# Celonis Certification Exams

# Celonis Certification Exams

## There are three Certification Exams:

Sales Professional  
Certification Exam

Analyst  
Certification Exam

Data Engineer  
Certification Exam

## General Certification Requirements:

Certified Partners need to have at least two individuals who are certified as a Sales Professional and two individuals who are certified as both an Analyst and a Data Engineer. In addition, any individuals working on a Celonis Implementation Project must be certified as either an Analyst, a Data Engineer, or both.

You become certified by completing the relevant exam with a passing grade of 80%.

## Sales Professional Certification Exam Details:

- The Sales Professional Certification Exams is free-of-charge and allows for an unlimited number of attempts to pass.
- Once you start, you are allowed 1 hour to complete the exam.

## Analyst and Data Engineer Certification Exam Details:

- The Analyst and Data Engineer Certification Exams each costs 200€ per person.
- Each of these purchased exams include two attempts to pass. An additional fee is required for the third and final attempt. Each exam must be taken within 90 days of purchase.
- Once you start, you are allowed 2 hours and 30 minutes to complete each exam.

You can purchase all Certification Exams directly in the training platform (<https://ims.celonis.com>).

Although the Certification Exams can technically be taken without doing any coursework or exercises, we do strongly suggest going through the entire Training Track to properly prepare. Certifications are valid for a year, starting from the date you pass the exam. You must take the exam every year to maintain the certification.

# Preparation: Sales Professional Certification Exam

Only relevant for  
Celonis Partners

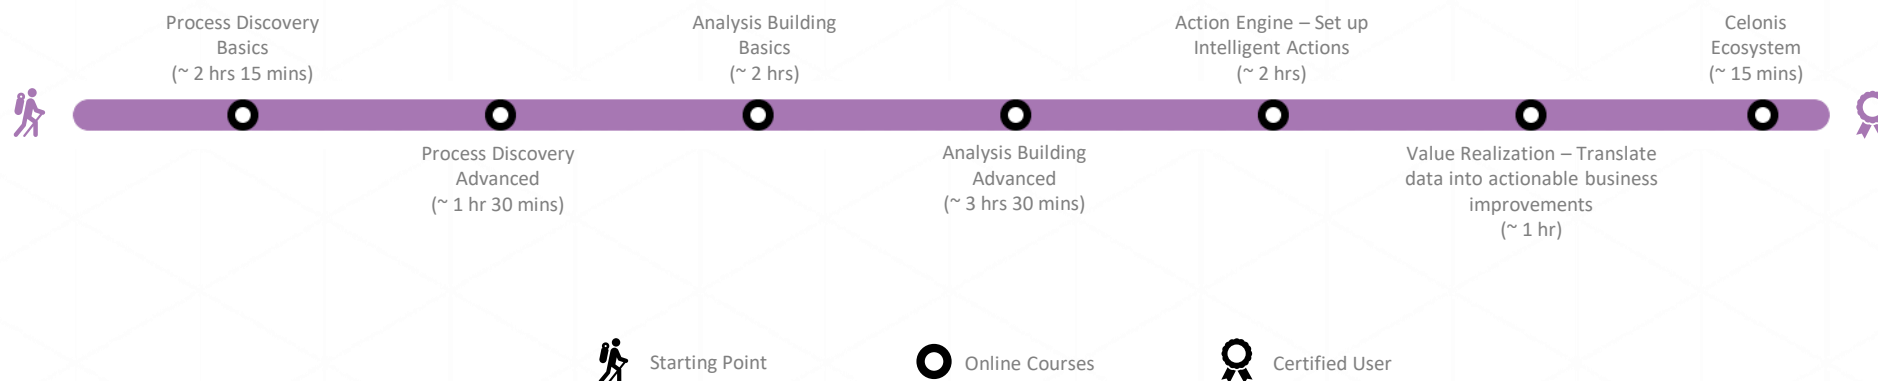

To prepare for the Sales Professional Certification Exam we strongly advise you to go through the entire Sales Professional Training Track.

# Preparation: Analyst Certification Exam

To prepare for the Analyst Certification Exam we strongly advise you to go through the entire Analyst Training Track.

