PRODUCT DESCRIPTION:

EcoVadis Sustainability Rating Solution

EcoVadis Sustainability Rating Solution is a sustainability assessment solution that supports companies and their trading partners in their transparency and sustainability practices by providing sustainability ratings based on trading partner assessments and access to tools that support corrective active management. In addition, the subscriber will have access to (i) Ecovadis experts to assist with its sustainability program and (ii) Ecovadis Academy.

1.   Component Overview

COMPONENT	DESCRIPTION
ECOVADIS RATINGS SOLUTION	Access to the EcoVadis Ratings solution, including relevant trading partner assessments, corrective action management, and other tools.
ECOVADIS IQ PLUS	Access to IQ functionality for supplier risk mapping / predictive risk scoring. - Live news Monitoring and Public Document Scanning abilities for a more robust risk assessment that doesn't require supplier engagement.
ECOVADIS CARBON ACTION MODULE	EcoVadis Carbon Action Module enables companies to engage trading partners and drive improvement of Carbon/GHG management practices.
SINGLE SIGN-ON (SSO)	Single Sign-On (SSO) authentication capability facilitates access to the EV10 platform.

3. Metric Definition

The pricing of Your subscription will be based on the size of the Customer Revenue. Customer Revenue is the annual revenue reported on Customer's most recent audited financial statements, as made available by the relevant regulatory body (e.g., U.S. Securities and Exchange Commission, Companies House, etc.) or by You (if You are not publicly traded).

Once the EcoVadis Sustainability Rating Solution is purchased, You will receive access to the EcoVadis platform and the related API, which allows You to view Your EcoVadis score and apply it for process improvement within Your Celonis Execution Management System (EMS) instance. The EcoVadis Sustainability Rating Solution is available from Celonis only in connection with a Celonis EMS instance.

The full functionality of EcoVadis Sustainability Rating Solution is only available in a full cloud deployment.
