Celonis Foundation Edition Activation

On the Initial Term Start Date for the Celonis Foundation Edition, Customer will be granted access to the Subscription Services listed on the Order Form. In addition, during the first 90 days of the Initial Term, Customer may elect to leverage any Celonis Activation made available by Celonis.

Celonis Activation is intended to support the Customer's initial use of the Celonis platform and may include the following:

- **Source system connection:** Your utilization of up to one standard data connector used to connect the Celonis platform to a single instance of your source system.
- **Standard OCDM setup & extraction:** Your mapping of standard tables, data, & Process view to the OCDM process related to the process module purchased.
- **Custom Events, Objects, & Perspectives:** Your utilization and validation of up to 10 custom objects or events.
- **Process Explorer:** Your ability to obtain an initial process overview.
- **Visualizing and interacting with your data:** Your ability to leverage our standard analytics assets (eg, Quickstarts, Business Miner, Standard Business apps available in the Marketplace).
- **Validation of process overview:** Your validation of one Process, exploration of up to 3 use cases and support for the review of up to three improvement opportunities.
- **Support Assessment of Platform Capabilities:** Your review of environment requirements to enable:
    - Notification automation
    - Source system writeback automation
    - Single sign-on (SSO)
- **Onboarding training:** Access one virtual training session led by an instructor for up to 5 attendees.