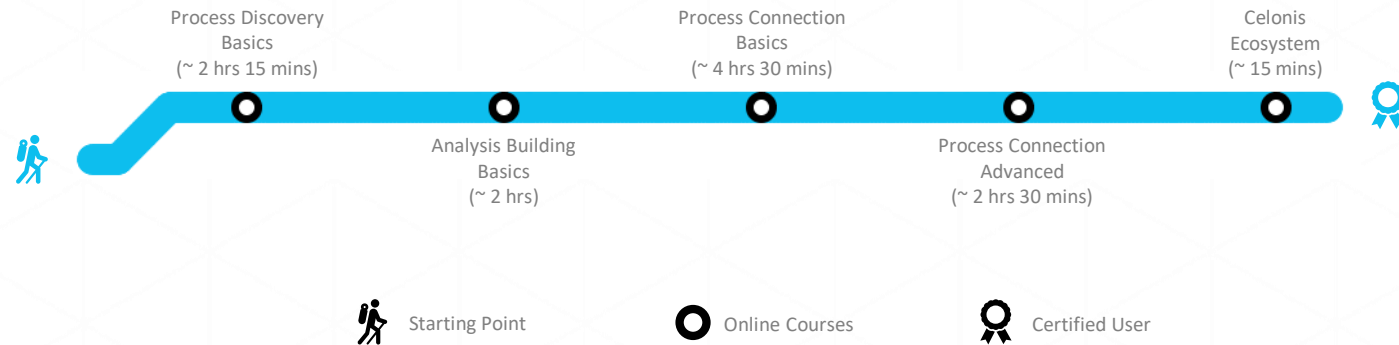

Note:

If you have already completed the old IBC online training (Viewer and Analyst), you should at minimum take the following courses in order to prepare for the exam: Analysis Building Advanced, Value Realization – Translate data into actionable business improvements, Celonis Ecosystem.

