

**Be a star in the process
mining constellation!**

REGISTER [HERE](#)

WHAT IS IT

A student alumni program by Celonis Academic Alliance – The Celostar programme creates a [talent community](#) for highly-skilled students, graduates and young professionals in the process sphere trained by Academic Alliance.

WHO

This community programme is specifically tailored towards top Process Mining talents. As a minimum requirements Applicants need to testify advanced Process Mining expertise through graduating from one of the below Academic Alliance training programmes. The following are eligible to apply:

- Global Internship Program (GIP) alumni
- Rising Star badge owners
- STaR (thesis & research) students
- Students who took a full Process Mining course as part of the curriculum (*with proof of study credits*)

WHAT TO EXPECT

The Celostar community provides a platform for mentoring, exchange and networking as well as professional development opportunities. The community is brought together both on- and offline through a LinkedIn Group Community as well as regular regional offline events.

A. LinkedIn Group Community

A platform to share career stories and learn about jobs in Process Mining, receive updates, news, and professional development opportunities within the industry.

B. Offline Workshop & Gathering

Offline opportunities for Celostars to meet, network, learn, and have an enjoyable time. Take part in regional offline events featuring our customers & partners.

VALUE & BENEFITS

- Network with fellow [Process Mining enthusiasts and professionals](#).
- Learn from experienced process miners and stay in the know about recent [trends & topics](#).
- Access to esteemed companies in the [Celonis customer & partner ecosystem](#).
- Enjoy lots of [fun](#) and excitement.
