

OUR LOCATIONS

IN DÜSSELDORF

Welcome to our two centrally located office buildings. The location on Grafenberger Allee is in the beautiful district of Flingern and is well-connected to public transport. The location on Fichtenstrasse is also easily accessible by public transport. It offers plenty of space for internal logistics and all other departments that work directly with our products. Both locations can be reached within 10 minutes from the main railway station.

Your first impression: both locations offer modern and open-plan office space and the option of individual workplace design. Your second impression: we are here for you, from trainees to the management board. We have team events and company functions regularly.

OUR BENEFITS

What else makes us so special as an employer? In addition to a company pension scheme, we offer you numerous opportunities for further training, for example in Excel or languages. Flat hierarchies and comprehensive transparency across all levels are also important to us - once a month, we put our cards on the table: successes, problems and concrete figures are discussed in meetings with all our employees.

-  Company pension scheme
-  Further training opportunities
-  Employee discount
-  Subsidies for decorating your workplace
-  Flexible working hours
-  Good transport connections
-  Accessibility
-  Company doctor
-  Free drinks, fruit, breakfast cereal and ice cream
-  Massages
-  Team events
-  Table football, X-Box

OUR APPLICATION PROCESS

Our recruiting processes are tailored to the requirements of the respective department. In the first step, you will be invited for a telephone interview with an HR contact or a manager of the respective department to get a first impression of the position. In the second step, we will meet you at our offices for a face-to-face interview.

Here's how to reach us:
