Global Virtual

Hackathon
Friday | June 24, 2022

Presentation & Awards
Wednesday | June 29, 2022

celonis

1st Ecosystem Sustainability Hackathon.

Sustainability is more important than ever before. It is our conviction that a data-driven approach is needed to reveal and fix hidden inefficiencies that impact our planet.

We are excited to introduce our first Ecosystem Sustainability Hackathon, a global virtual event for our partners with a goal to inspire innovation and ultimately help your clients solve their biggest sustainability challenges.

Hackathon

Compete as a team and get support from our experts to develop a live sustainability app use case. Prizes will be awarded for creativity, impact and best overall solution.

All you need is an idea and a passion for sustainability. BYOD (bring your own data!) or we can provide.

Email sustainability@celonis.com for more information or sign up here to confirm your team's spot.

Agenda (CET)

9:00 AM	Welcome by the leadership & Kick-off for the day
9:30 AM	Break up in Teams for the 1st Hacking Session
12:30 PM	Break
1:30 PM	Enablement Session
2:00 PM	Networking Activity
3:00 PM	Sustainability Panel
3:30 PM	Break up in Teams 2nd Hacking Session
5:30 PM	Closing Notes & Digital Networking

Please confirm your team's participation by Friday, May 20, 2022.