# Preparation: Data Engineer Certification Exam

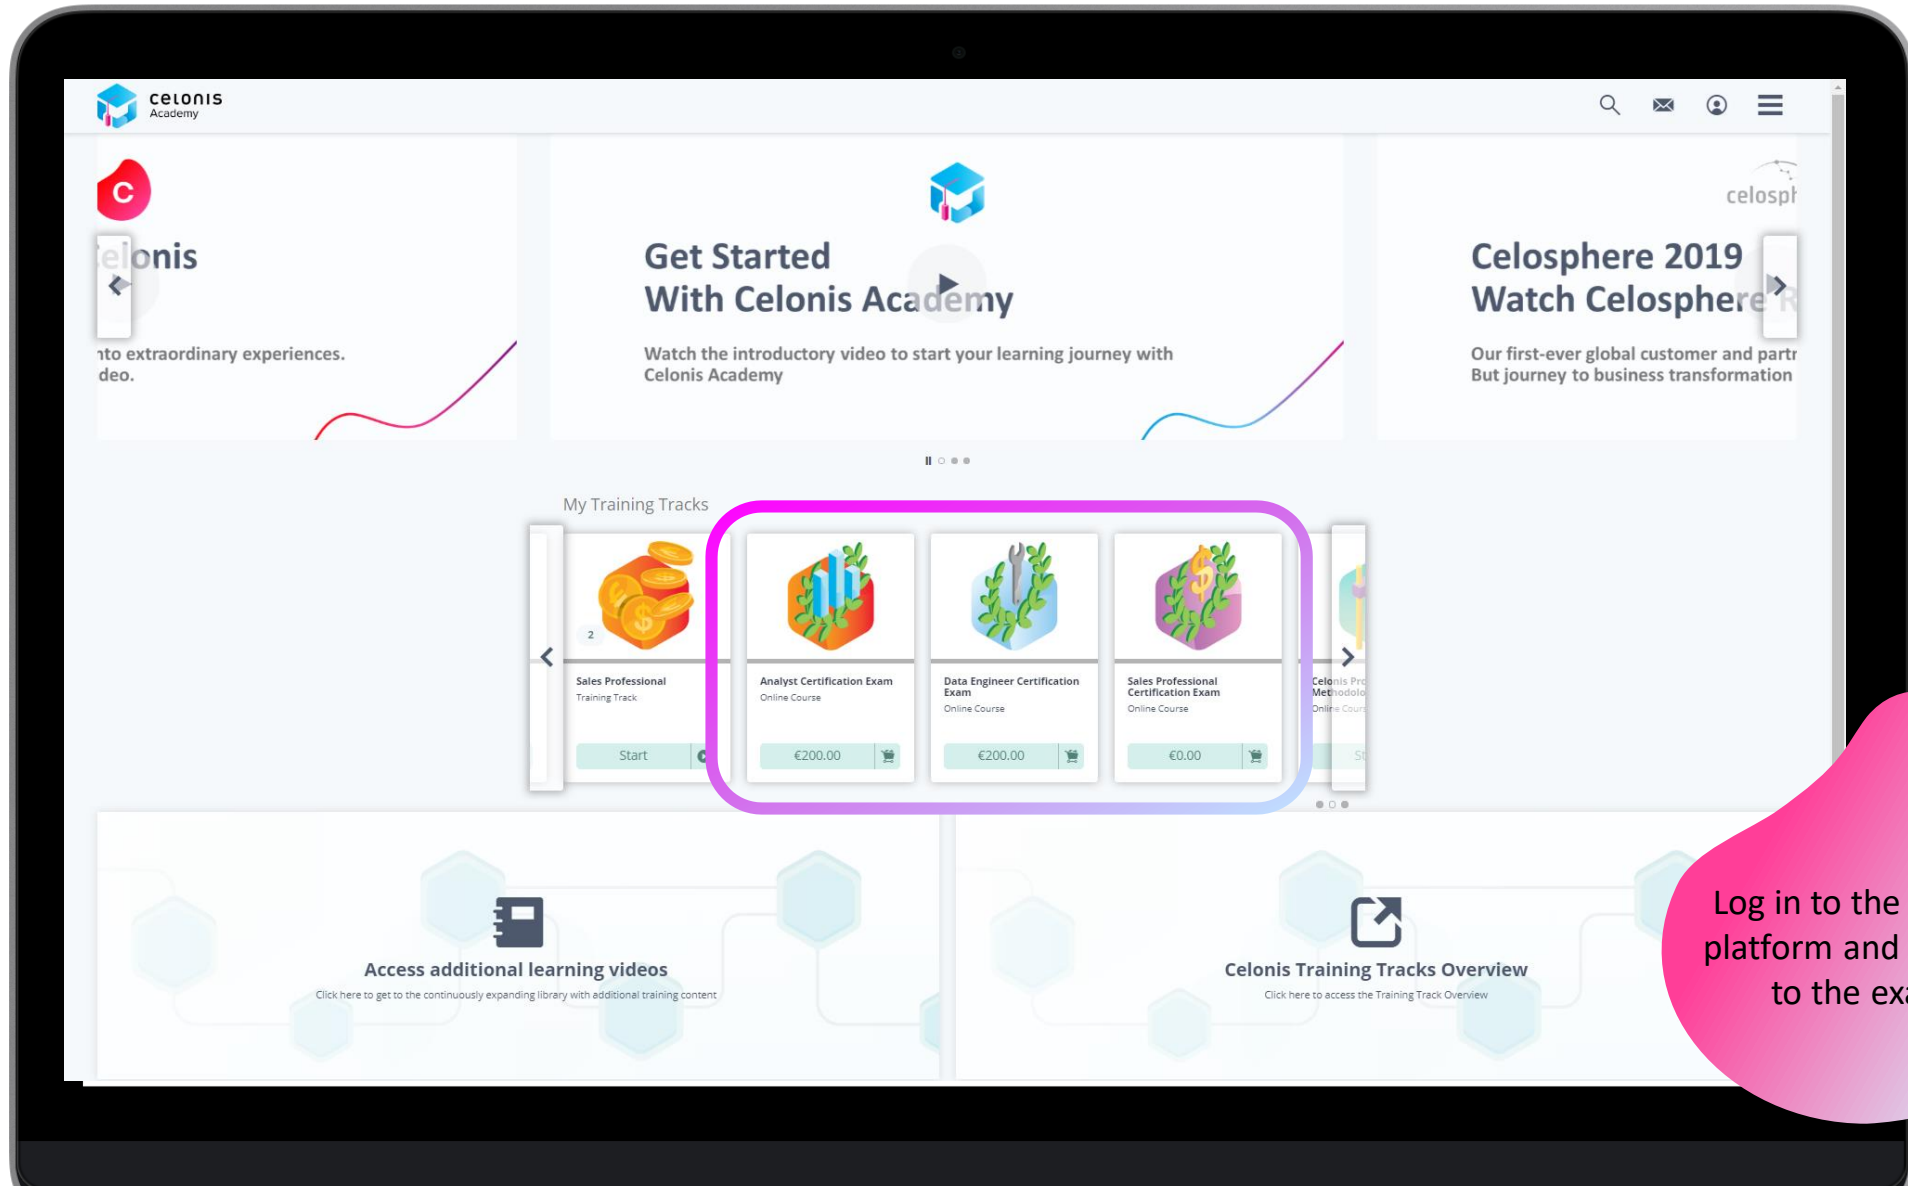

To prepare for the Data Engineer Certification Exam we strongly advise you to go through the entire Data Engineer Training Track.
